**The Truth of Catholicism** George Weigel, 2002 The Catholic Church may be the most controversial institution in the world Whether the question is the uniqueness of Jesus Christ the relationship of Catholicism to other religious communities the meaning of freedom the use and abuse of sex the dignity of human life from conception until natural death or the role of women the Catholic Church has taken challenging positions that some find inexplicable even cruel In *The Truth of Catholicism* George Weigel author of *Witness to Hope: The Biography of Pope John Paul II* explores these perennial questions and more showing Catholicism and its controversies from inside the convictions that make those controversies not only possible but necessary The truths of Catholicism then come into clearer focus as affirmations and celebrations of human life and human love even as they challenge us to imagine a daring future for humanity and for ourselves

*Freedom All The Way Up* Christian J. Barrigar, 2017-05-19 *Freedom All The Way Up* proposes four intertwined elements that make up the meaning of life self worth purpose identity and hope Materialism atheism claim the universe has no meaning so there is no larger purposeful story into which we can place ourselves we are left on our own to construct meaning for our lives Barrigar argues though that the universe possess God's meaning and purpose to provide the space and conditions by which to bring about the existence of agape capable beings in agape loving relationships with God and with others In effect the universe is a great freedom system designed by God with freedom built in all the way up from the Big Bang to the emergence of big brains and free will Barrigar describes the emergence of this system through his

novel agape probability account of God's design for the universe which integrates such disciplines as quantum physics statistical mechanics probability theory evolutionary psychology neuroscience and game theory This system sets up the conditions for a fundamental choice between autonomous freedom which focuses principally on self and agapic freedom which focuses principally on God and on others Materialism chooses autonomous freedom but thereby introduces nihilism into each of the elements of meaning In turns out that nihilism is a much greater problem for Materialism than suffering is for Theism In contrast agapic freedom infuses self worth purpose identity and hope with God's agape love dispelling Materialism's inherent nihilism Freedom All The Way Up provides a dramatic new proposal for God and the meaning of life in our scientific and humanist age

**Melancholic Freedom** David Kyuman Kim, 2007-06-25 Why does agency the capacity to make choices and to act in the world matter to us Why is it meaningful that our intentions have effects in the world that they reflect our sense of identity that they embody what we value David Kyuman Kim addresses these crucial questions by uncovering the political moral philosophical and religious dimensions of human agency Through a critical engagement with the work of theorists such as Judith Butler Charles Taylor and Stanley Cavell Kim argues that late modern and postmodern agency is found most effectively at work in what he calls projects of regenerating agency or critical and strategic responses to loss Agency as melancholic freedom begins and endures Kim maintains through the moral and psychic losses associated with a broad range of experiences including the moral identities shaped by secularized modernity and the multifold forms of alienation experienced by those who suffer the indignities of racial gender class and sexuality discrimination and oppression Kim calls for renewing the sense of urgency in our political and moral engagements by seeing agency as a vocation where the aspiration for self transformation and the human need for hope are fundamental concerns
