Healy Jr., 2015-07-15 In this Book David L Schindler and Nicholas J Healy Jr promote a deeper understanding of the Second Vatican Council s Declaration on Religious Freedom Dignitatis Humanae which Pope Paul VI characterized as one of the greatest documents of Vatican II In addition to presenting a new translation of the approved text of the Declaration they make available for the first time in English the five schemas drafts of the document that were presented to the Council bishops leading up to the final version The book also includes an original interpretive essay on Dignitatis Humanae by Schindler and an essay on the genesis and redaction history of the text by Healy Book jacket

African American Autobiography and the Quest for Freedom Roland L. Williams Jr., 2000-01-30 Slave narratives were one of the earliest forms of African American writing These works autobiographical in nature later fostered other pieces of African American autobiography Since the rise of Black Studies in the late 1960s leading critics have constructed black lives and letters as antitheses of the ways and writings of mainstream American culture According to such thinking black writing stems from a set of experiences very different from the world of whites and black autobiography must therefore differ radically from heroic white American tales But in pointing to differences between black and white autobiographical works these critics have overlooked the similarities This volume argues that the African American autobiography is a continuation of the epic tradition much as the prose narratives of voyage by white Americans in the nineteenth century likewise represent the evolution of the epic genre The book makes clear that the writers of black autobiography have shared and shaped American culture and that their works are very much a part of American literature An introductory essay provides a theoretical framework for the chapters that follow It discusses the origins of African American autobiography and the larger themes of the epic tradition that are common to the works of both black and white authors The book then pairs representative African American autobiographies with similar works by white writers Thus the volume matches Olaudah Equiano s slave narrative with The Autobiography of Benjamin Franklin the Narrative of the Life of Frederick Douglass An American Slave with Richard Henry Dana s Two Years Before the Mast and Harriet Jacobs Incidents in the Life of a Slave Girl with Fanny Fern s Ruth Hall The study indicates that these various works all recognize the importance of learning as a means for attaining freedom The final chapter provides a broad survey of the African American autobiography

American Slavery, Irish Freedom Angela F. Murphy, 2010-05-24 Irish Americans who supported the movement for the repeal of the act of parliamentary union between Ireland and Great Britain during the early 1840s encountered controversy over the issue of American slavery Encouraged by abolitionists on both sides of the Atlantic repeal leader Daniel O Connell often spoke against slavery issuing appeals for Irish Americans to join the antislavery cause With each speech American repeal associations debated the proper response to such sentiments and often chose not to support

abolition In American Slavery Irish Freedom Angela F Murphy examines the interactions among abolitionists Irish nationalists and American citizens as the issues of slavery and abolition complicated the first transatlantic movement for Irish independence The call of Old World loyalties perceived duties of American citizenship and regional devotions collided for these Irish Americans as the slavery issue intertwined with their efforts on behalf of their homeland By looking at the makeup and rhetoric of the American repeal associations the pressures on Irish Americans applied by both abolitionists and American nativists and the domestic and transatlantic political situation that helped to define the repealers response to antislavery appeals Murphy investigates and explains why many Irish Americans did not support abolitionism Murphy refutes theories that Irish immigrants rejected the abolition movement primarily for reasons of religion political affiliation ethnicity or the desire to assert a white racial identity Instead she suggests their position emerged from Irish Americans intention to assert their loyalty toward their new republic during what was for them a very uncertain time The first book length study of the Irish repeal movement in the United States American Slavery Irish Freedom conveys the dilemmas that Irish Americans grappled with as they negotiated their identity and adapted to the duties of citizenship within a slaveholding republic shedding new light on the societal pressures they faced as the values of that new republic underwent tremendous change
