## **Freedom And Finance Democratization And Institutional Investors In Developing Countries:**

*Freedom and Finance* M. Haley, 2001-06-26 Within a decade private capital surpassed aid as the primary capital source for developing countries This book explores how the increase of private funds in particular portfolio capital effects democratization in developing countries A probe into institutional investors coordination asset concentration political preferences and activism provides a framework for understanding the politics of international financial constraints Highlighting the dilemma presented by international finance s simultaneous emphasis on austerity and stability the question of whether this public to private shift might facilitate an anti democratic strain is examined The Politics of Economic Inequality in Developing Countries P. Nel, 2008-02-13 Inequalities of wealth and income have a significant impact for the achievement of economic political and human development in developing countries This book argues that a high level of economic inequality undermines a country s growth potential retards the development of social capital and encourages corruption Development, Civil Society and Faith-Based Organizations G. Clarke, M. Jennings, T. Shaw, 2007-11-28 This book examines the role of faith based organizations in managing international aid providing services defending human rights and protecting democracy It argues that greater engagement with faith communities and organizations is needed and questions traditional secularism that has underpinned development policy and practice in the North Comparative Political Economy Georg Menz, 2017-12-01 This new and comprehensive volume covering the subfield of comparative political economy provides a detailed overview over its intellectual roots clarifies its contents and introduces the readers to key debates while identifying new and exciting avenues for future research Ideas interests and institutions have traditionally been the main focus points of this field but the volume argues that culture provides an additional and often neglected area providing the glue that keeps national models of capitalism hanging together The volume also develops pathways beyond the varieties of capitalism paradigm Building on a thorough and rigorous review of comparative capitalisms and a synthesis of the research strands that have built the bedrock of this subfield Comparative Political Economy explores the individual components of national models of capitalism and argues that these elements deserve closer scrutiny Their permutations have been considerable over the past thirty years and their study permits valuable insights both empirically and theoretically The empirical coverage of the book includes chapters covering industrial relations labour markets systems of education and training finance welfare state and debt In the conclusion research pathways forward are identified and the impact of energy security issues and environmental factors on the study of comparative capitalisms will be assessed **Offshore Finance and Small States** W. Vlcek, 2008-07-11 One path towards development taken by a number of small jurisdictions is the establishment of an offshore financial centre This text analyses the actual economic contribution for several small Caribbean economies and the impact to continued operation arising from an international initiative for the exchange of taxpayer information *Transnational Transfers and Global Development* S. Brown, 2016-06-10 This pioneering volume invites

scholars from different social science disciplines to contribute their competing perspectives to a far ranging albeit understudied dimension of globalization Globalization has been defined as progressively integrated national product and factor markets cemented by the revolution in transportation and communications technology This process has been driven by transnational corporations who have erected intricate global supply chains Such commercial advances have in turn intensified the interdependence among states and the authors raise a number of questions Can the multi variegated cross border activities in which such non state actors engage be analyzed through a single conceptual lens Can non state transnational transfers be so clearly distinguished from exchanges in practice What are the implications of transnational transfers where material and non material value is transferred abroad with no assurance or even expectation of reciprocal compensation for sovereignty The case studies range from the impact of worker remittances on failed states to capacity building by global civil society on behalf of nascent NGOs in China to the transfer of security or insecurity via peacekeepers track two diplomats and private security contractors

**The Politics of the New International Financial Architecture** Susanne Soederberg,2004-11 This is a critique of the attempts of the G7 industrialized countries to rewrite the rules of international finance It includes case studies on capital controls from Chile and Malaysia and is aimed at scholars and students of international political economy and development and reform activists

**World Orders, Development and Transformation** E. Sahle,2010-05-21 The book examines how hegemonic development ideas and practices emerged in the context of the changing world order post 1945 and how this transformation was characterized by neoliberalism and securitization of development and security Sahle also explores the rise of China and the start of Obama s presidency

**The Politics of Developmentalism in Mexico, Taiwan and South Korea** J. Minns,2006-01-10 Minns argues that the industrial transformations of Mexico South Korea and Taiwan were based on the existence of powerful developmentalist states in each It explores the origins of such states and their dynamics and connects the form of autonomy they enjoy within their countries to the policies they pursue
