Information Sharing and Data Protection in the Area of Freedom, Security and Justice Franziska Boehm, 2011-11-06 Privacy and data protection in police work and law enforcement cooperation has always been a challenging issue Current developments in EU internal security policy such as increased information sharing which includes the exchange of personal data between European law enforcement agencies and judicial actors in the area of freedom security and justice Europol Eurojust Frontex and OLAF and the access of EU agencies in particular Europol and Eurojust to data stored in European information systems such as the SIS II VIS CIS or Eurodac raise interesting questions regarding the balance between the rights of individuals and security interests This book deals with the complexity of the relations between these actors and offers for the first time a comprehensive overview of the structures for information exchange in the area of freedom security and justice and their compliance with data protection rules in this field

Fundamental Rights and Mutual Trust in the Area of Freedom, Security and Justice Ermioni Xanthopoulou, 2020-04-30 This book explores the relationship of mutual trust and fundamental rights in the Area of Freedom Security and Justice AFSJ of the European Union and asks whether there is any role for proportionality Mutual trust among Member States has long been presumed by the Court in a manner that mutual recognition was prioritised in regard to but to the detriment of the protection of fundamental rights After thoroughly reviewing this relationship this book offers a comprehensive framework of proportionality and explores its impact on the protection of fundamental rights in a mutual trust environment It applies a theoretical and a normative framework of proportionality to two case studies EU criminal and asylum law by reference to several fundamental rights enabling a carefully constructed analysis with useful parallels The book argues that such analysis based on proportionality is not always desirable and helpful for the protection of fundamental rights in this area and thoroughly explores its impact on the protection of fundamental rights vis vis mutual trust

The Constitutional Structure of Europe's Area of 'Freedom, Security and Justice' and the Right to Justification Ester Herlin-Karnell, 2019-04-18 This book explores the implications of freedom as a non domination oriented view for

understanding EU security regulation and its constitutional implications At a time when the European borders are under pressure and with the refugee and migration crisis which escalated in 2015 the idea of exploring a constitutional theory for the Area of Freedom Security and Justice AFSJ might seem to be a utopian project This appears especially true in the light of the increased threat of terrorism in Europe and on a global scale and where the expanding EU security agenda is often advanced through the administrative law path in contrast to the constitutional trajectory Add to this the prolonged financial crisis which continues to cast a long shadow on the future development of EU integration and which suggests that Europe needs to re invent itself beyond the sphere of economics Therefore it is precisely because of the current uncertainties regarding the progress of the EU and the constitutional law project that a constitutional take on the AFSJ is of particular importance The book investigates the meaning of non domination and the idea of justice and justification in the area of EU security regulation In doing so it focuses on the development of an AFSJ what it means and why it represents a fascinating example of contemporary constitutional law with interacting layers of security regulation human rights law and transnational legal theory at its core Policy change in the Area of Freedom, Security and Justice Florian Trauner, Ariadna Ripoll

Servent, 2014-10-30 The EU plays an increasingly important role in issues such as the fight against organised crime and the management of migration flows transforming the Area of Freedom Security and Justice AFSJ into a priority of the EU s political and legislative agenda This book investigates whether institutional change the gradual communitarisation of the AFSJ has triggered policy change and in doing so explores the nature and direction of this policy change By analysing the role of the EU s institutions in a systematic theory informed and comparative way it provides rich insights into the dynamics of EU decision making in areas involving high stakes for human rights and civil liberties Each chapter contains three sections examining the degree of policy change in the different AFSJ fields ranging from immigration and counter terrorism to data protection the role of EU institutions in this process of change a case study determining the mechanisms of change The book will be of interest to practitioners students and scholars of European politics and law EU policy making security and migration studies as well as institutional change **Freedom, State Security, and the Rule of Law** Anthony S.

Mathews, 1986-01-01 **Shaping a Genuine Area of Freedom, Security and Justice** Koen Lenaerts, Eugene Regan, Ulla Neergaard, Karsten Engsig Sørensen, 2024-10-31 This book provides an ambitious assessment of the increasing importance of case law in the field of the Area of Freedom Security and Justice on the evolution of EU law In recent years the Area of Freedom Security and Justice AFSJ has occupied an increasingly prominent place in the working of the European Union and by extension the Court of Justice CJEU Over three parts the book looks at the framework of the AFSJ its workings and finally the impact of EU law upon it The collection provides remarkable insights into the growing importance of the AFSJ and how EU law has evolved in light of this *Constitutional Life and Europe's Area of Freedom, Security and Justice* Alun Howard Gibbs, 2016-05-23 The challenge of thinking about the place of constitutionalism beyond the conventional categories of the

nation state has become a principal concern for legal and political scholars This book casts this issue in a different light by exploring the implications for the constitutionalism of legal integration in the European Union's area of freedom security and justice In doing so it makes a novel contribution to an understanding of the European Union as a political community beyond the state but in addition explores how this entails thinking differently about what is essential concerning constitutionalism The book argues that instead of seeking to theorise constitutional foundations we actually begin to encounter the constitutional life implied by political and legal practices in the European Union and as exemplified here by the area of freedom security and justice

Supranational Governance of Europe's Area of Freedom, Security and Justice Christian Kaunert, John Occhipinti, Sarah Leonard, 2016-03-17 This book examines the evolution towards increased supranational governance in the EU's Area of Freedom Security and Justice AFSJ At the end of 2009 a successor programme to the Tampere and Hague Programmes was developed under the Swedish Presidency Called the Stockholm Programme it was adopted at a special EU Council Summit on 10-11 December 2009 The new agenda covers the period 2010-2014 and emphasises six areas of priority In the context of these priorities as well as the innovations introduced by the Lisbon Treaty this edited book analyses policy change in the AFSJ especially as it has been affected by the rise of supranational governance in this domain From police cooperation and crime fighting to border management and counter terrorism much has changed and the EU has taken yet another step forward in the direction of supranational governance However the various contributions also highlight that there are still problems and challenges remaining for the AFSJ Collectively this book considers how consequential the Lisbon Treaty has been for the AFSJ as well as how successful the EU has been in achieving its stated goals as expressed in the Stockholm Programme Thus this book makes a significant contribution to the scholarly investigation of the AFSJ but also to the study of European integration in general This book was published as a special issue of the Cambridge Review of International Affairs

The Area of Freedom, Security and Justice in the Enlarged Europe K. Henderson, 2004-11-30 The European Union is constantly changing both in the number of countries it embraces and in policy areas where it plays a major role The new millennium has witnessed two major changes in the EU's scope On 1 May 2004 it enlarged to include ten new member states and the new European Constitution defines providing citizens with an area of freedom security and justice as one of its primary aims This book is unique in analyzing the interplay of the two spheres

The Long Decade Christopher David Jenkins, Amanda Jacobsen, Anders Henriksen, 2014 The terrorist attacks of 9/11 precipitated significant legal changes over the ensuing ten years a long decade that saw both domestic and international legal systems evolve in reaction to the seemingly permanent threat of international terrorism At the same time globalization produced worldwide insecurity that weakened the nation state's ability to monopolize violence and assure safety for its people The Long Decade How 9/11 Changed the Law contains contributions by international legal scholars who critically reflect on how the terrorist attacks of 9/11 precipitated these legal changes This book examines how the uncertainties of the

long decade made fear a political and legal force challenged national constitutional orders altered fundamental assumptions about the rule of law and ultimately raised questions about how democracy and human rights can cope with competing security pressures while considering the complex process of crafting anti terrorism measures The Politics of Insecurity

Jef Huysmans, 2006-09-27 The act of violence of 9 11 changed the global security agenda catapulting terrorism to the top of the agenda Weapons of mass destruction grabbed public interest and controlling the free movement of people became a national security priority In this volume Jef Huysmans critically engages with theoretical developments in international relations and security studies to develop a conceptual framework for studying security He argues that security policies and responses do not appear out of the blue but are part of a continuous and gradual process pre structured by previous developments He examines this process of securitization and explores how an issue on the basis of the distribution and administration of fear becomes a security policy Huysmans then applies this theory to provide a detailed analysis of migration asylum and refuge in the European Union This theoretically sophisticated yet accessible volume makes an important contribution to the study of security migration and European politics Whose Freedom, Security and Justice?

Anneliese Baldaccini, Elspeth Guild, Helen Toner, 2007-06-28 This book brings together contributions from some of the leading authorities in the field of EU immigration and asylum law to reflect upon developments since the Amsterdam Treaty and particularly the Tampere European Council in 1999 At Tampere Heads of State and Government met to set guidelines for the implementation of the powers and competences introduced by the Amsterdam Treaty and make the development of the Union as an area of freedom security and justice a reality Since 1999 a substantial body of law and policy has developed but the process has been lengthy and the results open to critique This book presents a series of analyses of and reflections on the major legal instruments and policy themes with the underlying question to what extent the ideals held out of freedom security and justice accessible to all are in fact reflected in these legislative and policy developments Has freedom from terrorism and the spectre of illegal or irregular migration and increasingly strict border securitisation and surveillance overshadowed the freedom of the migrant to seek entry or residence for legitimate touristic work study or family reasons a secure refuge from persecution and effective access to justice In 2004 the Heads of State and Government presented a programme for the next stage of development in these areas the Hague Programme and the Directives and Regulations that have been agreed are now being transposed and applied in Member States legal systems What are the main challenges in the years ahead as the Hague Programme and the existing legislative acquis are implemented *Security versus Justice?* Ms

Florian Geyer, Professor Elspeth Guild, 2013-03-28 One of the most dynamic areas of EU law since the great changes brought to the EU constitutional order by the Amsterdam Treaty in 1999 has been cooperation in the fields of policing and criminal justice Both fields have already been the subject of substantial legislative effort in the EU and an increasing amount of judicial activity in the European Court of Justice In 2007 after the Constitutional Treaty of 2004 failed the new Reform Treaty

planned very substantive changes to these policies Bringing together a wide ranging set of topics and contributors this book enables readers to understand these changes by examining three key questions how did we get to the Reform Treaty what have been and still are the key struggles in competence and how do the changes fit into the transformation of police and judicial cooperation in criminal matters in the EU

Freedom, Security and Justice in the European Union Ronald L. Holzhaecker, Paul Luif, 2013-08-28 As the European Union has evolved it has also begun to address policy questions which are closer to the very heart of the state From cooperation in Justice and Home Affairs originally conceived as the third pillar of European cooperation has emerged the Area of Freedom Security and Justice AFSJ A unique aspect of policy in this area is the desire to integrate the internal and external dimensions of this policy area One of the tensions in this policy area has been balancing the protection of fundamental rights and increasing security The first part of this book focuses on the institutional relations of policymaking in AFSJ both within member states and between member states in particular the issues of national executive control national parliamentary scrutiny and peer review across the member states with regard to AFSJ The second part focuses on specific policy areas which are part of AFSJ Two chapters highlight the tension found in this policy area between security and human or fundamental rights the first related to data retention and the second on policing external borders The final two chapters are concerned with data exchange among European countries and transatlantically with the US and the interface between AFSJ and the Common Foreign and Security Policy CFSP The chapters contained in the book were presented at the Dutch Ministry of the Interior and Kingdom Relations and the Dutch national parliament Tweede Kamer making it of interest to scholars and practitioners alike
