D. Stewart,2015-02-16 Historically the Reformed and Charismatic streams have seemed to be almost mutually exclusive In recent years this exclusivity has been being challenged by a new generation of Reformed thinkers This work aims at considering the contribution of John Wimber the late leader of the Vineyard Churches to contemporary theological reflection within the Reformed tradition Taking into account John Wimber s unique theology of the radical middle which is somewhere between Pentecostal and Evangelical this book asks whether Wimber may be a possible alternative source for the contemporary Reformed Churches as they approach ministry and mission in the twenty first century Written from a confessional Presbyterian context in Northern Ireland *Word and Power* places Wimber in his theological context and asks whether Wimber s view of power evangelism discipleship formation and ministry training might be a model that Reformed Churches and Presbyterians in particular could adopt for their ecclesiology today Opposite Religions Still? Brian K. Lambkin,1996 This book is concerned with how schoolchildren in Northern Ireland perceive their own and each other s religious traditions how they perceive the inter connection of religion and politics and how they perceive the other side Building mainly on the work of Whyte Hickey and Bruce it argues that a consensus about the interpretation of the conflict is emerging Using Boyle and Hadden s work on the choice between sharing and separation it develops a theory of conflict intractability based on the idea of choice modulation and the opposite religions question *Culture in Ireland--division Or Diversity?* Edna Longley,1991 *A Tapestry of Beliefs* Norman Richardson,1998 An accessible survey and comparative study of the Christian traditions active in Northern Ireland **History and the Shaping of Irish Protestantism** Desmond Bowen,1995 A continuing problem for political authorities and scholars is understanding the mentality of Irish Protestants especially in Ulster where churchmen seem to exist in a primal sense of siege This study argues that the mind of Irish Protestantism is a reflection of the historical experience of a minority people who have found themselves under perennial attack both religiously and culturally The work traces the tensions between the dual authorities of Rome and Britain especially from the time of the Reformation and how this dialectic has contributed to the development of the Irish Protestant identity Special attention is paid to the Ulster troubles in the twentieth century *Whitaker's Books in Print* ,1998
