Freedom, Justice & Christian Counter-Culture Michael C. Elliott, 2013-02-19 Michael Elliott has had a more than unusually varied career Born in New Zealand he first did postgraduate studies in Boston with Harvey Cox and Joseph Fletcher at the same time joining the Berrigan brothers in protest action against the Vietnam War and taking part on a march on Washington He then moved to London s South Bank to work with Bishop John Robinson in the inner city from where he went with the Church Missionary Society to the Middle East before returning to England to work in race relations Eventually back home in New Zealand he worked in development education which also involved a stay in Cuba From all this has grown his book It is not an autobiography but rather the beginning of a handbook for activists indicating the issues that need to be addressed and the strategies that need to be tested by Christians in the modern world Firmly rooted in the Bible written in the tradition of liberation theology but arising out of the living conditions of the United States and Britain it offers specific guidelines for the thought and practice of Christians who are dissatisfied with the world and the churches as they are today

Christianity and Imperial Culture Xiaochao Wang, 2016-05-18 This book is a study of the writings of a group of Chinese Christian apologists in the seventeenth century focussing on Xu Guangqi Eleven of his shorter writings are included in Chinese and in translation The

first part of the book is devoted to a study of Latin Christian apologists within the Roman Empire to provide a comparison for the analysis of Xu Guangqi's work. Minucius Felix, Tertullian and Lactantius are shown to have faced in regard to imperial power and Graeco-Roman culture a situation comparable to that of Xu Guangqi, Li Zhizao and Yang Tingyun in regard to imperial power and culture in the late Ming period. The final chapters of the book reconsider general issues of confrontation and adaptation in the inculturation of Christianity.

**What is Mission?** J. Andrew Kirk, How should today's Church shape its response to the Gospel? How can we set about making disciples of all nations in our post-Christian, multi-faith world? What does mission mean in our times? Here is a book that addresses these issues and many more with honesty and openness. It strips mission of its old associations with colonialism and militarism. It looks anew at the underlying theology, reminding us that our task is God's mission, not a human construct. It explores key aspects of contemporary mission from the familiar, such as the relation of mission to evangelism and to people of other faiths, to the unusual and thought-provoking, such as mission and the environment, justice for the poor and the overcoming of violence. Students of mission and Christians who wish to engage with today's world to integrate faith and life will find here an inclusive, comprehensive and lucid presentation of all the relevant discussions.

*Theological Interpretation of Culture in Post-Communist Context* Ivana Noble, 2016-12-05 Twenty years after the fall of Communism in Central and East Europe is an occasion to reevaluate the cultural and theological contribution from that region to the secularization/post-secularization debate. Czech theologian Ivana Noble develops a Trinitarian theology through a close dialogue with literature, music and film, which formed not only alternatives to totalitarian ideologies but also followed the loss and reappearance of belief in God. Noble explains that by listening to the artists, the churches and theologians can deal with questions about the nature of the world, memory and ultimate fulfilment in a more nuanced way. Then, as partakers in the search undertaken by their secular and post-secular contemporaries, theologians can penetrate a new depth of meaning, sending out shoots from the stump of Christian symbolism. Drawing on the rich cultures of Central and East Europe and both Western and Eastern theological traditions, this book presents a theological reading of contemporary culture which is important not just for post-Communist countries but for all who are engaged in the debate on the boundaries between theology, politics and arts.

**Countercultures and Popular Music** Sheila Whiteley, Jedediah Sklower, 2016-05-13 Counterculture emerged as a term in the late 1960s and has been re-deployed in more recent decades in relation to other forms of cultural and socio-political phenomena. This volume provides an essential new academic scrutiny of the concept of counterculture and a critical examination of the period and its heritage. Recent developments in sociological theory complicate and problematise theories developed in the 1960s, with digital technology for example providing an impetus for new understandings of counterculture.

Music played a significant part in the way that the counterculture authored space in relation to articulations of community by providing a shared sense of collective identity Not least the heady mixture of genres provided a socio cultural political backdrop for distinctive musical practices and innovations which in relation to counterculture ideology provided a rich experiential setting in which different groups defined their relationship both to the local and international dimensions of the movement so providing a sense of locality community and collective identity

**Second Tolstoy** Steve Hickey,2021-11-12 Very few if any have devoted more years to practicing and teaching others to practice the precepts of Jesus s Sermon on the Mount than Leo Tolstoy He stands apart in the history of interpretation and has had enormous influence on others and other countries Yet Gandhi or others often get the glory Tolstoy is remembered as a great writer but

his religious and philosophical works are by and large unknown or disparaged even in scholarly Tolstoyan circles His contribution is substantially under appreciated and misunderstood In Second Tolstoy The Sermon on the Mount as Theotactics Steve Hickey captures the particulars and dynamics of Tolstoy's interpretation of the Sermon on the Mount from a deliberately sympathetic vantage point Underlying this project is shared belief with Tolstoy that the Sermon on the Mount is liveable and to be lived While from the vantage point of traditional orthodoxy Tolstoy got much wrong there remains a lack of appreciation for what he got right radical obedience to the teachings of Jesus A new vocabulary is proposed to more precisely capture Tolstoyan lived theology namely the political and social expressions of Tolstoyan Christianity with the hope that these theories and practices will gain a wider consideration understanding and following

**The Routledge Handbook of Anarchy and Anarchist Thought** Gary Chartier, Chad Van Schoelandt, 2020-12-30 This Handbook offers an authoritative up to date introduction to the rich scholarly conversation about anarchy about the possibility dynamics and appeal of social order without the state Drawing on resources from philosophy economics law history politics and religious studies it is designed to deepen understanding of anarchy and the development of anarchist ideas at a time when those ideas have attracted increasing attention The popular identification of anarchy with chaos makes sophisticated interpretations which recognize anarchy as a kind of social order rather than an alternative to it especially interesting Strong centralized governments have struggled to quell popular frustration even as doubts have continued to percolate about their legitimacy and long term financial stability Since the emergence of the modern state concerns like these have driven scholars to wonder whether societies could flourish while abandoning monopolistic governance entirely Standard treatments of political philosophy frequently assume the justifiability and desirability of states focusing on such questions as What is the best kind of state and What laws and policies should states adopt without considering whether it is just or prudent for states to do anything at all This Handbook encourages engagement with a provocative alternative that casts more conventional views in stark relief Its 30 chapters written specifically for this volume by an international team of leading scholars are organized into four main parts I Concept and Significance II Figures and Traditions III Legitimacy and Order IV Critique and Alternatives In addition a comprehensive index makes the volume easy to navigate and an annotated bibliography points readers to the most promising avenues of future research
