John Schwab and his associates designed and camed out a research program that began with a thorough review of relevant literature beginning with LePlay's study of 300 families in the 1850 sand including important recent statistical studies They found that although these studies represent advances in understanding the family system some serious problems with the research remain one of which is confounding variables such as family function and mental or substance abuse disorders so that if a family member has a problem such as drug abuse the family is classified as dysfunctional National Library of Medicine Current Catalog National Library of Medicine (U.S.),1993 **Psychopathology and Social Prejudice** Derek Hook, Gillian Eagle, 2002 This volume offers an innovative set of critical examinations of the field of psychopathology It investigates the social formation of psychopathology across different cultural discursive and political contexts and draws upon theory from two traditional domains of psychology social and abnormal psychology.
