Freedom Power And Political Morality Essays For Felix Oppenheim:

Freedom, Power and Political Morality I. Carter, M. Ricciardi, 2001-03-13 This collection of new essays on political and legal theory concentrates on themes dealt with in the work of Felix Oppenheim including fundamental political and legal concepts and their implications for the scope of morality in politics and international relations Among the issues addressed are the relationship between empirical and normative definitions of freedom power and interests whether governments are free to act against the national interest and whether they can ever be morally obliged to do so **Without Trimmings** Mark McBride, Visa AJ Kurki, 2022-05-02 Professor Matthew Kramer is one of the most important legal philosophers of our time even if the label legal philosopher does not do justice to the breadth of his work This collection of essays brings together esteemed philosophers as well as junior scholars to critically assess Kramer s philosophy The contributions focus on Kramer s work on legal philosophy metaethics normative ethics and political philosophy The volume is divided into six parts each focusing on different aspect of Kramer s work The first part Rights and Right holding contains five essays addressing Kramer s work on rights and right holding including the Hohfeldian analysis and the interest theory of right holding The four essays in the second part General Jurisprudence focus on Kramer s work in general jurisprudence from the compatibility of legal positivism with universal legal error to his robust defense of inclusive legal positivism concluding with reflections on his writings on the rule of law The third part General Matters of Ethics contains two essays addressing Kramer s metaethical work on moral realism as a moral doctrine The fourth and fifth parts Freedom and Liberalism have four essays falling within political philosophy probing Kramer s work on negative freedom and political liberalism respectively The sixth part Applied Ethics contains two essays on Kramer s work on capital punishment and freedom of expression The collection is rounded off by reflections on and replies to the contributions by Kramer himself *Political concepts* Richard Bellamy, Andrew Mason, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license Offers a sophisticated analysis of central political concepts in the light of recent debates in political theory Introduces students to some of the main interpretations of key political concepts highlighting their strengths and weaknesses Tackles the principle concepts employed to justify any policy or institution and examines the main domestic purposes and functions of the state Examines the relationship between state and civil society and finally looks beyond the state to issues of global concern and inter state relations Studies the relationship between state and civil society and finally looks beyond the state to issues of global concern and inter state relations Power, Freedom, and Voting Matthew Braham, Frank Steffen, 2008-03-11 Power Freedom and Voting is an interdisciplinary book that presents a comprehensive insight into current research by economists mathematicians philosophers and political scientists on three intimately related concepts that are at the heart of theories of democracy and social welfare The editors have brought together some of the leading scholars in the different fields to create a distinctive volume Chapters include contributions on foundational and methodological issues in the definition and

measurement of power and freedom and empirical studies of power and coalition formation in voting bodies The volume also contains contributions that make an effort to bridge the gaps between different disciplinary approaches including one on the importance of Machiavelli's writing as a reference point for modern political theory and others on the related concepts of fairness and responsibility A majority of the chapters make use of game theory

The Morality of Conflict Samantha Besson, 2005-11-25 This book explores the relationship between the law and pervasive and persistent reasonable disagreement about justice It reveals the central moral function and creative force of reasonable disagreement in and about the law and shows why and how lawyers and legal philosophers should take reasonable conflict more seriously Even though the law should be regarded as the primary mode of settlement of our moral conflicts it can and should also be the object and the forum of further moral conflicts There is more to the rule of law than convergence and determinacy and it is important therefore to question the importance of agreement in law and politics By addressing in detail issues pertaining to the nature and sources of disagreement its extent and significance as well as the procedural institutional and substantive responses to disagreement in the law and their legitimacy this book suggests the value of a comprehensive approach to thinking about conflict which until recently has been analysed in a compartmentalized way It aims to provide a fully fledged political morality of conflict by drawing on the analysis of topical jurisprudential questions in the new light of disagreement Developing such a global theory of disagreement in the law should be read in the context of the broader effort of reconstructing a complete account of democratic law making in pluralistic societies The book will be of value not only to legal philosophers and constitutional theorists but also to political and democratic theorists as well as to all those interested in public decision making in conditions of conflict

Politics as Usual Thomas W. Pogge, 2013-04-24 Worldwide human lives are rapidly improving Education health care technology and political participation are becoming ever more universal empowering human beings everywhere to enjoy security economic sufficiency equal citizenship and a life in dignity To be sure there are some specially difficult areas disfavoured by climate geography local diseases unenlightened cultures or political tyranny Here progress is slow and there may be set backs But the affluent states and many international organizations are working steadily to extend the blessings of modernity through trade and generous development assistance and it won't be long until the last pockets of severe oppression and poverty are gone Heavily promoted by Western governments and media this comforting view of the world is widely shared at least among the affluent Pogge's new book presents an alternative view Poverty and oppression persist on a massive scale political and economic inequalities are rising dramatically both intra nationally and globally The affluent states and the international organizations they control knowingly contribute greatly to these evils selfishly promoting rules and policies harmful to the poor while hypocritically pretending to set and promote ambitious development goals Pogge's case studies include the 1 day poverty measurement exercise the cosmetic statistics behind the first Millennium Development Goal the War on Terror and the proposed relaxation of the

constraints on humanitarian intervention A powerful moral analysis that shows what Western states would do if they really cared about the values they profess *Transformations of Security Studies* Gabi Schlag, Julian Junk, Christopher Daase, 2015-10-30 This volume brings together a group of distinguished scholars to engage in a dialogue on key developments in the study of security The book provides a comprehensive overview of theoretical empirical and methodological developments within security studies whose political and societal importance has grown significantly in recent years By bringing together scholars who hold differing perspectives on security this volume provides insights into a variety of approaches and their newest developments including mainstream as well as heterodox perspectives on security Thus it aims to build bridges of communication between different camps by initiating a dialogue on the identity and diversity of security studies It does so in three parts The first part of the book includes paradigmatic approaches to security that are closely connected to major debates in International Relations such as realism institutionalism constructivism as well as approaches to the culture ethics of security and critical security studies The second part places emphasis on the broadening and deepening of the concept of security in recent decades It discusses key empirical frontiers including the continued centrality of the state the link between democracy and security environmental security as well as financial security The third part of the book presents various methodological approaches to the question of security and peace It provides an overview of new approaches such as the visual turn quantifying security and method combinations This book will be of much interest to students of critical security studies international relations and research methods **The Idea of the Good Society**

, 2025-05-15 This volume provides a comprehensive analysis of the political thought and practice of Raymond Plant Professor Lord Plant of Highfield and celebrates the three aspects of his public life which speak to his idea of the good society scholarship politics and civil society Firstly Plant's scholarship was remarkable in its breadth including philosophy social work political studies social policy theology and jurisprudence In particular Plant's work on Hegel the New Liberals social democracy Hayek and Rawls has had significant impact Secondly Plant's long association with the Labour Party which began in Grimsby in his youth through his friendship with the local MP Tony Crosland He later chaired the Party's commission into electoral reform took a seat on the Labour benches in the House of Lords and chaired the Fabian Society commission into taxation and citizenship Thirdly his work with civil society including time as President of the NCVO as chair of Centrepoin as a member of the Nuffield Council on Bioethics and appointment as a lay canon of Winchester Cathedral This collection brings together distinguished scholars and contemporaries on all of the main aspects of Plant's thought and practical work and honours the remarkable scope and influence of his life **The Ethical Subject of Security** J. Peter Burgess, 2011-02-15

While critical security studies largely concentrates on objects of security this book focuses on the subject position from which securitization and other security practices take place First it argues that the modern subject itself emerges and is sustained as a function of security and insecurity It suggests consequently that no analytic frame can produce or reproduce the subject

in some original or primordial form that does not already reproduce a fundamental or structural insecurity. It critically returns through a variety of studies to traditionally held conceptions of security and insecurity as simple predicates or properties that can be associated or not to some more essential, more primeval, more true or real subject. It thus opens and explores the question of the security of the subject itself, locating through a reconstruction of the foundations of the concept of security in the modern conception of the subject an irreducible insecurity. Second, it argues that practices of security can only be carried out as a certain kind of negotiation about values. The analyses in this book find security expressed again and again as a function of value, cast in terms of an explicit or implicit philosophy of life, of culture, of individual and collective anxieties and aspirations, of expectations about what may be sacrificed and what is worth preserving. By way of a critical examination of the value function of security, this book discovers the foundation of values as dependent on a certain management of their own vulnerability, continuously under threat and thus fundamentally and necessarily insecure. This book will be an indispensable resource for students of Critical Security Studies, Political Theory, Philosophy, Ethics, and International Relations in general.

American Philosophy and the Intellectual Migration Sander Verhaegh, 2025-01-27 How did immigrant scholars such as Rudolf Carnap, Max Horkheimer, and Alfred Schütz influence the development of American philosophy? Why was the U.S. community more receptive to logical empiricism than to critical theory or phenomenology? This volume brings together fifteen historians of philosophy to explore the impact of the intellectual migration. In the 1930s, the rise of fascism forced dozens of philosophers to flee to the United States. Prominent logical empiricists acquired positions at prestigious U.S. universities. Critical theorists moved their Frankfurt School to Columbia University. And a group of phenomenologists taught at the New School for Social Research. Though many refugee scholars acquired some American following, logical empiricism had the biggest impact on academic philosophy. The exiled empiricists helped the country turn into a bastion of analytic philosophy after the war. Phenomenology and critical theory became prominent schools from the 1970s onwards and continue to be influential in American philosophy today. This is the first book to investigate the migration from an integrated perspective, bringing together historians of American philosophy, logical empiricism, phenomenology, and critical theory.

Hillel Steiner and the Anatomy of Justice Stephen De Wijze, Matthew H. Kramer, Ian Carter, 2009-06-02 In this volume, essays by an international roster of contributors evaluate the political philosophy of contemporary philosopher Hillel Steiner. The study concludes with a response by Steiner himself.

Globalization, Armed Conflicts and Security Alessandro Gobbi, Centro militare di studi strategici (Italy), 2004

How Groups Matter Gideon Calder, Magali Bessone, Federico Zuolo, 2014-04-11 When groups feature in political philosophy, it is usually in one of three contexts: the redressing of past or current injustices suffered by ethnic or cultural minorities; the nature and scope of group rights; and questions around how institutions are supposed to treat a certain specific identity-cultural-ethnic group. What is missing from these debates is a comprehensive analysis of groups as both agents and objects of social policies. While this has

been subject to much scrutiny by sociologists and social psychologists it has received less attention from a normative and philosophical point of view This volume asks what problems are posed to political philosophy by a collection of individuals who act or are treated in a collective way Focusing not only on ways in which institutions should treat groups but also on the normative implications of considering groups as possible social agents when acting either in vertical relations with the state or in horizontal relations with other groups or individuals this book explores these issues from both theoretical and practical perspectives Contributors address both the nature of political and social philosophy itself and the ways in which specific issues affirmative action race religion and places of worship the rights of states have become political and social priorities

Secularization, Desecularization, and Toleration Vyacheslav Karpov, Manfred Svensson, 2020-10-22 This book challenges the modern myth that tolerance grows as societies become less religious The myth inseparably links the progress of toleration to the secularization of modern society This volume scrutinizes this grand narrative theoretically and empirically and proposes alternative accounts of the varied relationships between diverse interpretations of religion and secularity and multiple secularizations desecularizations and forms of toleration The authors show how both secular and religious orthodoxies inform toleration and persecution and how secularizations and desecularizations engender repressive or pluralistic regimes Ultimately the book offers an agency focused perspective which links the variation in toleration and persecution to the actors of secularization and desecularization and their cultural programs *Truth Or Economics* Richard S. Markovits, 2008-10-01 Is economic efficiency a sound basis upon which to make public policy or legal decisions In this sophisticated analysis Richard S Markovits considers the way in which scholars and public decision makers define predict and assess the moral and legal relevance of economic efficiency The author begins by identifying imperfections in the traditional definition of economic efficiency He then develops and illustrates an appropriate response to Second Best Theory and investigates the moral and legal relevance of economic efficiency analyses Not only do virtually all economic legal and public policy thinkers misdefine economic efficiency the author concludes they also ignore or respond inadequately to Second Best Theory when analyzing the economic efficiency of public choices and misassess the relevance of economic efficiency conclusions both for moral evaluations and for the answer to legal rights questions that is correct as a matter of law

Equality and Transparency D. Sabbagh, 2007-08-20 Can affirmative action policies be convincingly justified And how have they been legitimized over time In a pluridisciplinary perspective at the intersection of political theory and the sociology of law Daniel Sabbagh criticizes the two prevailing justifications put forward in favor of affirmative action the corrective justice argument and the diversity argument He defends the policy instead as an instrument designed to bring about the deracialization of American society In this respect however affirmative action requires a measure of dissimulation in order to succeed Equality and Transparency explains why this is so and provides a new interpretation of the strategic component in the Supreme Court s case law while identifying some of its most remarkable side effects **Ethics of Humanitarian**

Interventions Georg Meggle, 2013-05-02 Humanitarian Interventions that sounds nice much nicer than wars battles and use of military force Foremost the phrase makes you think of the delivery of sanitary goods medication of soup kitchens Here we are not supposed to think of interventions of this kind we have to have humanitarian interventions in mind which are humanitarian intervention wars I At exactly what point is the use of military force a humanitarian intervention What is the humanitarian aspect of those interventions Their occasion Their motive Their alleged as well as their actual consequences II At exactly what point are humanitarian intervention wars morally justifiable Are they justifiable even if they are wars of aggression breaching international law And finally III Was the war which was presented to us as the paradigmatic example of a humanitarian intervention war that is the war in Kosovo in the spring of 1999 with over 37 000 bombing missions really justifiable as a humanitarian intervention Many of us wanted to believe so at the time Does our ex ante judgement hold today in an ex post reflection And which lessons for the future should we learn from the success or failure of this humanitarian war These are the questions proposed in this book therefore it is concerned with problems of semantics part I problems of moral assessment part II and with the moral legal and political conclusions we draw from our experiences with the war in Kosovo our primary example of a humanitarian intervention part III International experts in the areas of philosophy international law sociology and peace studies debated these questions vigorously for several days This is the resulting volume *European Security* Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security

and the organisations which underpin it **Debating Cosmopolitics** Daniele Archibugi, 2020-05-05 Cosmopolitics the concept of a world politics based on shared democratic values is in an increasingly fragile state While Western democracies insist ever more vehemently upon a maintenance of their privileges freedom of speech security wealth an increasing number of the world s inhabitants are under threat of poverty famine and war What is needed the writers suggest is a deliberate decision to extend the principles and values of democracy to the sphere of international relations Recent experience does not bode well but their arguments which range from reform of the United Nations reduction of military weapons additional power for international judiciary institutions and an increase in aid to developing countries urge new and inspired action

Bentham John Rowland Dinwiddy, William L. Twining, 2004 Jeremy Bentham the founder of utilitarianism made a powerful impact on several major areas of thought and policy ethics jurisprudence political and constitutional theory and social and administrative reform Yet from the start his ideas have been subject to misunderstanding and caricature John Dinwiddy s Bentham is regarded as the best introduction to this important jurist and reformer Dinwiddy examines the various components of Bentham s philosophy and shows how each was shaped by the radical rethinking entailed by the utilitarian approach He also discusses interpretations of Benthamism and its contemporary significance and the controversial question of Bentham s influence on reform Bentham is reproduced here in full together with three classic essays that deal with key issues in understanding Bentham his conversion to political radicalism the relations between private and public ethics and his theory of adjudication A new introduction and select bibliography by William Twining set the context and survey the developments in Bentham studies since the book s original publication in 1989

Freedom Power And Political Morality Essays For Felix Oppenheim Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project

Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Freedom Power And Political Morality Essays For Felix Oppenheim free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Freedom Power And Political Morality Essays For Felix Oppenheim free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Freedom Power And Political Morality Essays For Felix Oppenheim free PDF files is convenient, it's important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading Freedom Power And Political Morality Essays For Felix Oppenheim. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Freedom Power And Political Morality Essays For Felix Oppenheim any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Freedom Power And Political Morality Essays For Felix Oppenheim Books
