Patterns in the Northern Countries of Europe Co-operative Movement, *Rural migrants in urban setting* G.

Beijer, 2012-12-06 The migration of country dwellers towards the urban areas has been a most important factor in the development of the West European society in which we live today Therefore those engaged in research and policy making in the social field must acquire a better understanding of this form of migration if they are to deal effectively with a number of the problems confronting them This is particularly true since the schemes for European integration which are going ahead so rapidly are sure to produce new patterns of migration At a meeting of the F A O Working Group on Rural Sociology held in Oslo in 1960 it was suggested that an inventory should be made of all available data and studies on the subject of migration in Europe This suggestion was taken up by the European Society for Rural Sociology and the Netherlands Ministry of Social Work which after deliberating together decided to ask the Dutch expert Dr G Beijer to draw up such an inventory under their joint auspices As secretary of the Research Group for European Migration Problems R E M P Dr Beijer has been engaged for many years in an intensive study of the phenomenon of migration **Labor Organisations** Mark van de Vall, 1970-04

Strang, Mary Hilson, 2021-12-20 The terms Nordic and Scandinavian are widely used to refer to the politics society and culture of Denmark Finland Iceland Norway and Sweden But why have people felt the need to frame things as Nordic and why has the adjective Nordic become so prominent This book adopts a rhetorical approach analysing the speech acts which have shaped the meanings of the term What do the different terms Nordic and Scandinavian have in common and how have the uses of these terms changed in different historical periods What accounts for the apparent upsurge in uses of the rhetoric of Nordicness in the 2010s Drawing on eight case studies of the uses of Nordic and Scandinavian from the nineteenth century to the present day the book explores the appeal and the flexibility of the rhetoric of Nordicness in relation to race openness gender equality food crime fiction Nordic co operation and the Nordic model Arguing that Nordic and Scandinavian are flexible and contested concepts that have been used in different often contradictory and inherently political ways the book suggests that the usage of the term has evolved from a means of creating a cultural community to forging political co operation and further to marketing models in politics and popular culture The rhetorical approach also shows how many of the hallmarks of Nordic political culture such as the Nordic model Nordic gender equality or Nordic openness are more recent conceptualisations than usually assumed As such the book argues for the need to turn attention away from analysing the different components of Nordicness into studying how when and for what purpose different features were made Nordic

The Unmarried Mother and Her Child Virginia Wimperis, 2024-11-15 Originally published in 1960 when every twentieth child in this country was born illegitimate every eighth was conceived outside marriage every fourth mother conceived her first born before her wedding day and among the children below school leaving age over half a million were illegitimate figures that were paralleled in many countries of Europe and the Commonwealth at the time Who are the parents of these children Why do they not marry How many of the fathers are known and how many of them know or help to maintain their children What legal pressure can be brought upon the parents and how easily can payment be evaded What assistance does the State or do the voluntary agencies give to these young families here or in other countries As the children grow up what happens to them How many are adopted how many pass into public care and why How many appear before the courts What special personal difficulties do they have These and a host of other questions are fully explored for the first time in this book which at the time would be greeted with equal interest by social workers here and abroad and be the general reader The English problems are viewed in relation to the various solutions adopted by other countries and some of these the Russian German Norwegian Swedish and Danish are discussed at length The book contains two full length stories told by unmarried mothers one a nurse and the other a teacher in their own words From a very different world today this reissue can be read and understood in its historical context This book is a re issue originally published in 1960 The language used and views portrayed are a reflection of its era and no offence is meant by the

Publishers to any reader by this re publication **Power and Privilege** Gerhard E. Lenski, 2013-04-01 Power and Privilege seeks to answer the central question of the field of social stratification Who gets what and why Using a dialectical view of the development of thought in the discipline Gerhard Lenski describes the outlines of an emerging synthesis of theories He shows that perspectives as diverse and contradictory as those of Marx Spencer Sumner Veblen Mosca Pareto Sorokin Parsons and Dahrendorf are parts of an evolving and systematic body of theory **The International Co-operative Alliance and the consumer co-operative movement in northern Europe, c. 1860-1939** Mary Hilson, 2018-04-10 The book examines the history of co operation in the broad context of the history of consumerism and consumption of internationalism and the development of international organisations and debates about international trade during the inter war period The fundamental question explored in the book concerns the meaning of co operation Was it a social movement or an economic enterprise Did it aspire to challenge capitalism or to reform it Did it contain at its heart a political vision for the transformation of society or was it simply a practical guide for organising a business Hilson argues that it was both but that an examination of the debates over the different meanings of co operation can also illuminate broader questions about the emergence of consumer interests in the first half of the twentieth century especially in a transnational context **T. H. Marshall's Social Policy** A. M. Rees, 2023-02-01 Originally published in 1965 Social Policy became a classic text and one of the best known and most widely used textbooks in social administration This Routledge Revival reissues the 5th edition of 1985 T H Marshall s masterly and unrivalled analysis of the development of welfare policies between 1890 and 1945 remains unchanged The second half the book with a chapter on every arm of the welfare state retains Marshall s original structure but was completely rewritten and updated by A M Rees considering developments to the end of 1984 An indispensable introductory text this is a key book for all students of social administration economic and social history and 20th Century politics
