Among the main issues addressed are the changing nature of means and methods of warfare, the law of weaponry and challenges to humanitarian assistance and protection of the civilian population affected by armed conflict. Specific topics include the legal regime governing nuclear weapons, the prohibition of chemical weapons and arms control, the evolution of naval warfare, asymmetric conflicts, the law of occupation and cultural property. A comprehensive Year in Review also describes the most important events and legal developments that took place in 2014. The Yearbook of International Humanitarian Law is the world's only annual publication devoted to the study of the laws governing armed conflict. It provides a truly international forum for high quality peer-reviewed academic articles focusing on this crucial branch of international law. Distinguished by contemporary relevance, the Yearbook of International Humanitarian Law bridges the gap between theory and practice and serves as a useful reference tool for scholars, practitioners, military personnel, civil servants, diplomats, human rights workers and students.

Todman, 2016-08-05 The first volume of a sweeping new history of Britain and its involvement in World War II. Reader's Guide to Great Britain, 1977 **Australia's Boldest Experiment** Stuart Macintyre, 2015-06-01 In this landmark book

Stuart Macintyre explains how a country traumatised by World War I, hammered by the Depression and overstretched by World War II, became a prosperous, successful and growing society by the 1950s. An extraordinary group of individuals, notably John Curtin, Ben Chifley, Nugget Coombs, John Dedman and Robert Menzies, remade the country, planning its reconstruction against a background of wartime sacrifice and austerity. The other part of this triumphant story shows Australia on the world stage seeking to fashion a new world order that would bring peace and prosperity. This book shows the 1940s to be a pivotal decade in Australia. At the height of his powers, Macintyre reminds us that key components of the society we take for granted—work, welfare, health, education, immigration, housing—are not the result of military endeavour but policy, planning, politics and popular resolve.
