Port, 2013-09-01 For roughly the first decade after the demise of the GDR professional and popular interpretations of East German history concentrated primarily on forms of power and repression as well as on dissent and resistance to communist rule Socio cultural approaches have increasingly shown that a single minded emphasis on repression and coercion fails to address a number of important historical issues including those related to the subjective experiences of those who lived under communist regimes With that in mind the essays in this volume explore significant physical and psychological aspects of life in the GDR such as health and diet leisure and dining memories of the Nazi past as well as identity sports and experiences of everyday humiliation Situating the GDR within a broader historical context they open up new ways of interpreting life behind the Iron Curtain while providing a devastating critique of misleading mainstream scholarship which continues to portray the GDR in the restrictive terms of totalitarian theory **The New and Complete Dictionary of the German and English Languages ; Composed Chiefly After the German Dictionaries of Mr. Adelung and of Mr. Schwan. THE Middle Ages They seem so far away intellectually so preposterous spiritually so strange Bits of them may touch our sympathy please our taste certain of their stories their romances as if those straitened ages really were the time of romance which they were not God knows in the sense commonly taken Now if the pageant of those centuries charm our eyes with forms that seem so full of meaning why should we stand indifferent to the harnessed processes of mediaeval thinking and the passion surging through the thought Thought marshaled the great mediaeval procession which moved to measures of pulsating and glorifying emotion Let the reader be mindful of his purpose to follow through the Middle Ages the development of intellectual energy and the growth of emotion Holding this end in view we students all shall not stray from our quest after those human qualities which impelled the strivings of mediaeval men and women informed their imaginations and moved them to love and tears and pity
