Bennett, 2016-10-06 This book thoroughly explores and analyses naval policy during the period of austerity that followed the First World War During this post war period as the Royal Navy identified Japan its likely opponent in a future naval war the British Government was forced to tighten its belt and cut back on naval expenditure in the interests of National Economy G H Bennett draws connections between the early 20th century and the present day showing how the same kind of connections exist between naval and foreign policy the provision of ships for the Royal Navy business and regional prosperity and employment The Royal Navy in the Age of Austerity 1919 22 engages with a series of important historiographical debates relating to the history of the Royal Navy the failures of British Defence policy in the inter war period and the evolution of British foreign policy after 1919 together with more mundane debates about British economic industrial social and political history in the aftermath of the First World War It will be of great interest to scholars and students of British naval history

The European Women's History Reader Fiona Montgomery, Christine Collette, 2002 The European Women's History Reader is a fascinating collection of seminal articles and extracts exploring the social economic religious and political history of women across Europe since the late eighteenth century This ambitious volume is arranged into four chronological sections all with their own introductions which provide context for the chapters that follow The collection also includes a useful general introduction which makes the articles accessible to students and helps to define this increasingly important area of study

White Magic Lothar Müller, 2015-02-02 Paper is older than the printing press and even in its unprinted state it was the great network medium behind the emergence of modern civilization In the shape of bills banknotes and accounting books it was indispensable to the economy As forms and files it was essential to bureaucracy As letters it became the setting for the invention of the modern soul and as newsprint it became a stage for politics In this brilliant new book Lothar Müller describes how paper made its way from China through the Arab world to Europe where it permeated everyday life in a variety of formats from the thirteenth century onwards and how the paper technology revolution of the nineteenth century paved the way for the creation of the modern daily press His key witnesses are the works of Rabelais and Grimmelshausen Balzac and Herman Melville James Joyce and Paul Valéry Müller writes not only about books however he also writes about pamphlets playing cards papercutting and legal pads We think we understand the Gutenberg era but we can understand it better when we explore the world that underpinned it the paper age Today with the proliferation of digital devices paper may seem to be a residue of the past but Müller shows that the humble technology of paper is in many ways the most fundamental medium of the modern world

Transactions of the Royal Historical Society: Volume 9 Royal Historical Society, 1999-12-09 Volume 9 of the RHS Transactions contains essays based around the theme oral history memory and written tradition *France in the Era of Fascism* Brian Jenkins, 2007-04-01 France's response to the rise of European fascism during the 1930s and subsequently to

the Nazi occupation 1940-44 has been a difficult subject for the nation's historians. The consensus amongst leading French authorities on the period has been the claim that France was largely immune to fascism in the 1930s and that the Vichy regime was an aberration produced by defeat and occupation. Over the last 30 years this position has gradually been undermined mainly through the work of foreign scholars but it nonetheless remains intact. This volume brings together for the first time the leading critics of the standard French interpretation who have used these essays to refine and update their positions or to move the debate onto new terrain.

The fate of the Spanish refugees and exiles in Britain and France is also highlighted as is Spain's international position in the aftermath of the Second World War and particularly the attitude of the former Allies Britain France the Soviet Union and the USA. The volume ends with Spain's response to the unfolding economic co-operation and integration in Western Europe.

Global Histories of the Portuguese Revolution Luís Trindade, Rita Lucas Narra, Ricardo Noronha, Pedro Ramos Pinto, 2025-05-29 The Portuguese revolution marked the closure of the country's five centuries of imperial history as well as its 48 year authoritarian period a dramatic moment of political radicalization and social conflict that took place against the backdrop of rapid social transformation in an increasingly globalised world. This collection goes beyond the limits of national history to locate the revolution at the intersection of transnational historical phenomena such as the long 1960s the Cold War the emergence of the Third World and postwar modernization. Foregrounding the complex geographies and chronologies of semi-peripheral Portugal this book combines its status as the centre of a global Empire with its subaltern position in Europe. Offering a new global approach to this still understudied event chapters explore transnational socialist and grassroots forms of solidarity processes of global communication and Cultural Revolution decolonization feminism and socio-economic transformations to offer a non Eurocentric global history from within Europe itself.

Catherwood, 2003-11-03 Between 1939 and 1941 Britain had a terrible dilemma She was keen to see Turkey Bulgaria Greece Romania and Yugoslavia join the Allies against Nazi Germany But the 1939 Molotov Ribbentrop Pact had changed everything the Balkan countries were far more afraid of Stalin than of Hitler Britain and France were also concerned about the Soviets giving so much oil to Germany in 1940 Britain almost went to war with the USSR in an attack on the Caucasus This book looks at how Britain tried to solve these dilemmas and ultimately failed to do so **Europe's Welfare Traditions Since 1500, Volume 2** Thomas McStay Adams, 2023-01-26 Tracing the interwoven traditions of modern welfare states in Europe over five centuries Thomas McStay Adams explores social welfare

from Portugal France and Italy to Britain Belgium and Germany He shows that the provision of assistance to those in need has faced recognizably similar challenges from the 16th century through to the present how to allocate aid equitably and with dignity how to give support without undermining autonomy and motivation and how to balance private and public spheres of action and responsibility Across two authoritative volumes Adams reveals how social welfare administrators critics and improvers have engaged in a constant exchange of models and experience locally and across Europe The narrative begins with the founding of the Casa da Misericordia of Lisbon in 1498 a model replicated throughout Portugal and its empire and ends with the relaunch of a social agenda for the European Union at the meeting of the Council of Europe in Lisbon in 2000 Volume 1 which focuses on the period from 1500 to 1700 discusses the concepts of welfare and tradition It looks at how 16th century humanists joined with merchants and lawyers to renew traditional charity in distinctly modern forms and how the discipline of religious reform affected the exercise of political authority and the promotion of economic productivity Volume 2 examines 18th century bienfaisance which secularized a Christian humanist notion of beneficence producing new and sharply contested assertions of social citizenship It goes on to consider how national struggles to establish comprehensive welfare states since the second half of the 19th century built on the power of the vote as politicians pushed by activists and advised by experts appealed to a growing class of industrial workers Lastly it looks at how 20th century welfare states addressed aspirations for social citizenship while the institutional framework for European economic cooperation came to fruition

Historical Reflections ,1994 Race in France Herrick Chapman,Laura Levine Frader,2004

Scholars across disciplines on both sides of the Atlantic have recently begun to open up as never before the scholarly study of race and racism in France These original essays bring together in one volume new work in history sociology anthropology political science and legal studies Each of the eleven articles presents fresh research on the tension between a republican tradition in France that has long denied the legitimacy of acknowledging racial difference and a lived reality in which racial prejudice shaped popular views about foreigners Jews immigrants and colonial people Several authors also examine efforts to combat racism since the 1970s

Terrorist Histories Caoimhe Nic Dhaibheid,2016-11-03 This book addresses provides a series of in depth portraits of men and women who have been labelled terrorists from the 19th 20th and 21st centuries Bridging historical methodologies and theoretical approaches to terrorism studies it seeks to contribute to the developing historicising of terrorism studies This is achieved principally through a prosopographical approach In the preponderance of detailed statistical and quantitative data on the practice of terrorism and political violence the individuals who participate in terrorist acts are often obscured While ideologies and organisations have attracted much scholarly interest less is known of the personal trajectories into political violence particularly from a historical perspective The focus on a relatively narrow cast of high profile terrorist villains to a large part driven by popular and media attention results in a somewhat skewed picture of equal value arguably is a more sustained reflection on the lives of lesser known individuals The book sits at the juncture

between terrorism studies historical biography and ethnography It comprises case studies of ten individuals who have engaged in political violence in the nineteenth twentieth and twenty first centuries in a number of locations and with a variety of ideological motivations from Russian inflected anarchism to Islamist extremism Through detailed empirical research crucial themes in the study of terrorism and political violence are explored the diverse individual radicalisation pathways the question of disengagement and re engagement various counter terrorist and counter insurgency strategies adopted by governments and security forces and the changing nature and perception of terrorism over time Although not explicitly comparative a number of themes resonate between the case studies which will be drawn together in the conclusion to this book These include the role of migration in radicalisation the influence of radical family heritages the experience of imprisonment and the narratives which individuals construct to tell their own terrorist life stories It also provides an historically grounded answer to one of the most contentious and heated debates in recent literature on terrorism studies what leads a person to turn to political violence In examining the life narratives of a diverse range of men and women who at some point embraced violence this book seeks to contribute to a growing understanding of the entire arc of a terrorist lifespan from radicalisation to mobilisation to disengagement and beyond This book will be of much interest to students of political violence terrorism studies security studies and politics in general
