1800 - 1834 Thomas D. Beck, 2024-03-29 *French Legislators 1800 1834 A Study in Quantitative History* examines the political evolution of France in the early nineteenth century focusing on the makeup and role of the French legislature during the period following the French Revolution The study offers a comprehensive analysis of the individuals who held legislative office drawing on quantitative methods to classify them by social class occupation political affiliation and regional representation It explores the tension between the revolution's promise of social change and the entrenched power structures that emerged during the Bourbon Restoration and the July Monarchy The study aims to answer key questions about the social composition of French politics the impact of electoral laws the rise of regionalism and the consequences of the Revolution of 1830 The work relies heavily on extensive archival data including electoral results tax records and biographical dictionaries to categorize legislators based on their social status professional background and political leanings Through this data the study assesses how these men shaped and responded to political shifts including the changes in government during the post Napoleonic era and the restoration of Bourbon monarchy The author presents a nuanced view of political affiliations identifying the Left and Right as key players in the political discourse of the period with both groups evolving over time in their relationship to the Revolution and its outcomes Ultimately the study offers a fresh perspective on a historically underexplored period emphasizing the importance of quantitative history in understanding social and political transformations This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 *The Physician-Legislators of France* Jack D. causes and significance of the political influence gained by French medical doctors between 1870 1914 **Planning the French Canals** Reed G. Geiger, 1994 Finally in a comparative framework the debate over the canals led to an examination of the inadequacy of a British model and to a rehearsal of the arguments about state economic policy that the next generation would revive **Beyond the Terror** Gwynne Lewis, Colin Lucas, 2003-12-18 This collection of essays is written by Richard Cobb's friends and is dedicated to him

The Parisian Order of Barristers and the French Revolution Michael P. Fitzsimmons, 1987 This investigation not only revises what historians have long thought of the attitude of barristers toward the French Revolution but also offers insights into the corporate character of Old Regime society and how the Revolution

affected it Fitzsimmons's study suggests that many propertied commoners during the Revolution were not politically engaged that they were not necessarily associated with a party or cause simply because of their place within a set of social relationships

The French Experience in Mexico, 1821-1861 Nancy Nichols Barker, 2018-08-25 This is the first scholarly appraisal of relations between France and Mexico from the time Mexico achieved independence until Emperor Napoleon III decided to intervene and place Maximilian on the Mexican throne Barker shows that economic political demographic and behavioral factors led to chronic friction between the two countries and contributed to the buildup of an ideology of intervention Originally published in 1979 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Abolition of Feudalism John Markoff, 2010-11-01 Politics, Culture, and Class in the French Revolution Lynn Hunt, 2016-10-17 When this book was published in 1984 it reframed the debate on the French Revolution shifting the discussion from the Revolution's role in wider extrinsic processes such as modernization capitalist development and the rise of twentieth century totalitarian regimes to its central political significance the discovery of the potential of political action to consciously transform society by molding character culture and social relations In a new preface to this twentieth anniversary edition Hunt reconsiders her work in the light of the past twenty years scholarship

Mobility, Elites and Education in French Society of the Second Empire Patrick J. Harrigan, 2006-01-01 Based on a unique historical source this book examines the social origins career expectations and first jobs of 28 000 students in the elitist French secondary schools of the 1860s Using sophisticated statistical analysis as well as conventional historical sources the work concludes that schooling reached a wider audience than has been so far believed and that substantial social mobility occurred within the school system but that family background rather than educational factors directed students career aspirations and achievements It also argues that although education expanded in urban industrialized areas mobility did not increase in these areas A final chapter reconsiders nineteenth century thought concerning education in the light of findings about the social effects of schools

Disenfranchising Democracy David A. Bateman, 2018-10-25 The first wave of democratization in the United States the removal of property and taxpaying qualifications for the right to vote was accompanied by the disenfranchisement of African American men with the political actors most supportive of the former also the most insistent upon the latter The United States is not unique in this respect other canonical cases of democratization also saw simultaneous expansions and restrictions of political rights yet this pattern has never been fully detailed or explained Through case studies of the USA the UK and France Disenfranchising Democracy offers the first cross national account of the relationship between democratization and disenfranchisement It develops a political institutional perspective to explain their co occurrence focusing on the politics of coalition building and the visions of political community coalitions

advance in support of their goals Bateman sheds new light on democratization connecting it to the construction of citizenship and cultural identities

A Social History of Nineteenth-Century France Roger Price,2021-12-24 First published in 1987 A Social History of Nineteenth Century France argues that the social impact of the French Revolution has been greatly exaggerated and that in 1815 France was still predominantly a rural and pre industrial society The revolution introduced only very limited changes in social structures and relationships the daily lives of ordinary people remained virtually unchanged A much more decisive turning point in French history the author suggests was the period of structural change in economy and society which began in the mid nineteenth century The first part of the book looks at many changes in the economy and their effect on living standards and social environment The second part identifies the social groups which make up French society and provides detailed analyses of their lifestyles and social relationships Part Three considers the influence of such key institutions as churches schools and the state Drawing on an exceptionally wide range of primary sources this is likely to be the definitive overview of French society for many years to come and will be of interest to researchers of French history and European history

France, 1814-1940 J.P.T. Bury,2003-09-02 This famous work has a long established reputation as a clear accessible and authoritative account of this fascinating period

Helen Maria Williams and the Age of Revolution Deborah Kennedy,2002 Eventually settling in Paris with her mother and two sisters Williams hosted a Parisian salon that was frequented by many of Europe s most important politicians artists writers and thinkers including J P Brissot Madame Roland Mary Wollstonecraft Thaddeus Kosciuszko and Alexander von Humboldt

Family Dynasty, Revolutionary Society Laurence H. Winnie, 2001-10-30 This study analyzes the family life and public careers of six generations of a notable Parisian family the Cochins Bourgeois merchants in the 17th and 18th centuries the Cochins earned nobility through the office of alderman D echevin of Paris Their family ethos fostered a much needed element in French public life a cautious critical liberal reform that reflected an independence from the Left the Legitimist and later nationalist Right as well as the Catholic Church Still even these reforming conservatives however liberal ultimately found themselves opposing the Third Republic Winnie highlights the contributions made by the Cochins and the opposition of the Third Republic He approaches this task not by looking at a mere series of political crises but rather by examining the cultural background and the family ethos that sustained them from the Old Regime to World War I Like much of the latest work in modern French social history this book finds a significant cultural divide between revolutionary republicanism and even liberal notables from the Old Regime It demonstrates how these tensions continued through the 19th and into the 20th century This reflects the fundamental incompatibility between France s political legacies sustained by powerful and abiding social and cultural factors that has shaped French life to this day *Reviews in European History* ,1977 **Book Review Digest** ,1976
