Phillips Griffiths, Pascal Engel, 1987 A lively and accessible guide to some of the major issues current in French philosophy today Neale's Magazine, 1913 The French Franc, 1914-1928 Eleanor Lansing Dulles, 1929 A Four Year Course in French for High Schools Barry Cerf, 1918 **How the Russians Read the French** Priscilla Meyer, 2010-05-27 In *How the Russians Read the French* Priscilla Meyer shows how Mikhail Lermontov Fyodor Dostoevsky and Lev Tolstoy engaged with French literature and culture to define their own positions as Russian writers with specifically Russian aesthetic and moral values French Women Authors Kelsey L. Haskett, Holly Faith Nelson, 2012-10-25 *French Women Authors* examines the importance afforded the spiritual in the lives and works of French women authors over the centuries thereby highlighting both the significance of spiritually informed writings in French literature in general as well as the specific contribution made by women writers Eleven different authors have been selected for this collection representing major literary periods from the medieval to the post modern Each author is examined in the light of a Christian worldview creating an approach which both validates and interrogates the spiritual dimension of the works under consideration At the same time the book as a whole presents a broad perspective on French women writers showing how they reflect or stand in opposition to their times The chronological order of the chapters reveals an evolution in the modes of spirituality expressed by these authors and in the role of spiritual belief or religion in French society over time From the overwhelmingly Christian culture of the Middle Ages and pre Enlightenment France to the wide diversity prevalent in post modern times including the rise of Islam within French borders a radical shift has permeated French society a shift that is reflected in the writers chosen for this book Moreover the sensitivity of women writers to the individual side of spiritual life in contrast with the practices of organized religion also emerges as a major trend in this book with women often being seen as a voice for social and religious change or for a more meaningful personal faith Lastly despite a blatant rejection of God and religion spiritual threads still run through the works of one of France's most celebrated contemporary writers Marguerite Duras whose cry for an absolute in the midst of a spiritual vacuum only reiterates the quest for transcendence or for some form of spiritual expression as

voiced in the works of her female predecessors and contemporaries in France and as demonstrated in this book Published by University of Delaware Press Distributed worldwide by Rutgers University Press **The Theosophical Path** Katherine Augusta Westcott Tingley,1919 **Katherine Mansfield's French Lives** ,2016-02-02 Katherine Mansfield's French Lives explores how both the literary cultural editorial and biographical influence of French arts and philosophy and life as an migrant in France shaped Mansfield's evolution as a key modernist writer while setting her within the geographies and cultural dynamics of Anglo French modernism Mansfield's many stays in France were decisive in intellectual personal and psychological terms discovering Murry's Paris and the Left Bank escaping to the War Zone to join Francis Carco living as a civilian in wartime during the bombardments of Paris travelling and finding lodgings as a single woman in war ravaged towns the experience of bereavement and debilitating ill health abroad and the joys and pitfalls for an outsider of a foreign land and idiom *Religion and Contemporary Politics* Timothy J. Demy,Jeffrey M. Shaw Ph.D.,2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography *Real / Ideal* Karen Hellman,2016-08-30 In the years following the announcement of the invention of photography in 1839 practitioners in France gave shape to this intriguing new medium through experimental printing techniques and innovative compositions The rich body of work they developed proved foundational to the establishment of early photography from the introduction of the paper negative in the late 1840s to the proliferation of more standardized equipment and photomechanical technology in the 1860s The essays in this elegant volume investigate the early history of the medium when the ambiguities inherent in the photograph were ardently debated Focusing on the French photographers who worked with paper negatives especially the key figures douard Baldus Gustave Le Gray Henri Le Secq and Charles N gre Real Ideal explores photography's status as either fine art or industrial product or both its repertoire of subject matter its ideological functions and even the ever experimental photographic process itself
