French Mercantilist Doctrines Before Colbert Charles Woolsey Cole, 2011-12 **French Mercantilist Doctrines Before Colbert** Charles Woolsey Cole, 1931 **Mercantilism** , **French Predecessors of Malthus** Joseph J. Spengler, 2013-07-04 First Published in 1966 This volume is study of the population and wage theories prevalent in the eighteenth century France Designed to fill a gap in previous volumes in the history of economic doctrine and to better accomplish this purpose population and wage theory has been given a broader denotation and connotation than is customary today *The Cambridge Economic History of Europe from the Decline of the Roman Empire: Volume 4, The Economy of Expanding Europe in the Sixteenth and Seventeenth Centuries* E. E. Rich, C. H. Wilson, 1967-05 Examines the economic history of Europe during the sixteenth and seventeenth centuries *Mercantilist Economics* Lars Magnusson, 2012-12-06 This collection of papers reflects the variety of interpretations and definitions connected with the concept of mercantilism which have evolved historically during the last two centuries They range from interpretations of mercantilistic ideas to interpretations of policies They stress the relationship between economic social and political ideas and range from the 17th to the late 20th century Lastly they provide us with more knowledge of specific national cases as well as a discussion of mercantilism as a general phenomenon **Society and Economy in Early Modern Europe, 1450-1789** Barry Taylor, 1989 **The Theory of Public Choice--II** James M. Buchanan, Robert D. Tollison, 1984 Discusses voting tax policy government regulation redistribution of wealth and international negotiation in a new approach to government European Jewry in the Age of Mercantilism, 1550-1750 Jonathan I. Israel, 1997-11-01 A beautiful work of scholarship and synthesis that should immediately become a standard text For the first time the history of early modern European Jewry is presented as a coherent whole and in a form recognizable to non Jewish scholars adhering to all of the standards of scholarship a sparkling book David S Katz English Historical Review An ambitious and much needed study of Jewish life and culture in the context of Europe s intellectual and religious history To this he has brought his own sharply critical judgement and a highly original interpretative theory highly stimulating Henry Roseveare Economic History Review The first edition of this book was the joint winner of the Wolfson Literary Prize for History in 1986 For this third edition the book has been updated and includes a new introduction *Philosophy and the State in France* Nannerl O. Keohane, 2017-03-14 Tracing the development of French political thought in the seventeenth century Nannerl Keohane explores a quite different emphasis on the indivisibility of sovereignty and the expression of interests rather than rights Originally published in 1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Economics of Population Julian Simon, 2018-04-17 The economics of population has a long and controversial history as well as an exciting present. Vociferous popular debate, public policy and population economics have unduly influenced one another. Public debate and policy affect the erection of economists' conclusions just as the results of economists' studies influence debate and popular thought. The words and theories of John Maynard Keynes, Thomas R. Malthus, John Stuart Mill and Friedrich Engels come to mind immediately. However, many writings on population economics had little or no influence on public thought at the time they were written, although they may be seen as correct in light of modern developments. In fact, many of the ideas contained in these writings were publicly debated but then ignored for a long time, reappearing much later or reinvented independently. *The Economics of Population*, edited by Julian L. Simon, traces the history of population economics. This is a century-spanning collection of essays from foremost influential economic theorists arranged to illustrate thought development and its numerous reversals. The first section includes essays from Joseph J. Spengler, John Graunt, William Petty, Thomas R. Malthus, William Godwin and David Ricardo. Theorists such as Alexander Everett, William Peterson, Simon Gray, Henry C. Carey, John Stuart Mill, Friedrich Engels, Henry George and Charles Fourier are the subject of the volume's second section. Finally, Simon covers the effect of population density and cities on productivity and the effect of density on agricultural practices and natural resources. Essays from this section include John Maynard Keynes, 'Is Britain Overpopulated?' and 'The Economic Consequences of Peace' as well as selections from Lionel Robbins, George Simmel and Alvin H. Hansen. Simon's long-term focus reflects the evolution of population movements. He does not restrict himself to writings that have been important in the historical chain of intellectual influence. Rather, he guides us to key works which shed light on the intellectual history of population economics. Simon includes some essays that while greatly influential can also be seen as fundamentally wrong in light of later work. As such, *The Economics of Population* will be of great value to political economists, sociologists of knowledge and historians of ideas. [Divine Providence in Early Modern Economic Thought](#) Joost

Hengstmengel, 2019-05-21 In this important volume, Joost Hengstmengel examines the doctrine of divine providence and how it served as explanation and justification in economic debates in the sixteenth, seventeenth and eighteenth centuries throughout Western Europe. The author discusses five different areas in which God was associated with the economy: international trade, division of labour, value and price, self-interest and poverty, and inequality. Ultimately, it is shown that theological ideas continued to influence economic thought beyond the Medieval period and that the science of economics as we know it today has theological origins. Interdisciplinary in nature, this book will be of interest to advanced students and researchers in the history of economic thought, the history of theology, philosophy and intellectual history. **Consumption as an Investment** Cosimo Perrotta, 2004-08-26 Perrotta explores and charts the changing place of consumption as a source of investment in production and growth within economic writings from ancient history to the present. This ambitious project is carried out with great skill, vigour and originality and will help to bring consumption studies into the mainstream of

economic thought **The Free Port of Livorno and the Transformation of the Mediterranean World** Corey Tazzara, 2017-10-13 In the twilight of the Renaissance the grand duke of Tuscany a scion of the fabled Medici family of bankers invited foreign merchants artisans and ship captains to settle in his port city of Livorno The town quickly became one of the most bustling port cities in the Mediterranean presenting a rich tableau of officials merchants mariners and slaves Nobody could have predicted in 1600 that their activities would contribute a chapter in the history of free trade Yet by the late seventeenth century the grand duke s invitation had evolved into a general program of hospitality towards foreign visitors the liberal treatment of goods and a model for the elimination of customs duties Livorno was the earliest and most successful example of a free port in Europe The story of Livorno shows the seeds of liberalism emerging not from the studies of philosophers such as Adam Smith but out of the nexus between commerce politics and identity in the early modern Mediterranean

Making Money in Sixteenth-Century France Jotham Parsons, 2015-02-06 Coinage and currency abstract and socially created units of value and power were basic to early modern society By controlling money the people sought to understand and control their complex expanding and interdependent world In Making Money in Sixteenth Century France Jotham Parsons investigates the creation and circulation of currency in France The royal Cour des Monnaies centralized monetary administration expanding its role in the emerging modern state during the sixteenth century and assuming new powers as an often controversial repository of theoretical and administrative expertise The Cour des Monnaies Parsons shows played an important role in developing the contemporary understanding of money as a source of both danger and opportunity at the center of economic and political life More practically the Monnaies led generally successful responses to the endemic inflation of the era and the monetary chaos of a period of civil war Its work investigating and prosecuting counterfeiters shone light into a picaresque world of those who used the abstract and artificial nature of money for their own ends Parsons s broad multidimensional portrait of money in early modern France also encompasses the literature of the age in which money s arbitrary and dangerous power was a major theme *Military Power, Conflict, and Trade* Michael P. Gerace, 2004 This is a book about how military spending and international trade interact among great powers about their peacetime patterns of conflict and about the peacetime roles played by military power

Population and Development Issues Yves Charbit, 2022-06-16 One of the major challenges facing the world today is the interaction between demographic changes and development Rather than the usual view that the population itself is the main problem Population and Development Issues argues that it is just one factor among many others such as poverty illiteracy poor health unemployment the condition of women and climate change This book analyzes the relationships between the key demographic variables fertility morbidity and mortality migration etc and major development issues notably education employment health gender social and geographical inequalities and climate concerns Bringing together contributions from specialists across every field it presents empirical data simply and clearly alongside theoretical reflections Foreign Trade and the National Economy

Leonard Gomes,1987-06-18 **Opposition to Louis XIV** Lionel Rothkrug,2015-12-08 In tracing the history of the anti mercantilist movement the author shows that many of the ideas and attitudes associated with eighteenth century philosophes were first formulated in the anti mercantilist criticism Originally published in 1965 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Political Economy of Mercantilism Lars Magnusson,2015-06-12 Since the days of Adam Smith Mercantilism has been a hotly debated issue Condemned at the end of the 18th century as a false system of economic thinking and political practice it has returned paradoxically to the forefront in regard to issues such as the creation of economic growth in developing countries This concept is often used in order to depict economic thinking and economic policy in early modern Europe its meaning and content has been highly debated for over two hundred years Following on from his 1994 volume Mercantilism The Shaping of an Economic Language this new book from Lars Magnusson presents a more synthetic interpretation of Mercantilism not only as a theoretical system but also as a system of political economy This book incorporates samples of material from the 1994 publication alongside new material ordered in a new set of chapters and up date discussions on mercantilism up to the present day Tracing the development of a particular political economy of Mercantilism in a period of nascent state making in Western and Continental Europe from the 16th to the 18th century the book describes how European rulers regarded foreign trade and industrialisation as a means to achieve power and influence amidst international competition over trades and markets Returning to debates concerning whether Mercantilism was a system of power or of wealth Magnusson argues that it is in fact was both and that contemporaries almost without exception saw these goals as interconnected He also emphasises that Mercantilism was an all European issue in a time of trade wars and the struggle for international power and recognition In examining these issues this book offers an unrivalled modern synthesis of Mercantilist ideas and practices
