Hanley, A. P. Kerr, Miss A P Kerr, N. H. Waites, 2005-08-17 Many recent studies of French politics have tended to concentrate on the French political system in isolation Contemporary France aims to set the working of the French political system into its historical social and economic context The first section gives a succinct description of the main developments since 1944 in all major contexts economy society domestic politics and foreign relations The authors then analyse the economic social and cultural structures of present day France and discuss the institutional framework of decision making and the major political forces involved in it There are also chapters on French external and defence policy and on the education system all of which are set in the context of the political system as a whole Aimed primarily at students of European history and politics or of French society and culture the book assumes little knowledge in the social sciences and will be readily accessible to beginners in this field French Politics and Society Herrick Chapman, Minda de Gunzburg Center for European Studies, 2000 **French politics, culture & society** Herrick Chapman, New York University. Institute of French Studies, 2003 **CONTEMPORARY FRANCEAN INTRODUCTION TO FRENCH POLITICS AND SOCIETY.** HOWARTH; VAROUXAKIS DAVID (GEORGIOS; REYNOLDS, CHRI.), 2016 **The French Centre Right and the Challenges of a Party System in Transition** William Rispin, 2021-12-15 This book argues that the defeat of the main French Centre Right party in the 2017 presidential and legislative elections and its subsequent disintegration were the result of a failure to respond effectively to the challenges posed by a continuing realignment of the party system By the start of the Hollande presidency many sections of the electorate had lost faith in the traditional parties of government and the ideologies which they represented and were adopting a more individualist approach to politics The Left Right divide which had determined relations between parties since the creation of the Fifth Republic in 1958 gave way to a new arrangement based on three axes identity liberal economics and Europe These policy areas would provoke major differences of opinion among supporters of the Centre Right and lead a significant number of them to abandon Les Républicains which was a major factor in the election of Emmanuel Macron **French politics, society and culture series**, 19?? *French Politics, Culture and Society*, 2005 Contemporary France Jean Blondel, 1974 **France Since 1870** Charles Sowerwine, 2001 The defeat of France by Prussia in 1871 marked the death of an illusion nurtured for much of the 19th century that the French could regain their Napoleonic role as arbiters of world affairs France's subsequent history has been a sometimes successful sometimes catastrophic attempt to come to terms with its diminished status To this day French politics remains saturated in the mythology of the Revolutionary and Napoleonic periods with their twin legacies of mass action the Popular Front the events of 1968 and in effect popular dictatorship Pétain de Gaulle This history describes the great political economic cultural and social events that have defined the period from the convulsive establishment of a French republic to the apotheosis of French national culture in World War I from the acrimonious failure of the 1930s and the Occupation to France's resurgence as a central focus of postwar Europe The book ends with President Mitterrand's retirement an epochal event that marks the

severing of France's last link with the Vichy government and the Fourth Republic *French Politics and Society* S. H. Hoffman, Minda de Gunzburg Center for European Studies, 1998 Changing France Pepper D. Culpepper, Peter A. Hall, Bruno Palier, 2006-05-02 How do European states adjust to international markets Why do French governments of both left and right face a crisis of public confidence In this book leading experts on France chart the dramatic changes that have taken place in its polity economy and society since the 1980s and develop an analysis of social change relevant to all democracies Exploring immigration industrial relations generational conflict and politics they find the roots of discontent in the transformation of a society exemplifying a new Europe French Politics and Society S.
