

THE FRENCH PRIMITIVES AND THEIR FORMS

by

ALBERT C. BARNES
AND
VIOLETTE DE MAZIA

Octavo, 569 pages, 156 Illustrations

This book embodies a first-hand study of practically all the paintings listed as French Primitives in the principal galleries of the world. The study develops, for the first time, the plastic characteristics of the forms of the French Primitives and it traces their origins in antecedent frescoes, stained glass and illuminated miniatures. The resulting definition of the authentic French form excludes from the French tradition a large majority of the paintings now classified therein; it also brings into the category of French Primitives numerous pictures heretofore catalogued as belonging to other traditions.

The research, of which the book is a record, has extended over a period of several years. The method of study, based upon objective plastic qualities of the pictures as opposed to sentimental rhapsodizing, has been endorsed by the leading aestheticians and educators as in line with the recognized achievements in modern psychology and scientific method. Every French Primitive of importance is analyzed in its plastic details and is classified in the new divisions which evolved from the research.
