PhD,2015-12-05 The ultimate defeat of a nation begins at home When the ethical values of the people at the personal family and social levels degenerate the spiritual intellectual and physical health of the nation also gets weakened Mankind has only two kinds of core values some religions command to love even the enemies while others command to kill the enemies USA is

not just the most powerful nation in the world It is also the most coveted society in the world because of its highest quality value system due to Biblical Christian faith Ultimately there is only one God one mankind one problem one solution and hence there can have only one value system for mankind But the shadow of a great global tension and suicidal mutual conflict caused by the many contradictory god views religions worldviews truth claims ideologies and value systems is right now visible Defending the high ideal of loving the enemies could be easy But the ultimate challenge of foreign policy is about practicing the high ideals of the nation even in the process of defending those ideals in a crooked and inimical world The biggest dilemma in US foreign policy is whether it can practice its value of even loving its enemies and still exist as a nation to defend it values Practicing the values and defending the values should go hand in hand A very judicious combination of practicing the values and defending those who hold the value system are essential due to individual eternal consequences To defend the values of freedom unfortunately the USA had to succumb to death and murder during the cold war in effect failing to practice its values in the process of defending it Hence the struggle confronting individuals from the family level to the international levels is the struggle of practicing the high values at the real life situations The shocking truth is that victorious Christian life always demands self sacrifice But there are false gods religions and value systems whose followers don t have to follow any of these values and hence have an easy life It is high time to realize that anything that comes in the name of any god religion or worldview is not safe The core values function as the touchstone for testing the quality of any god religion worldview or truth claim Mankind cannot peacefully survive if communities of people don t have good values and morality to practice Faulty definitions of freedom and secularism have led to the growth of evil to such levels where now people will have to resort to killing for survival Hence the state governments must implement the right view of secularism It will be suicidal to any society to allow anyone to promote evil values in the name of religious freedom and secularism It should become the primary responsibility of the supreme legal system in any nation to examine the basic documents of the religions identify and declare which ones contain unhealthy values affecting the character of the people The State should not allow any group to promote and practice unhealthy values in the label of any religion The values of the Christian faith are undeniable that no legal system can deny these values and the evils which Christian faith prohibits no legal system can approve It stands for loving enemy and telling the truth Those who reject Christian faith can never stand on a more logical faith It is written in the Bible that Jesus died on the cross for mankind and rose from the dead on the third day Those who have the wisdom to believe these plain facts will be able to believe that Jesus is in fact the true God in human form and will worship Him     **The Ordinances of the Mayor and City Council of Baltimore, Passed at the January Sessions, 1858(-1869).
