French Arts Letters Other Essays:

The Assault on French Literature, and Other Essays Percy Mansell Jones, 1963 This book offers one professor's critical observations and constructive suggestions on the teaching of foreign literatures specifically French which is his main tier. The condition of humane studies and their risk of being degraded to the status of poor relations to the sciences are a continuing source of disquiet. Thus the descriptions and disclosures of what went wrong in the past are meant to encourage demonstrating by contrast the improvements in the organization of studies that have been made. With one exception the pieces in Part Two Commentaries Discussions are exercises in how to introduce literary topics within the official lecture hour of fifty minutes.

The Dehumanization of Art and Other Essays on Art, Culture, and Literature José Ortega y Gasset, 2019-10-08 A classic work on radical aesthetics by one of the great philosophers of the early twentieth century. No work of philosopher and essayist José Ortega y Gasset has been more frequently cited, admired, or criticized than his response to modernism. *The Dehumanization of Art* The essay originally published in Spanish in 1925 grappled with the newness of nonrepresentational art and sought to make it more understandable to the public. Many embraced the essay as a manifesto extolling the virtues of vanguard artists and promoting efforts to abandon the realism and the romanticism of the nineteenth century. Others took it as a denunciation of everything that was radical about the avant garde. This Princeton Classics edition makes this essential work along with four of Ortega's other critical essays available in English. A new foreword by Anthony J. Cascardi considers how Ortega's philosophy remains relevant and significant in the twenty-first century.

Encyclopedia of the Essay Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length. The more than 500 entries by 275 contributors include entries on nationalities, various categories of essays such as generic such as sermons, aphorisms, individual major works, notable writers, and periodicals that created a market for essays and particularly famous or significant essays. The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch, nationality, era, selected writings, list additional readings, and anthologies.

The Feminist Encyclopedia of French Literature Eva M. Sartori, 1999-07-30 The earliest known literary productions by women living in Europe were probably written by French writers. As early as the 12th century women troubadours in the south of France were writing poems. French women continued writing through the ages, their number increasing as education became more available to women of all classes. And yet of the great number of works by women writers who preceded the current feminist movement, very few have survived. A few writers such as Marie de France, George Sand, and Simone de Beauvoir became part of the canon. But critics, mostly male, had judged the works of only a few women.

writers worthy of recognition As part of the feminist move to reclaim women writers and to rethink literary history scholars in French literature began to take a new look at women writers who had been popular during their lifetimes but who had not been admitted into the canon This reference book provides extensive information about French women writers and the world in which they lived Included are several hundred alphabetically arranged entries for authors literary genres such as the novel poetry and the short story literary movements such as classicism realism and surrealism life cycle events particular to women such as menstruation and menopause events and institutions which affected women differently than men such as revolutions wars and laws on marriage divorce and education The volume spans French literature from the Middle Ages to the present and covers those writers who lived and worked mainly in France The entries are written by expert contributors and each includes bibliographical information The entries focus on each writer's awareness of how her gender shaped her outlook and opportunities on how categorizations structures and terms used to describe literary works have been defined for women and the ways in which women writers have responded to these definitions The volume begins with a feminist history of French literature and concludes with a selected general bibliography and a chronology of women writers

Over the past years studies have begun not only to identify the factors that impeded the full participation of women artists in French cultural life such as women s limited access to professional art education but also to bring to light the considerable artistic accomplishments of women occluded by historians for over a century A similar effort at historical revision has been under way for French women writers Works of fiction that enjoyed many editions in the nineteenth century receded from our field of vision for almost a century before being rediscovered and reissued during the last decades of the twentieth century Such efforts have resulted in scholarship that has helped revise the history of both artistic and literary expression in nineteenth century France Similarly many women in nineteenth century France had their

art criticism published both in journal reviews and in book form often for decades in a number of the most influential venues of their day. However, it is perplexing that they remain almost totally invisible in histories of French culture. *Women Art Critics in Nineteenth Century France: Vanishing Acts* is the first sustained effort to bring these prolific and influential critics out from the shadows. Although each of the chapters in this volume results from an interdisciplinary approach, the fact that they are written by scholars in art history and in literature means that there will be inevitable differences in approach and methodology. Thus, we study the women's reception of specific artworks and aesthetic movements; discuss intersections of aesthetics and politics in their essays; and the literary styles and rhetorical strategies of individual critics explore the social conditions that allowed or impeded their successes and suggest reasons for their all but disappearance in the twentieth century. In bringing to light for twenty-first century readers the vanished writings of heretofore unrecognized or underrecognized women art critics, the authors hope to contribute to the ongoing revision of women's role in cultural history. The multifaceted approaches to word-image studies modeled in this book and the many avenues for further research it identifies will inspire scholars in a number of disciplines to continue the work of reinscribing women in the history of cultural life.

The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson, I. R. Willison, 1972-12-07. More than fifty specialists have contributed to this new edition of volume 4 of *The Cambridge Bibliography of English Literature*. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation, and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.
