traditional business letter and bypassed again partially the fax. However the letter has also survived in its written form. Since the 1990s genre theory has been receiving a lot of attention both in academic and pedagogical circles. Discourse analysts have increasingly discovered the importance of the genre concept for the understanding of discourse. Not only do we get a better understanding of the linguistic characteristics register lexico grammatical features of texts but we also become aware of their macrostructures which appear to be organised according to genre expectations and conventions rooted in the socio cultural context. This evolution is also reflected in the different research approaches to the business letter as shown by the various chapters of this volume.
