

OFFICER'S FULL DRESS

The officers of the Chasseurs à Cheval of the Guard's full dress did not really change very much during the course of the Empire.

There were certainly a few differences in the trimmings of the dolmans and the pelisses; however the contemporary artistic reference is still the portrait of Lieutenant Drouadonné by Géricault.

The sabres of the officers in the Chasseurs were very rich and the factory at Versailles was the principal supplier of such weapons.

For more information on this subject it is suggested that Michel Pélard's study on arms and equipment be consulted.

The officer in this plate has been given a Year XIII model light cavalry sabre.

Junior officer -
lieutenants
and captains
were thought
to be junior
officers -
wearing full
dress towards
1805.

On parade, the officer used a natural panther skin shabrack.
The head was placed on the rear part of the saddle.
The tail therefore was at the front and hung to the left
as a general rule. The stirrup leathers were made of red morocco
and the stirrups were etched and gold-leafed.
The harness included golden buckles and a series
of gilded brass decorations just like the plate on the front
and the chest pieces.

- IMPERIAL GUARD OF NAPOLEON 1799-1815 , *Napoleon's Imperial Guard* Gabriele Esposito,2021-08-04 A detailed analysis of the organization uniforms and weapons of the French Imperial Guard created by Napoleon I The author describes how this large military body evolved from the Consular Guard created by Bonaparte as early as 1799 and how this came to include dozens of different military units belonging to each branch of service infantry cavalry artillery specialist corps The Imperial Guard was a miniature army made up of veteran soldiers who were dressed with the most spectacular and elegant uniforms ever seen on the battlefields of Europe The Guard also included several exotic non French units that are also covered in the text Egyptian Mamelukes Polish and Lithuanian lancers Tatar scouts Dutch grenadiers and lancers The way in which Napoleon employed the Guard in battle is discussed and also how it differed from the rest of the French Army in terms of military dress and weaponry *Napoleon's Gods: Grenadiers a Cheval de la Garde 1796-1815*. Paul Lindsay Dawson,2010-12-31 The Grenadiers Cheval of the Imperial Guard were the shock troops of the guard who were committed in battle as a final reserve at a crucial moment to turn the tide to victory for the French Charging at Marengo where they were badly bloodied by the Austrians in their first battle they again charged decisively at Austerlitz and Eylau and bore the brunt of the fighting from 1813 when they were expanded to two regiments Of the regiments of the Guard the Grenadiers Cheval has not been widely studied or been the subject of in depth research The book brings together much of what is known about the Grenadiers from the regiments archive held in France and contemporary iconography to chart in detail the regiments history and uniform in minute detail Using primary archival material held in France this work presents the first in depth study on this well known but little researched regiment **Napoleon's Elite Cavalry: Uniforms and History** Pasquale De Marco,2025-07-24 Napoleon s Elite Cavalry tells the story of the Imperial Guard Cavalry one of the most feared and respected military forces in history Formed in 1804 the guard cavalry was made up of the best and brightest young men from across the empire and they were trained to the highest standards They were armed with the latest weapons and equipment and they were known for their discipline and courage The guard cavalry saw action in many of Napoleon s most famous campaigns including the Battle of Austerlitz the Battle of Jena Auerstedt and the Battle of Borodino They also fought in the Peninsular War and the Russian Campaign The guard cavalry always fought bravely and they often played a decisive role in battle This book covers the unit s history organization uniforms equipment training tactics and combat record It also includes a number of illustrations including color plates of the guard cavalry s uniforms Napoleon s Elite Cavalry is a must read for anyone interested in the history of Napoleon s army It is a fascinating and informative account of one of the most elite

military units in history About the Author Pasquale De Marco is a historian specializing in the Napoleonic Wars He has written several books on the subject including Napoleon s Elite Cavalry He is also a regular contributor to several historical journals If you like this book write a review [The French Imperial Guard, 1804-1815 - Cavalry and Horse Artillery](#) André Jouineau,2006-11 This volume covers the last horse troops of the French Imperial Guard gendarmes honor guards and horse artillery not forgetting the Lithuanian tartars last proof of Napoleon s will to make out of his Guard a model of a Greater Europe **The History and Legacy of the Greatest Battles of the Napoleonic Wars** Charles River Editors,2025-05-01 Nearly 50 years after Napoleon met his Waterloo generals across the West continued to study his tactics and engage their armies the same way armies fought during the Napoleonic Era Despite advances in military technology and the advent of railroads for transportation all of which made defensive warfare more effective acclaimed military geniuses like Robert E Lee used flank attacks and infantry charges against superior numbers in an effort to win decisive victories and it would not be until World War I that concepts of modern warfare made the Napoleonic Era of the early 19th century outdated For those questioning why generals continued using tactics from the Napoleonic Era even as technology changed the battlefield the Battle of Austerlitz may provide the best answer Napoleon is regarded as one of history s greatest generals and Austerlitz was his greatest victory In 1805 Britain Austria and Russia allied together to form the Third Coalition against the French and the Third Coalition s forces consisted of armies from Austria and Russia with Britain providing naval support as well as its financial powers Napoleon had already defeated and mostly destroyed an Austrian army in October at Ulm before it could link up with the Russians setting the stage for the Battle of Austerlitz to be the culmination of the war against the Third Coalition as a whole in early December Despite the smashing victory at Ulm Napoleon s French army would still be well outnumbered at Austerlitz by a joint Russo Austrian army in a battle that would also come to be known as the Battle of Three Emperors The Battle of Austerlitz was a tactical masterpiece that saw Napoleon actually invite an attack on his army by the bigger Coalition army and over the course of about 9 hours the French successfully defended their right flank while counterattacking in the center and splitting the Russo Austrian army in two allowing the French to hit the flank of the advancing left wing of the enemy The result was a decisive victory that virtually annihilated the Third Coalition s army and made Napoleon the master of the European continent Over the course of its history England has engaged in an uncountable number of battles but a select few have been celebrated like the Battle of Trafalgar one of the most important naval battles in history Before the battle Napoleon still harbored dreams of sailing an invasion force across the English Channel and subduing England but that would be dashed on October 21 1805 by a British fleet that was outnumbered and outgunned That morning Admiral Horatio Nelson s fleet 27 strong bore down on the Franco Spanish fleet approaching at right angles in two columns French Admiral Pierre Charles Villeneuve s disposition was conventional a single line of battle ill formed due to the very light winds and the poor seamanship of many of the crews Traditional naval warfare strategies called for approaching an

enemy fleet in one line and then creating a parallel line that allowed as many guns as possible to fire At the same time that kind of line of battle allowed for admirals to signal during battle and it made retreating in an orderly fashion easier After all if an enemy's ships pursued during a retreat they would break their own line The problem with that strategy as Nelson saw it is that the ability to retreat meant fighting a decisive naval battle would be made much more difficult Thus at Trafalgar he employed a completely innovative strategy The British plan was to punch straight through the enemy line with two approaching columns of ships which would cut the Franco Spanish fleet's line in three prompting the melee that they knew would capitalize on their tactical superiority

French Guardsman vs Russian Jaeger Laurence Spring, 2013-11-20 The Russian Jaeger regiments and Napoleon's Young Guard clashed repeatedly during the campaigns of 1812-14 The Russian Jaeger were light infantry who gained enormous experience and prestige during the struggle to rid Europe of Napoleon's armies while the Young Guard was expanded to become the main strike force of the French field armies In appalling winter conditions in 1812 the Young Guard turned to confront their opponents including Jaeger forces at Krasnyi In the face of constant bombardment Young Guard regiments held off the Russians covering the retreat of large parts of Napoleon's forces They clashed again at Leipzig in 1813 and then again in the bitter cold at Craonne in 1814 where horrendous casualties finally told on the newly formed Young Guard units pitched into an attack upon Russian Jaeger regiments Putting the reader in the shoes of the ordinary soldiers of both sides this absorbing book traces the evolving trial of strength between Russia's Jaeger arm and France's Young Guardsmen at the height of the Napoleonic Wars

Napoleonic Heavy Cavalry & Dragoon Tactics Philip Haythornthwaite, 2013-07-20 During the Napoleonic Wars the supreme battlefield shock weapon was the heavy cavalry the French cuirassiers and their British Austrian Prussian and Russian counterparts Big men mounted on big horses the heavy cavalry were armed with swords nearly a metre long used for slashing or thrusting at their opponents many wore steel armour a practice revived by Napoleon They were tasked with smashing a hole in the enemy's line of battle with exploiting a weakness or with turning a flank Their classic manoeuvre was the charge arrayed in close order lines or columns the heavy cavalry would begin their attack at the walk building up to a gallop for the final 50 metres before impact Illustrated with diagrams relevant paintings and prints and specially prepared colour plates this is the first volume of a two part study of the cavalry tactics of the armies of Napoleon and those of his allies and opponents Written by a leading authority on the period it draws upon drill manuals and later writings to offer a vivid assessment of how heavy cavalry actually fought on the Napoleonic battlefield

many famous battles across Europe Dressed in distinctive green uniforms and classically inspired copper helmets the Dragoons of the Imperial Guard were raised in 1806 by the same criteria as other Guard units by selection of picked literate veterans from Line regiments who had six to ten years of service and citations for bravery in at least two campaigns The following year they were named Dragons de l'Impératrice in a unique compliment to the Empress Josephine As a ceremonial regiment it enjoyed many privileges but it also saw combat on a number of occasions including the battles of Essling and Wagram 1809 the Russian campaign 1812 when it suffered severe losses at Bautzen Wachau and Leipzig 1813 in the 1814 Campaign of France and at Ligny and Waterloo 1815 Lavishly illustrated and based on a wealth of archival sources this study by noted authority Ronald Pawly celebrates the colourful history and appearance of this regiment
