Canvases and Careers Harrison C. White, Cynthia A. White, 1965 In the nineteenth century the Académie des Beaux Arts and institution of central importance to the artistic life of France for over two hundred years yielded much of its power to the present system of art distribution which is dependent upon critics, dealers and small exhibitions. In *Canvases and Careers* Harrison and Cynthia White examine in scrupulous and fascinating detail how and why this shift occurred. Assimilating a wide range of historical and sociological data, the authors argue convincingly that the Academy, by neglecting to address the social and economic conditions of its time, undermined its own ability to maintain authority and control. Originally published in 1965, this ground-breaking work is a classic piece of empirical research in the sociology of art. In this edition, Harrison C. White's new Foreword compares the marketing approaches of two contemporary painters, while Cynthia A. White's new Afterword reviews recent scholarship in the field.

Manet Pierre Bourdieu, 2018-05-18 What is a symbolic revolution? What happens when a symbolic revolution occurs? How can it succeed and prevail, and why is it so difficult to understand? Using the exemplary case of Édouard Manet, Pierre Bourdieu began to ponder these questions as early as the 1980s, before making it the focus of his lectures in his last years at the Collège de France. This second volume of Bourdieu's previously unpublished lectures provides his most sustained contribution to the sociology of art and the analysis of cultural fields. It is also a major contribution to our understanding of impressionism and the works of Manet. Bourdieu treats the paintings of Manet as so many challenges to the conservative academicism of the pompier painters, the populism of the Realists, the commercial eclecticism of genre painting, and even the Impressionists, showing that such a revolution is inseparable from the conditions that allow fields of cultural production to emerge. At a time when the Academy was in crisis and when the increase in the number of painters challenged the role of the state in defining artistic value, the break that Manet inaugurated revolutionised the aesthetic order. The new vision of the world that emerged from this upheaval still shapes our categories of perception and judgement today, the very categories that we use everyday to understand the representations of the world and the world itself. This major work by one of the greatest sociologists of the last 50 years will be of great interest to students and scholars in sociology, art history and the social sciences and humanities generally. It will also appeal to a wide readership interested in art, in impressionism and in the works of Manet.
