Conservative Politics in France Malcolm Anderson, 2023-10-13 First published in 1974 *Conservative Politics in France* gives a scholarly account of politics in France from 1880 to the present and explains the way in which the Right has evolved from a collection of weak and transitory political associations to the relatively well organised Gaullist coalition Exciting patterns of interaction between personal careers political events and party organisation have characterised this period War and colonial conflict have brought an end not only to regimes but also to political parties The lingering influences of an aristocracy and bourgeoisie de tradition and the survival of a large peasantry and local social systems preserved peculiar styles of politics The first great wave of party building at the beginning of the twentieth century produced organisations ranging from the doctrinaire anti parliamentary league to the loose electoral association The Fourth Republic saw another wave of party building but only since 1958 has a party emerged which can attract most of the moderate and conservative electorate No other book has attempted to cover this historical period and to give detail accounts of local as well as national political structures This is an interesting read for scholars and researchers of French political history French politics and European politics

The National Front and French Politics Jonathan Marcus, 2016-07-27 Jonathan Marcus stands out from most of his colleagues in the media by making a case for the non alarmists His *National Front and French Politics* is a thoughtful study which in the end provides a more effective refutation of the myths peddled by Le Pen than would an angry pamphlet Henri Astier Times Literary Supplement Jonathan Marcus s comprehensive account provides plenty of analysis to go with the factual background to the rise of Le Pen and the NF There are particularly good chapters on the many strands of far right opinion from collaborators to extreme Catholics who eventually found a home with the new party Andrew Bell BBC Worldwide I am convinced that the book will be extremely valuable to all English speaking students of contemporary French politics Stanley Hoffmann Harvard University The extreme right wing National Front is now France s fourth largest political party At the 1988 Presidential election its leader Jean Marie Le Pen obtained over 14 per cent of the popular vote Le Pen s xenophobic anti immigrant message has attracted significant support in France This book examines the rise of Le Pen s party and its impact on the French political scene How far is it a threat to French democracy And is the National Front now a permanent feature of French politics

Empire Films and the Crisis of Colonialism, 1946-1959 Jon Cowans, 2015-05-15 The first transnational history of cinema s role in decolonization Using popular cinema from the United States Britain and France

Empire Films and the Crisis of Colonialism 1946 1959 examines postwar Western attitudes toward colonialism and race relations Historians have written much about the high politics of decolonization but little about what ordinary citizens thought about losing their empires Popular cinema provided the main source of images of the colonies and according to Jon Cowans in this far reaching book films depicting the excesses of empire helped Westerners come to terms with decolonization and even promoted the dismantling of colonialism around the globe Examining more than one hundred British French and American films from the post World War II era Cowans concentrates on movies that depict interactions between white colonizers and nonwhite colonial subjects including sexual and romantic relations Although certain conservative films eagerly supported colonialism Cowans argues that the more numerous liberal colonialist productions undermined support for key aspects of colonial rule while a few more provocative films openly favored anticolonial movements and urged internal decolonization for people of color in Britain France and the United States Combining new archival research on the films production with sharp analysis of their imagery and political messages the book also assesses their reception through box office figures and newspaper reviews It examines both high profile and lesser known films on overseas colonialism including The King and I Bhowani Junction and Island in the Sun and tackles treatments of miscegenation and internal colonialism that appeared in Westerns and American films like Pinky and Giant The first truly transnational history of cinema s role in decolonization this powerful book weaves a unified historical narrative out of the experiences of three colonial powers in diverse geographic settings

Replacing France Kathryn Statler, 2007-06-22 Using recently released archival materials from the United States and Europe Replacing France The Origins of American Intervention in Vietnam explains how and why the United States came to assume control as the dominant western power in Vietnam during the 1950s Acting on their conviction that American methods had a better chance of building a stable noncommunist South Vietnamese nation Eisenhower administration officials systematically ejected French military economic political bureaucratic and cultural institutions from Vietnam Kathryn C Statler examines diplomatic maneuvers in Paris Washington London and Saigon to detail how Western alliance members sought to transform South Vietnam into a modern westernized and

democratic ally but ultimately failed to counter the Communist threat Abetted by South Vietnamese prime minister Ngo Dinh Diem Americans in Washington D C and Saigon undermined their French counterparts at every turn resulting in the disappearance of a French presence by the time Kennedy assumed office Although the United States ultimately replaced France in South Vietnam efforts to build South Vietnam into a nation failed Instead it became a dependent client state that was unable to withstand increasing Communist aggression from the North Replacing France is a fundamental reassessment of the origins of U S involvement in Vietnam that explains how Franco American conflict led the United States to pursue a unilateral and ultimately imperialist policy in Vietnam

Coalitions in Parliamentary Government L. Dodd,2015-03-08 For eighty years students of parliamentary democracy have argued that durable cabinets require majority party government Lawrence Dodd challenges this widely held belief and offers in its place a revisionist interpretation based

on contemporary game theory He argues for a fundamental alteration in existing conceptions of the relationship between party systems and parliamentary government The author notes that cabinet durability depends on the coalitional status of the party or parties that form the cabinet This status is created by the fractionalization instability and polarization that characterize the parliamentary party system Cabinets of minimum winning status are likely to endure as they depart from minimum winning status their durability should decrease Hypotheses derived from the author s theory are examined against the experience of seventeen Western nations from 1918 to 1974 Making extensive use of quantitative analysis the author compares behavioral patterns in multiparty and majority party parliaments contrasts interwar and postwar parliaments and examines the consistency of key behavioral patterns according to country He concludes that a key to durable government is the minimum winning status of the cabinet which may be attained in multiparty or majority party parliaments Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
