

# CHAPTER 3

## THE MAJOR PENTATONIC SCALE

In this chapter you'll learn about the *major pentatonic scale*. Here's a short-cut: The major pentatonic scale has the same scale shapes as the minor pentatonic scale. This means you won't have to learn any new scales.

You may be thinking, "If the scales shapes are the same, why even learn the major pentatonic scale?" Well, well, well...as you further your studies of music, you'll realize there are two very different worlds—the "major world" and the "minor world." Each "world" needs it's own set of scales for you to be comfortable when soloing. So, let's get an understanding of the difference between major and minor.

Below are the five major pentatonic scale patterns. As I said earlier, the patterns look the same as before. However, the *roots* (circled notes) are different.

Fig. 14

Take notice of our favorite pattern from the last chapter. In minor it's called Pattern 4; in major it's called Pattern 3. For example, Pattern 4 of E minor pentatonic is exactly the same notes as Pattern 3 of G major pentatonic. However (and this is important), the *roots* are different.
