French's Index of Differential Diagnosis, 2011 For nearly a century French's Index of Differential Diagnosis has been unparalleled in providing the clinician with invaluable assistance in quickly and correctly diagnosing a disease from a whole range of presenting symptoms Arranged alphabetically by presenting symptoms the text helps the reader to identify each presentation describes the different diagnoses that it could represent and explains the signs and tests used to make a diagnosis **French's Index of Differential Diagnosis** Herbert French, Francis Dudley Hart, 1979 **French's Index of Differential Diagnosis An A-Z 1** Mark T. Kinirons, Harold Ellis, 2016-03-30 First published in 1912 French's Index of Differential Diagnosis helps clinicians in the differential diagnosis of any condition which may be seen in hospital or general practice Arranged alphabetically by symptom the text helps readers identify each presentation describes the different diagnoses that it could represent and explains the tests **French's Index of Differential Diagnosis, 1 An A-Z** Mark Kinirons, Harold Ellis, 2011-01-28 For nearly a century French's Index of Differential Diagnosis has been unparalleled in providing the clinician with invaluable assistance in quickly and correctly diagnosing a disease from a whole range of presenting symptoms Arranged alphabetically by symptom the text helps readers identify each presentation describes the different diagnoses t **French's Index of Differential Diagnosis** Arthur H. Douthwaite, 2014-06-05 AFTER the appearance of the sixth edition Herbert French had resolved to take no active part in any future production I decided that it was not only desirable but necessary to undertake considerable reconstruction in the next edition Although the basic principles of diagnosis must be static for all time the considerably increased scope of investigation by accessory aids demanded the inclusion of much new material and in many instances the production of entirely re written rather than revised articles especially as many of the earlier contributors have died or retired By a more logical division and allocation among

new contributors considerable overlapping or repetition evident in earlier editions has been avoided and has resulted it is hoped in a more compact and generally useful work It will be noticed that the title has been altered to conform to the actual contents By judicious pruning the index has been simplified and abbreviated whilst retaining all essential references This has been carried out by the publishers Messrs John Wright Sons of Bristol with an accuracy ensured from their wide experience The highest standard of format and printing confidently expected has been maintained For many of the illustrations I am indebted to Professor J Whillis who is in charge of the Department of Medical Illustration Guy s Hospital and to Dr T H Hills Director of the Department of Diagnostic Radiology Guy s Hospital In other cases acknowledgment of the source is appended to the picture To the deletion of obsolete material and the inclusion of much that is new must be added the editorial complication of extensive cross references when several independent contributors have to be correlated a difficulty enhanced by the long interval that has been unavoidable between the submitting of manuscripts and publication I have been exceptionally fortunate in having as counsellor collaborator and contributor Sir Adolphe Abrahams He has spared no pains in respect of writing proof reading and general advice to help me to carry on the work of my old teacher To him I offer my warmest thanks

**FRENCH'S INDEX OF DIFFERENTIAL DIAGNOSIS 13E** Ian A D Bouchier, 1996-11-05 The first edition of French s Index published over 80 years ago aimed to help the clinician in the differential diagnosis of any condition encountered in any medical specialty or surgery that may be seen in general or hospital practice For this 13th edition that aim remains the same Completely revised with new editors new contributors and new illustrations French s Index is as essential for today s doctors as it has been for those of previous generations The earliest possible diagnosis of a patient s disease is desirable and it is important for the physician to be able to differentiate between the various diseases to which the presenting symptoms may be due In this respect French s Index has no parallel Arranged alphabetically and based on the symptoms with which patients present to the physician it offers a succinct and well illustrated aide memoire which will be invaluable to the undergraduate in the clinical years and to trainee and established doctors in general and hospital practice
