Fresh Blood The New American Immigrants:

Fresh Blood Sanford J. Ungar, 1995 Drawing on hundreds of richly textured interviews conducted from one end of the country to the other veteran journalist Sanford J Ungar documents the real life struggles and triumphs of America's newest immigrants He finds that the self-chosen who arrive every day most of them legally still enrich our national character and experience and make invaluable political economic social cultural and even gastronomic contributions First class journalism a book scholars will use decades from now to find out what it felt like to be an immigrant in the 90s I do not know of a better description and analysis of contemporary immigration Roger Daniels author of *Coming to America A History of Immigration and Ethnicity in American Life* An excellent overview of contemporary immigration issues set within the context of developments in the past fifty years Ungar makes a strong case for the contributions of recent immigrants and for maintaining a relatively open door in the face of sometimes shrill opposition Thomas Dublin editor of *Immigrant Voices New Lives in America* Exactly the right book at the right time Ungar looks at the national controversy over immigration policy with a clear eye producing a history and a convincing argument why this is no time to reverse a liberal welcome to newcomers that has always in good times and bad made this a better and more prosperous democracy Ben H Bagdikian author of *Double Vision*

Unguarded Gates Otis L. Graham, 2006-01-26 With terrorism as a consistent threat Americans have begun to scrutinize the effects of rising immigration and porous borders *Unguarded Gates* examines America's history of immigration pressures policy debates and choices In assessing the past present and future of immig

The New African Diaspora in North America Kwadwo Konadu-Agyemang, Baffour K. Takyi, John A. Arthur, 2006-01-01 The New African Diaspora in North America brings together sociologists social workers geographers economists anthropologists and others to explore the African immigrant experience from a multi-disciplinary perspective The contributors shed light on the factors behind the increasing wave in African immigration to the U S and Canada the socio-economic characteristics of African immigrants their spatial distribution obstacles and contributions Despite their increasing presence African immigrant groups in the U S and Canada have engendered relatively little scholarly research on their pre and post migration experience This collection helps fill that void and will be valuable reading for anyone interested in African Diaspora studies

Women, Religion and Culture in Iran Sarah Ansari, Vanessa Martin, 2014-05-01 Investigates how women religion and culture have interacted in the context of 19th and 20th century Iran covering topics as seemingly diverse as the social and cultural history of Persian cuisine the work and attitudes of 19th century Christian missionaries the impact of growing female literacy and the consequences of developments since 1979

Multicultural American Literature A. Robert Lee, 2003 Table of contents

America's Banquet of Cultures Ronald Fernández, 2000-06-30 The melting pot is a myth according to Fernandez who shows that the United States is and always has been a banquet of cultures As he argues the best way to deal with the more than 20 million new immigrants since 1965 is to accept recognize and eagerly explore the differences among the American

people Fernandez seeks to forge a positive national consensus based on two building blocks First the nation s many ethnic groups can be a powerful source of unprecedented economic artistic and scientific creativity Secondly the nation s many ethnic groups offer a way to erase the black white dichotomy which masks the shared injustices of millions of European Asian African Native and Latino Americans This is a provocative analysis of how we arrived at our current ethnic and racial dilemmas and what can be done to move beyond them Scholars and students of American immigration and social policy as well as concerned citizens will find the book equally rewarding

The Population of the United States Donald J.

Bogue,Douglas L. Anderton,Richard E. Barrett,2010-07-06 This third edition written with two new coauthors combines 1990 census data with information from the Current Population Survey the National Health Interview Survey and numerous other sources even including demographic data not available in any other published source

Made in God's Image Regis A.

Duffy,Angelus Gambatese,1999 The Catholic Church in its social teaching has consistently rooted its mission in the dignity of the human person created in the image of God For three years Catholic scholars from various disciplines participated in a seminar on human dignity The fruits of their conversation are presented in this engaging and readable collection Ideal for college courses on religious and social issues or adult education groups the essays in this volume are also useful for personal study

Race, Ethnicity, and Place in a Changing America, Third Edition John W. Frazier,Eugene L. Tettey-Fio,Norah F. Henry,2016-12-29 Uses both historical and contemporary case studies to examine how race and ethnicity affect the places we live work and visit This book examines major Hispanic African and Asian diasporas in the continental United States and Puerto Rico from the nineteenth century to the present with particular attention on the diverse ways in which these immigrant groups have shaped and reshaped American places and landscapes Through both historical and contemporary case studies the contributors examine how race and ethnicity affect the places we live work and visit illustrating along the way the behaviors and concepts that comprise the modern ethnic and racial geography of immigrant and minority groups While primarily addressed to students and scholars in the fields of racial and ethnic geography these case studies will be accessible to anyone interested in race place connections race ethnicity boundaries the development of racialization and the complexity of human settlement patterns and landscapes that make up the United States and Puerto Rico Taken together they show how individuals and culture groups through their ideologies social organization and social institutions reflect both local and regional processes of place making and place remaking that occur within and beyond the continental United States

The Crypto-Jewish

Mashhadis Hilda Nissimi,2006-12-01 This book tells the little known story of a fascinating crypto Jewish community through two centuries and three continents Beginning as a precarious settlement of a few families in mid 18th century Mashhad an Islamic holy city in northern Iran the community grew into a closely knit group in response to their forced conversion to Islam in 1839 Muslim hostility and a culture of memory sustained by intra communal marriages reinforced their separate

religious identity vesting it in strong family and communal loyalty Mashhadi women became the main agents of the cultural transmission of communal identity and achieved social roles and high status uncharacteristic for contemporary Jewish and Muslim communities The Mashhadis maintained a double identity upholding Islam in public while tenaciously holding onto their Jewish identity in secret The exodus from Mashhad after 1946 relocated the communal center to Tehran later to Israel and after the Khomeini revolution to New York The relationship between the formation and retention of communal identity and memory practices with interconnected issues of religion and gender draws upon existing research on other crypto faith communities such as the Judeoconvertos the Moriscos and the French Protestants who through the special blend of memory faith and ethnicity emerged strengthened from their underground period For the immigration period the author challenges the old paradigm that modernity and religion are mutually exclusive The book also explores the sometimes uncomfortable yet intimate relationships that exist between seemingly incompatible ways of seeing the past both secular and religious

Jewish Hearts Betty N. Hoffman, 2012-02-01 This ethnographic study compares and contrasts the changing ethnic identity of those Russian Jews who settled in Hartford Connecticut between 1881 and 1930 with that of the Soviet Jews who remained in Russia after the Revolution became Soviet citizens and emigrated after 1975 Although both groups were labeled Jews their internal definitions of what constituted being Jewish and their personal experiences were radically different Using both archival and contemporary oral histories Betty N Hoffman traces the stories of real people whose lives and choices were affected by both their ethnic identity and the larger movements around them as they made new homes in the United States

From the Shahs to Los Angeles Saba Soomekh, 2012-10-11 Gold Medalist 2013 Independent Publisher Book Awards in the Religion category Saba Soomekh offers a fascinating portrait of three generations of women in an ethnically distinctive and little known American Jewish community Jews of Iranian origin living in Los Angeles Most of Iran's Jewish community immigrated to the United States and settled in Los Angeles in the wake of the 1979 Iranian Revolution and the government sponsored discrimination that followed Based on interviews with women raised during the constitutional monarchy of the earlier part of the twentieth century those raised during the modernizing Pahlavi regime of mid century and those who have grown up in Los Angeles the book presents an ethnographic portrait of what life was and is like for Iranian Jewish women Featuring the voices of all generations the book concentrates on religiosity and ritual observance the relationship between men and women and women's self concept as Iranian Jewish women Mother daughter relationships double standards for sons and daughters marriage customs the appeal of American forms of Jewish practices social customs and pressures and the alternate attraction to and critique of materialism and attention to outward appearance are discussed by the author and through the voices of her informants **The Spirit Catches You and You Fall Down** Anne Fadiman, 2012-04-24 Winner of the National Book Critics Circle Award for Nonfiction this brilliantly reported and beautifully crafted book explores the clash between a medical center in California and a Laotian refugee family over their care of a child [A Church of Our Own](#) R.

Stephen Warner, 2005 In this definitive collection of essays spanning fifteen years R Stephen Warner traces the development of the new paradigm interpretation of American religion Originally formulated in the 1990s in response to prevailing theories of secularization that focused on the waning plausibility of religion in modern societies the new paradigm reoriented the study of religion to a focus on communities subcultures new religious institutions and the fluidity of modern religious identities This perspective continues to be one of the most important driving forces in the field and one of the most significant challenges to the idea that religious pluralism inevitably leads to religious decline A leading sociologist of religion Warner shows how the new paradigm stresses the role that religion plays as a vehicle for the bonding and expression of communities within the United States a society founded on the principle of religious disestablishment and characterized by a diverse and mobile population Chapters examine evangelicals and Pentecostals gay and lesbian churches immigrant religious institutions Hispanic parishes and churches for the deaf in terms of this framework Newly written introductory and concluding essays set these groups within the broad context of the developing field A thoughtfully organized and timely collection the volume is a valuable classroom resource as well as essential reading for scholars of contemporary religion

Where the Nations Meet Stephen A. Rhodes, 1998-05-26 Stephen Rhodes proposes a biblical ministry tested pastoral theology of multiethnic ministry He shows how the church is called to serve and include all ethnicities examines how the church can bring healing to a conflicted world and suggests how such a ministry can be successfully conducted in churches

The Identity of Nations Montserrat Guibernau, 2013-04-25 What is national identity What are the main challenges posed to national identity by the strengthening of regional identities and the growth of cultural diversity How is right wing nationalism connected to the desire to preserve a traditional image of national identity Can we forge a new kind of national identity that responds to the challenges of globalization and other deep seated changes In this important new book Montserrat Guibernau answers these and other compelling questions about the future of national identity For Guibernau the nation states traditional project to unify its otherwise diverse population by generating a shared sense of national identity among them was always contested and was accomplished with various degrees of success in Europe and North America Such processes involved the cultural and linguistic homogenization of an otherwise diverse citizenry and were pursued by different means according to the specific contexts within which they were applied At present the impact of strong structural socio political and economic transformations has resulted in greater challenges being posed to the idea that all citizens of a state should share a homogeneous national identity Diversity is increasing and plans for further European integration contain the potential to generate significant tensions casting greater doubt on the classical concept of national identity As a result we are faced with a set of new dilemmas concerning the way in which national identity is constructed and defined The book offers a theoretical as well as a comparative approach with case studies involving Austria Britain Canada and Spain as well as the European Union and the United States of America The Identity of Nations will be essential reading for advanced students and

professional scholars in sociology politics and international relations Religion and Social Policy Paula D. Nesbitt, 2001 What is the role of religion in creating the rules of society What should religion's role be Religion in industrialized countries often appears as a private personal matter while issues of social justice are worked out in a secular public sphere But increasingly both policymakers and religious leaders are becoming aware of the role religious values play at the local national and international levels Religion and Social Policy explores how religious concerns influence those who shape and those who are shaped by policies It queries the social teachings of global denominations and local congregations as well as the implicit religious stances taken by national governments and international NGOs Broad issues such as religious tolerance globalization multiculturalism gender roles and economic inequality are carefully grounded with practical examples For students of religion sociology politics or public policy Religion and Social Policy offers an excellent overview of how the sacred and the secular mix in both the theory and practice of creating a just society Visit the editor's web page Visible Differences Dominic J. Pulera, 2002-06-05 Race The mere mention of the R word is a surefire conversation stopper In this book about America's most divisive social issue Dominic J. Pulera offers a compelling roadmap to our future This accessible and penetrating analysis is the first to include detailed coverage of America's five racial groups whites blacks Hispanics Asian Americans and Native Americans The author contends that race will matter to Americans during the twenty first century because of visible differences and that differences in physical appearance separating the races are the single most important factor shaping intergroup relations in conjunction with the social cultural economic and political ramifications that accompany them Pulera shows how why when and where race matters in the United States and who is affected by it He explains the ongoing demographic transition of America from a predominantly white country to one where nonwhites are increasingly numerous and consequently more visible The advent of a multiracial consciousness has tremendous implications for America's future because the racial significance of almost every part of the American experience is increasing as a result The author concludes on a note of cautious optimism as he explores whether the visible differences dividing Americans are reconcilable The Motel in America John A. Jakle, Keith A. Sculle, Jefferson S. Rogers, 1996 In the second volume of the acclaimed Gas Food Lodging trilogy authors John Jakle Keith Sculle and Jefferson Rogers take an informative entertaining and comprehensive look at the history of the motel From the introduction of roadside tent camps and motor cabins in the 1910s to the wonderfully kitschy motels of the 1950s that line older roads and today's comfortable but anonymous chains that lure drivers off the interstate Americans and their cars have found places to stay on their travels Motels were more than just places to sleep however They were the places where many Americans saw their first color television used their first coffee maker and walked on their first shag carpet Illustrated with more than 230 photographs postcards maps and drawings The Motel in America details the development of the motel as a commercial enterprise its imaginative architectural expressions and its evolution within the place product packaging concept along America's highways As an integral part of

America's landscape and culture the motel finally receives the in depth attention it deserves Community Suzanne Keller, 2018-06-05 This book tells the story of how a human community comes to be and how aspirations for the good life confront the dilemmas and detours of real life Suzanne Keller combines penetrating analysis of classic ideas about community with a remarkable and unprecedented thirty year case study of one of the first planned unit developments in America and the first in New Jersey Twin Rivers this pioneering venture featured townhouses and shared spaces for children's play and adult work and play in a society that stresses individual over collective goals and private over public concerns Hence the timeless questions asked over millennia How does an aggregate of strangers create an identity of place shared goals viable institutions and a spirit of mutuality and reciprocity What obstacles stand in the way and how are these overcome And how does design generate or deter community spirit Inspired by the legacy of Plato Rousseau de Tocqueville and T. N. S. Keller traces the difficult birth and the rich unfolding of Twin Rivers from a former potato field into a vibrant contemporary community Most community studies remain at a highly descriptive level This book has both broader and deeper aims endeavoring to develop principles of the common life as we enter the age of cyberspace Keller reveals the community of Twin Rivers through a multidimensional social microscope having monitored the community from the day it opened by participant observation attitude surveys the study of collective records and nearly 1 000 in depth interviews with homeowners She offers fascinating insight into how residents maintain privacy relate to neighbors cope with social conflict and develop ideas about the common good She shows that Twin Rivers residents remain hopeful about the possibility of community despite variable success in achieving their desires Indeed she argues that the hard won experience more than the utopian ideal is the true measure of community Keller concludes that despite the homogenizing effects of mass communication and globalization local communities will continue to proliferate in the foreseeable future due to changing lifestyles and the continuing quest for roots This important and engaging book will be appreciated by social scientists architects physical planners developers and lenders and community leaders as well as by the general reader interested in creating a bridge between individualism and community
