Freud And The Problem Of God

Simon Critchley

Freud And The Problem Of God:

Freud and the Problem of God Hans Küng,1979 **Freud and the Problem of God** Hans Küng (sacerdote),1979

The Question of God Armand Nicholi,2002-04-03 This elegantly written and compelling comparison of the worldviews of Sigmund Freud and C S Lewis provides a riveting opportunity to consider the most important questions mankind has ever asked Is there a God Does he care about me This profound book is for anyone who is earnestly seeking answers about truth the meaning of life and God s existence Francis Collins Director National Human Genome Research Institute Many of history s greatest thinkers have wrestled with the ultimate question of belief and nonbelief in God Though it might seem unlikely that any new arguments could possibly be raised on either side the twentieth century managed to produce two men who each made brilliant new and lasting arguments one in favor of belief and one opposed Few spokesmen have ever championed their respective positions better than Sigmund Freud and C S Lewis Sadly as far as we know they never met or debated each other directly In The Question of God their arguments are placed side by side as if they were standing at podiums in a shared room Both thought carefully about the flaws and alternatives to their positions each considered the other s views Both men considered the problem of pain and suffering the nature of love and sex and the ultimate meaning of life and death Here with their debate made explicit we can take ringside seats at one of history s most profound encounters For more than twenty five years Armand Nicholi has studied the philosophical writings of both men and has taught a popular course at Harvard that compares the two worldviews In The Question of God he presents the fruits of years of labor among the published and unpublished writings of Lewis and Freud including an extensive exploration of their private letters He allows them to speak for themselves on every major question of belief and nonbelief but also skillfully draws conclusions from their own lives Why did Freud have such difficulty maintaining lifelong friendships How did Lewis s friendships change after his transition from atheism to belief Why was Freud unable to willfully ignore his own internal moral sense even though he believed it to be purely a product of socialization and not in any way eternally true The Question of God may be the best book about belief and nonbelief ever written since it does not presuppose which answer is correct Instead it uses two of history s most articulate spokesmen to present arguments on both sides In the end readers must join Nicholi s hundreds of former students in deciding for themselves which path to follow **FREUD AND THE PROBLEM OF GOD. TRANS.BY EDWARD QUINN.**

Hans Küng,1979 A Concise Encyclopedia of the Philosophy of Religion Anthony C. Thiselton,2014-10-01 Covering thinkers from Plato to Freud offering detailed explanations of key themes such as evil and outlining clear definitions of complex ideas like the doctrine of analogy this is a comprehensive reference tool for all those studying or interested in the philosophy of religion **Integrative Approaches to Psychology and Christianity, Fourth Edition** David N.

Entwistle,2021-11-03 Since the first edition of Integrative Approaches to Psychology and Christianity was published in 2004 this has become the standard textbook on the topic Now in its fully revised fourth edition Dr Entwistle s book elucidates

historical philosophical and practical issues in the integration of psychology and Christianity As in previous editions the current text provides an introduction to many of the worldview issues and philosophical foundations that frame the relationship of psychology and theology includes scholarly reflection on the integration literature and surveys six models of possible relationships between psychology and Christianity ranging from those that are completely opposed to either religion or psychology to intermediate models that assert that some limited interaction between them is possible to viewpoints which suggest that a Christian worldview approach can be used to provide a context for exploring areas of overlapping interest between psychology and Christianity The current edition considers recent advances in both Catholic and Protestant thinking on integration including contemporary questions about what evangelicalism is and is not that shape evangelical reactions to the integration debate New content ranges from information about the contrasting views of Tertullian and Augustine to insights from contemporary psychology about factors that adversely affect the quality and reliability of human thinking to how conflict over COVID 19 has entered contemporary religious debate The book is designed to help readers become aware of the presuppositional backdrops that each of us brings to these issues Questions at the end of each chapter are included to help readers evaluate both the material and their own burgeoning approach to integration This book is ideal as a textbook for students of psychology and other behavioral and social sciences social work sociology theology counseling pastoral counseling at both the graduate and undergraduate level It is also written for the broader readership of psychologists counselors pastors and others who are interested in integration

Dialogue with the Other David Tracy, 1990 *Dialogue with the Other* expresses David Tracy s ongoing interest in the other and *The Other* His reflections enter into dialogue with figures as diverse as Meister Eckhart and William James and traditions as different as those of Buddhism Christianity and Judaism David Tracy is Distinguished Service Professor at the University of Chicago He is Professor of Theology at the Chicago Divinity School and Professor in the Committee on the Analysis of Ideas and Methods Among his better known are *Blessed Rage for Order* 1975 *The Analogical Imagination* 1981 and *Plurality and Ambiguity* 1987

The Problem with Levinas Simon Critchley, 2015-07-17 Levinas s idea of ethics as a relation of responsibility to the other person has become a highly influential and recognizable position across a wide range of academic and non academic fields Simon Critchley s aim in this book is to provide a less familiar more troubling and hopefully truer account of Levinas s work A new dramatic method for reading Levinas is proposed where the fundamental problem of his work is seen as the attempt to escape from the tragedy of Heidegger s philosophy and the way in which that philosophy shaped political events in the last century Extensive and careful attention is paid to Levinas fascinating but often overlooked work from the 1930s where the proximity to Heidegger becomes clearer Levinas s problem is very simple how to escape from the tragic fatality of being as described by Heidegger Levinas s later work is a series of attempts to answer that problem through claims about ethical selfhood and a series of phenomenological experiences especially erotic relations and the relation to the child These claims are analyzed in

the book through close textual readings Critchley reveals the problem with Levinas's answer to his own philosophical question and suggests a number of criticisms particular concerning the question of gender In the final speculative part of the book another answer to Levinas's problem is explored through a reading of the Song of Songs and the lens of mystical love

Facing the Abusing God David R. Blumenthal, 1993-01-01 Looking at the experience of Holocaust survivors and of survivors of child abuse this work asks disturbing questions why God permits victimization of the innocent *Faith and Learning on the Edge* David Claerbaut, 2004 Beginning with an autobiographical journey through his disappointing experiences with faith and learning both in his student and professorial career in Christian colleges David Claerbaut addresses the issues of faith and learning in higher education *David R. Blumenthal: Living with God and Humanity* Hava Tirosh-Samuelson, Aaron W. Hughes, 2014-07-24 David R Blumenthal is Jay and Leslie Cohen Professor of Judaic Studies at Emory University He has contributed greatly to the growth of Jewish Studies the place of Judaism in Religious Studies interreligious dialogue and the reframing of Judaism in light of the Holocaust postmodernism and poststructuralism For Blumenthal theology is an ongoing reflection about everything we believe and do in the context of the living tradition

Imagining the Jewish God Leonard Kaplan, Ken Koltun-Fromm, 2016-09-09 Jewish art has always been with us but so has a broader canvas of Jewish imaginings in thought in emotion in text and in ritual practice Imagining the Jewish God was there in the beginning as it were engraved and embedded in the ways Jews lived and responded to their God This book attempts to give voice to these diverse imaginings of the Jewish God and offers these collected essays and poems as a living text meant to provoke a substantive and nourishing dialogue A responsive living covenant lies at the heart of this book a covenantal reciprocity that actively engages the dynamics of Jewish thinking and acting in dialogue with God The contributors to this volume are committed to this form of textual reasoning even as they all move us beyond the text as foundational for the imagined people of the book That people we submit lives and breathes in and beyond the texts of poetry narrative sacred literature film and graphic mediums We imagine the Jewish people and the covenant they respond to as provocative intimations of the divine The essays in this volume seek to draw these vocal intimations out so that we can all hear their resonant call **Fragments** David Tracy, 2020-04-06 David Tracy is widely considered one of the most important religious thinkers in North America known for his pluralistic vision and disciplinary breadth His first book in more than twenty years reflects Tracy's range and erudition collecting essays from the 1980s to 2018 into a two volume work that will be greeted with joy by his admirers and praise from new readers In the first volume *Fragments* Tracy gathers his most important essays on broad theological questions beginning with the problem of suffering across Greek tragedy Christianity and Buddhism The volume goes on to address the Infinite and the many attempts to categorize and name it by Plato Aristotle Rilke Heidegger and others In the remaining essays he reflects on questions of the invisible contemplation hermeneutics and public theology Throughout Tracy evokes the potential of fragments understood both as concepts and events to shatter closed systems and

open us to difference and Infinity Covering science literature philosophy psychoanalysis and non Western religious traditions Tracy provides in Fragments a guide for any open reader to rethink our fragmenting contemporary culture

Anthropomorphic Depictions of God Zulfiqar Ali Shah,2012-01-01 This monumental study examines issues of anthropomorphism in the three Abrahamic Faiths as viewed through the texts of the Hebrew Bible the New Testament and the Qur'an Throughout history Christianity and Judaism have tried to make sense of God While juxtaposing the Islamic position against this the author addresses the Judeo Christian worldview and how each has chosen to framework its encounter with God to what extent this has been the result of actual scripture and to what extent the product of theological debate or church decrees of later centuries and absorption of Hellenistic philosophy Shah also examines Islam's heavily anti anthropomorphic stance and Islamic theological discourse on Tawhid as well as the Ninety Nine Names of God and what these have meant in relation to Muslim understanding of God and His attributes Describing how these became the touchstone of Muslim discourse with Judaism and Christianity he critiques theological statements and perspectives that came to dilute if not counter strict monotheism As secularism debates whether God is dead the issue of anthropomorphism has become of immense importance The quest for God especially in this day and age is partly one of intellectual longing To Shah anthropomorphic concepts and corporeal depictions of the Divine are perhaps among the leading factors of modern atheism As such he ultimately draws the conclusion that the postmodern longing for God will not be quenched by pre modern anthropomorphic and corporeal concepts of the Divine which have simply brought God down to this cosmos with a precise historical function and a specified location reducing the intellectual and spiritual force of what God is and represents causing the soul to detract from a sense of the sacred and thereby belief in Him

On Freud's The Future of an Illusion Mary Kay O'Neil,Salman Akhtar,2018-05-08 The Future of an Illusion reveals Freud's reflections about religion as well as his hope that in the future science will go beyond religion and reason will replace faith in God The discussion with an imaginary critic revealed his internal debate mirroring the debate about this subject in the outside world However it also enlightens his way of thinking deconstructing and constructing at the same time This volume considers Freudian ideas and their implications today while focusing on the contradictions and gaps in Freud's proposals The question of the coexistence between religion and psychoanalysis as well as the place of ideals belief illusion and imagination and no less important the benevolent and destructive aspects of religion also come into play

Psychoanalysis and the Challenge of Islam Fethi Benslama,2009 In this title the author demythifies both Islamic and western ideas of Islam by addressing the psychoanalytic root causes of the Muslim world's clash with modernity and subsequent turn to fundamentalism It reveals an alternate history of Islam and looks at its future development

God's Phallus Howard Eilberg-Schwartz,1995-12-31 God's Phallus explores the dilemmas created by the maleness of God for the men of ancient Judaism and for Jewish men today

Freud's Paranoid Quest John Farrell,1996 John Farrell argues forcefully against Freud but does something more important in the process his reframing of

the discussion of modernity has implications for every branch of contemporary humanistic inquiry and makes this a timely and most significant book HARVARD REVIEW **Fictional Characters, Real Problems** Garry Hagberg, 2016 These new essays explore central aspects of the ethical content of literature character its formation and its role in moral discernment poetic vision in the context of ethical understanding self identity and self understanding literature s role in moral growth and change and the historical background of the ethical dimension of literature The Truly Infinite Universe David James Stewart, 2019-06-14 The discoveries of general relativity and quantum mechanics in the 20th century provide the perfect opportunity for Hegel s thought to become more topical than it has ever been By bringing speculative philosophy into conversation with quantum cosmology this book develops Hegel s metaphysics of true infinitude and Hawking s theory on the origins of spacetime in tandem providing a compelling rationale for the idea that the universe is a self generating self organizing self enclosed whole Ever sensitive to the complex relationship of scientific philosophical and theological issues in theoretical cosmology the study brings a fresh perspective to the unique brand of metaphysical theology underlying speculative philosophy and offers a new way of conducting transdisciplinary work involving Hegelian thought This is essential reading for Hegel scholars Hawking scholars those interested in philosophical cosmology the ontology of the quantum void the realism vs idealism debate infinitude imaginary time and dialectical materialism and those compelled by post classical approaches to theology

Immerse yourself in the artistry of words with Crafted by is expressive creation, **Freud And The Problem Of God** .
