*Twentieth-century Modern Masters* Sabine Rewald, 1989 Published in conjunction with the exhibition held at The Metropolitan Museum of Art NYC Dec 1989 Apr 1990 The last great private collection of the art of the School of Paris 81 paintings, drawings, and bronzes by Bonnard, Braque, Dali, Dubuffet, Matisse, Miro, Picasso, and Giacometti among others With accompanying essays and additional illustrations, a total of 281, 95 in color 10x12 1/4 Annotation copyrighted by Book News Inc Portland OR [The Covarrubias Circle](#) Peter Mears, 2004 New York in the 1920s and 1930s was a modernist mecca that drew artists, writers, and other creators of culture from around the globe Two such expatriates were Mexican artist and

Renaissance man Miguel Covarrubias and Hungarian photographer Nickolas Muray Their lifelong friendship gave Muray an entrance into Covarrubias's circle of fellow Mexican artists Frida Kahlo Rufino Tamayo Juan Soriano Fernando Castillo Guillermo Meza Roberto Montenegro and Rafael Navarro whose works Muray collected This outstanding body of Mexican modernist art now owned by the Harry Ransom Humanities Research Center HRC at the University of Texas at Austin forms the subject of this beautifully illustrated volume Produced in conjunction with the Ransom Center's exhibition Miguel Covarrubias A Certain Clairvoyance this volume contains color plates of virtually all the items in Nickolas Muray's collection of twentieth century Mexican art The majority of the works are by Covarrubias while the excellent works by the other artists reflect the range of aesthetic shifts and modernist influences of the period in Mexico Accompanying the plates are five original essays that establish Covarrubias's importance as a modernist impresario as influential in his sphere as Ezra Pound T S Eliot and Jean Cocteau were in theirs Likewise the essays reestablish the significance of Nickolas Muray whose success as a master of color photography portraiture advertising imagery and commercial illustration has made him difficult to place within the history of photography as a fine art As a whole this publication of the Nickolas Muray Collection vividly illustrates the transgression of generic boundaries and the cross fertilization among artists working in different media from painting and photography to dance and ethnography that gave modernism its freshness and energy It also demonstrates that American modernism was thoroughly infused with a fervor for all things Mexican of which Covarrubias was a principal proponent and that Mexican modernists no less than their American and European counterparts answered Pound's call to make it new

**Intersected Identities** Erica Segre, 2007 There has always been an important visual element to the construction and questioning of national identity in post Independence Mexico though one that has not always been given its due outside of the celebrated and much studied muralists Ranging from the early nineteenth century to the present from the vogue for the picturesque illustrated periodicals and the influential writings of Altamirano to a wealth of twentieth century graphic artists filmmakers and photographers this book re-examines the complex variety of ways in which that visual element has operated In particular it looks at the ways in which discourses concerning ethnicity and cultural hybridity have been echoed and transformed in Mexican visual culture resulting in fields of visual discourse which are eclectic and increasingly self reflexive
