[Twentieth-Century Children's Literature](#) Elizabeth West,2022-10-24 Publishing for children between 1930 and 1960 has been
 denigrated as a relatively fallow period for creativity and quality certainly in comparison with the golden ages of children s
 literature that preceded and succeeded it This book questions this perception by using archival evidence to argue that the
 work of what was predominantly a female group of editors illustrators authors and librarians collectively referred to as
 bookwomen resulted in many titles which are still considered as classics today The bookwomen reframed ideas about how
 children s publishing should be approached and valued and in doing so laid the foundations for a subsequent generation of
 children s authors and publishers who were to achieve far greater prominence The key to the success of the bookwomen was
 their willingness to experiment the strength of their relationships and their comprehensive understanding of the book
