Brett,Fritz Drasgow,2002-03 This edited volume is in honor of Charles Hulin s contribution to the psychology of work Hulin s research has carefully developed and tested theory related to job satisfaction withdrawal from work and sexual harassment This volume will be of interest **Diary of an Angry Targeted Individual: Mind Invasive Technology (Mind Control Technology Book Series) Book 4 of 7** Renee Pittman,2014-03-31 The key to the success of weaponized beamed technology derived from the Electromagnetic Spectrum depends on several factors One of the most successful is the strategic effort to discredit victims by applying the mental illness tag and hoping it will stick For success the use of anyone around victims especially family members become crucial Renee Pittman continues her mission of exposing the hidden evil today by pulling back the shroud of secrecy This is not only done through the testimony of professionals and compiled open literature evidence but through her personal experiences and the testimony of victims both men women and even children confirming legalized ongoing human experimentation on steroids In a diary like setting the author gives explicit details of her continued day to day battle to combat covert technological terrorism She details the continued hope of many for justice system intervention and coping with the roadblocks faced as an inability to effectively litigate against a Goliath in these cases high powered government agencies of the United States of America Sadly many attorneys will not touch these difficult to prove cases due to the invisible beamed weapons being used As a result thousands of lives are being destroyed without recourse However to the dismay of those seeking to keep the widespread use of advanced psychotronic technology under wraps and its capabilities Pittman details not only its machination but also provides excellent examples of precise heinous manipulative techniques for example the creation of sexual deviance as well as a means of controlling targets and even blackmailing into submission With the focus on women many report covert efforts to turn women into sex slaves by the men of depraved minds who are some of the more perverse at the helm of these advancements The battle to bring the truth before the public continues with the assurance that the truth will ultimately prevail and inevitably always has *The Postal Record* ,2005 **Shooting for Hope** Susan J. Presley,2025-03-21 It s easy to feel scared by the increasing number of mass shootings in society It s easy to be worried about safety in our churches But the first step to preventing violence isn t tighter security it s preventative care Susan J Presley has studied mass shootings in the United States for a decade and studies three specific church shootings in depth to understand the situation This book offers real hope for churches by showing them what the current situation is how we got here and how we can help stop a shooting before a person picks up a gun Practical tools are included in this book that can quickly and easily be put to use in churches Sermon outlines curriculum and prayers can help churches move in a direction of prevention rather than reaction Through this work the church can and must change the world **The Psychology and Law of Workplace Violence** Irvin H. Perline,Jona Goldschmidt,2004 The Psychology and

Law of Workplace Violence examines the causes risk factors prevention and legal issues associated with workplace violence Previous attempts to explain these crimes are often only descriptive and do not identify the basic underlying psychological mechanisms and yet from the largest violent acts such as the September 11th Attack on America to the smallest violent workplace crime the psychological mechanisms are the same This landmark text offers a different perspective to the current concepts of workplace violence and will likely change the way people conceptualize violent crime Part One of the text identifies eight underlying factors responsible for these crimes identifies two necessary conditions for their occurrence and develops several significant new concepts related to the field Part Two discusses state and federal legal issues surrounding workplace violence Workers compensation employer liability and employer duties under negligence law hiring supervision and firing the legal aspects surrounding premises security employee privacy issues the ADA the Fair Credit Reporting Act and criminal history inquiries are but a few of the many legal topics discussed This section is written in a practical easy to understand manner and contains materials that are often available only in law libraries The final Part Three of the text is a compendium of workplace violence case histories and includes numerous nationally recognizable incidents along with many others that have not been widely publicized An interesting description of details surrounding each crime and its aftermath is included What happened to the perpetrator What happened to the victims In addition for many cases how the case relates to other cases and issues that have arisen from the case are discussed In this section which is the largest published compilation of case history material on workplace violence to date covers over Crazy Doctor Mixing Drugs and Mental Illness Peter J.
