**Strychnine & Gold (Part 1)** Kenneth Anderson, 2021-07-25 This book tells the story of the huge addiction treatment industry which flourished in the United States between 1890 and the advent of Prohibition in 1920 The story begins in Russia in 1886 where a number of doctors discovered a relatively effective pharmacological treatment for alcoholism Although this Russian discovery was published in countless major English language medical journals it was entirely ignored by the US addiction experts of the day who eschewed pharmacological treatments and instead preferred to lock people up in inebriate asylums where they could be subjected to religious coercion However an obscure railroad physician and patent medicine salesman named Leslie E Keeley who lived in the dusty prairie town of Dwight Illinois read about the Russian treatment in a medical journal and decided to give it a try Much to his surprise the Russian treatment proved highly effective and by 1891 Dr Keeley was treating upwards of a thousand patients a day at the Keeley Institute in Dwight Keeley was a salesman and a bit of a Barnum he always claimed that he had invented the cure himself after decades of painstaking research and he called it the Gold Cure claiming that his secret ingredient was gold Of course there was no gold in the gold cure other than the gold which lined Keeley's pockets However the treatment was relatively effective and by 1893 there were over 100 Keeley Institutes operating in the United States and abroad and hundreds of copycats were operating imitation gold cure institutes The Keeley Gold Cure was even adopted by the National Homes for Disabled Volunteer Soldiers and the US Army The Keeley treatment took 28 days and required hypodermic injections four times a day for the entire period On the other hand the Gatlin Institutes which opened in 1902 and the Neal Institutes which opened in 1909 used a form of aversion treatment and advertised themselves as three day liquor cures Competition between the gold cures and the three day liquor cures in the first two decades of the 20th century was fierce and intense Then as the United States entered World War One in 1917 the demand for addiction treatment suddenly dried up for a variety of reasons and the majority of these proprietary cure institutes had shut down before the enactment of Prohibition in 1920 although the parent Keeley Institute in Dwight remained in operation until 1966 This book contains the never before told tale of how these proprietary treatment institutes grew into a huge industry flourished then finally faded away as the United States entered World War One Part One of this book covers the Keeley Institutes Dipsocura the Bedal Institutes the McKanna liquor cure the Wherrell gold cure and the Hagey Cure Part Two of this book covers the Morrell Cure the National Bichloride of Gold Institutes the Oppenheimer Institutes the Tyson Vegetable Cure the Willow Bark Institutes the Telfair Sanitarium the Connelley Cure the Murray Institutes the Gatlin Institutes the Neal Institutes the S B Collins Cure and the D Unger Cure Part Two also contains appendices discussing strychnine belladonna alkaloids jag cure laws and more

**Rush and the Coming of the Civil War** Leonard L. Richards, 2008-02-12 Award winning historian Leonard L. Richards gives us an authoritative and revealing portrait of an overlooked harbinger of the terrible battle that was to come When gold was discovered at Sutter's Mill in 1848 Americans of all stripes saw the potential for both wealth and power Among the more calculating were Southern slave owners By making California a slave state they could increase the value of their slaves by 50 percent at least and maybe much more They could also gain additional influence in Congress and expand Southern economic clout abetted by a new transcontinental railroad that would run through the South Yet despite their machinations California entered the union as a free state Disillusioned Southerners would agitate for even more slave territory leading to the Kansas Nebraska Act and ultimately to the Civil War itself [That High Design Of Purest Gold: A Critical History Of The Pharmaceutical Industry, 1880-2020](#) Graham Dutfield, 2020-11-11 This book is a history of medicines and the commercial actors that make and sell them covering the 140 years since the modern pharmaceutical industry came into being It is written in a lively and accessible way aiming at a general audience that combines historical narrative with fascinating case studies on drug discovery and commercialization from the rat poison that became warfarin to a cardiovascular treatment that was turned into Viagra In a non partisan way it also examines some of the less noble manifestations of corporate behavior concluding with an agenda for reform It is hard to think of anything nobler than to bring to the world a medicine that saves lives And over 140 years of history the pharmaceutical industry has produced a range of remarkable products albeit typically with external scientific and financial support Making medicines is a very big and profit driven business and the industry does not always make the right products for the right people or at the right prices The industry wields immense power over lives and economies How has it risen to this position of dominance Are the interests of the industry and the public in balance What should we admire about the industry What should we criticise and seek to change The importance of this book lies in the fact that we are all stakeholders in this industry whether or not we own shares so we all need answers to these questions Related Link s [Optimizing Soy Gold](#) Barrett Williams, ChatGPT, 2025-09-03 Unlock the future of soybean farming with Optimizing Soy Gold your essential guide to transforming and enhancing soybean cultivation in Missouri Dive deep into a wealth of insights crafted to elevate your farming practices boost productivity and ensure sustainable growth Start your journey by exploring Chapter 1 where you will discover the rich history and current market trends of Missouri's soybean landscape Gain an understanding of the environmental challenges and opportunities that are shaping the future of agriculture in the region Advance to Chapter 2 and unveil cutting edge methods in soil health management From innovative soil amendments to the latest in cover cropping advancements learn how to revitalize your fields and foster robust growth Navigate the technological frontier in Chapter 3 with insights into precision agriculture Discover how data driven decision making and IoT integrations can revolutionize your farm management offering unprecedented control and efficiency Tackle pest issues head on in Chapter 4 by adopting bio intensive methods for pest management Explore eco friendly botanical insecticides and
