Konadu-Agyemang,Martin Kwamina Panford,2006 Having been under colonial rule for the first half of the century by 1965 all but a handful of African countries had regained their independence and were poised to take off into an era of development However Africa now suffers from the most acute form of underdevelopment anywhere in the world Bringing together a broad selection of case studies covering a wide range of key issues this volume provides a multidisciplinary exploration of Africa s development opportunities and challenges into the twenty first century **The 21st Century Fight for the Amazon** Mark

Ungar,2017-10-13 This book is the most updated and comprehensive look at efforts to protect the Amazon home to half of the

world's remaining tropical forests. In the past five years the Basin's countries have become the cutting edge of environmental enforcement through formation of constitutional protections, military operations, stringent laws, police forces, judicial procedures, and societal efforts that together break through barriers that have long restrained decisive action. Even such advances though struggle to curb devastation by oil extraction, mining, logging, dams, pollution, and other forms of ecocide. In every country, environmental protection is crippled by politics, bureaucracy, unclear laws, untrained officials, small budgets, regional rivalries, inter-ministerial competition, collusion with criminals, and the global demand for oils and minerals. Countries are better at creating environmental agencies than making sure that they work. This book explains why, with country studies written by those on the front lines, from national enforcement directors to biologists and activists.

The World Is Flat 3.0 Thomas L. Friedman, 2007-07-24. This Independence Day edition of *The World Is Flat 3.0* includes an exclusive preview of *That Used to Be Us: How America Fell Behind in the World It Invented and How We Can Come Back* by Thomas L. Friedman and Michael Mandelbaum, on sale September 5th, 2011. A New Edition of the Phenomenal #1 Bestseller. One mark of a great book is that it makes you see things in a new way, and Mr. Friedman certainly succeeds in that goal. The Nobel laureate Joseph E. Stiglitz wrote in *The New York Times*, reviewing *The World Is Flat* in 2005: "In this new edition, Thomas L. Friedman includes fresh stories and insights to help us understand the flattening of the world. Weaving new information into his overall thesis and answering the questions he has been most frequently asked by parents across the country, this third edition also includes two new chapters on how to be a political activist and social entrepreneur in a flat world, and on the more troubling question of how to manage our reputations and privacy in a world where we are all becoming publishers and public figures." *The World Is Flat 3.0* is an essential update on globalization, its opportunities for individual empowerment, its achievements at lifting millions out of poverty, and its drawbacks, environmentally, socially, and politically, powerfully illuminated by the Pulitzer Prize-winning author of *The Lexus and the Olive Tree*.
