The Gods of Battle Chris Webber, 2020-01-31 Herodotus described the Thracians who inhabited what is now roughly modern Bulgaria Romania the European part of Turkey and northern Greece as the most numerous nation of all apart from the Indians and said that they would be the most powerful of all nations if they didn't enjoy fighting each other so much There may have been a million Thracians divided among as many as 40 tribes Ancient writers were hard put to decide which of the Thracian tribes was the most valiant they were employed as mercenaries by all the great Mediterranean civilizations Thrace had the potential to field huge numbers of troops and the Greeks and Romans lived in fear of a dark Thracian cloud descending from the north devastating civilization in the Balkans The Thracian way of warfare had a huge influence on Classical Greek and Hellenistic warfare After Thrace was conquered by the Romans the Thracians provided a ready source of tough auxiliaries to the Roman army Chris Webber gives an overview of Thracian history and culture but focuses predominantly on their warfare and weapons The latest archaeological finds are used to give the most detailed and accurate picture yet of their arms armor and costume He identifies and differentiates the many different tribes showing that their weapons and tactics varied The resulting study should be welcomed by anyone interested in the archaeology and history of the region or in classical warfare as a whole Digging Politics James Koranyi, Emily Hanscam, 2022-12-19 Digging Politics explores uses of the ancient past in east central Europe spanning the fascist communist and post communist period Contributions range from East Germany to Poland to Romania to the Balkans The volume addresses two central questions Why then and why there Without arguing for an east central European exceptionalism Digging Politics uncovers transnational phenomena across the region that have characterized political wrangling over ancient pasts Contributions include the biographies of famous archaeologists during the Cold War the wrought history of organizational politics of archaeology in Romania and the Balkans politically charged Cold War exhibitions of the Thracians the historical re enactment of supposed ancient Central tribes in Hungary and the virtual archaeology of Game of Thrones in Croatia Digging Politics charts the extraordinary story of ancient pasts in modern east central Europe **Achaemenid Impact in the Black Sea** Jens Nieling, Ellen Rehm, 2010-07-16 For 200 years from the second half of the sixth century to the decades before 330 BC the Persian dynasty of the Achaemenids ruled an enormous empire stretching from the Mediterranean Sea to Afghanistan and India The Great Kings Darius I and Xerxes I even tried to conquer Greece and the northern Black Sea territories Although they failed parts of Thrace did become part of their dominion for a short period The question always rises as to why the Great Kings were interested in the western and northern Pontic zones In contrast to some of the other satrapies such as Egypt Phoenicia and Syria the Black Sea had no prosperous cities or provinces to offer One possible answer might be the desire to

conquer every part of the known world After 479 BC it seems that the Great Kings acknowledged the fact that the coast and the Caucasus formed the natural borders of their Empire The satraps on the other hand could not avoid becoming involved in the affairs of the Black Sea region in order to safeguard the frontiers they had established They had to incorporate the Greeks as accepted inhabitants of their province into the Persian administrative system Possibly they achieved this by granting them the monopoly in sea trade and using the Anatolian Greeks as the main active bearers and transmitters of Persian customs and culture More research into this chapter of Persian history is still required *The Macedonians in Athens, 322-229 B.C.* Olga Palagia, Stephen V. Tracy, 2016-11-29 For a century following the end of the Lamian War in 322 B C Athens harbour at Pireus was almost constantly occupied by a Macedonian garrison The Macedonian presence dealt a crucial blow to Athenian independence and Athenian democracy initiating the first in a long and intermittent series of foreign occupations The twenty eight papers in this volume are based on an international conference hosted by the University of Athens in May 2001 and focus on various aspects of Athenian art archaeology and history in the century of Macedonian domination They consider Athens new role as a political stepping stone for potential Successors to the throne of Macedon Cassander Demetrios Poliorketes and Antigonos Gonatas were each able to secure Macedonia by using Athens as a power base and the ways in which Athenian culture was affected by the Macedonian presence They contribute to the ongoing debate about the reasons for the Macedonian ascendancy the degree of independence accorded Athens by their Macedonian overlords the third century archon list and changes in Athenian art and architecture *Thracian Treasures from Bulgaria, June 11-September 4, 1977* Metropolitan Museum of Art (New York, N.Y.), 1977 **Thracian Treasures from Bulgaria**, 1981 **The Barbarians of Ancient Europe** Larissa Bonfante, 2011-04-29 Deals with the reality of the indigenous peoples of Europe Thracians Scythians Celts Germans Etruscans and other peoples of Italy the Alps and beyond *Ancient West & East* G.R. Wilson, 2023-11-30 This two volume encyclopedia profiles the contemporary culture and society of every country in Europe Each country receives a chapter encompassing such topics as religion lifestyle and leisure standard of living cuisine gender roles relationships dress music visual arts and architecture This authoritative and comprehensive encyclopedia provides readers with richly detailed entries on the 45 nations that comprise modern Europe Each country profile looks at elements of contemporary life related to family and work including popular pastimes customs beliefs and attitudes Students can make cross cultural comparisons for instance a student could compare social customs in Denmark

with those in Norway compare Greece's cuisine with that of Italy and contrast the architecture of Paris with Amsterdam and Barcelona. Culture and society are changing in each region and nation of Europe due to many political and economic forces both inside and outside of each nation's borders. Thracia, 2005. *Prehistoric Mining and Metallurgy in South West Iberian Peninsula*. Mark A. Hunt Ortiz, 2003. A technological and often technical study of mining and metalworking in south west Iberia from the Chalcolithic to the Late Bronze Age. *BAR International Series*, 1998. [Ancient Greeks West and East](#). G.R. Tsetschladze, 2018-07-17. This volume deals with the concept of West and East as held by the ancient Greeks. Cultural exchange in Archaic and Classical Greece through the establishment of Hellenic colonies around the ancient world was an important development and always a two-way process. To achieve a proper understanding of it requires study from every angle. All 24 papers in this volume combine different types of evidence, discussing them from every perspective; they are examined not only from the point of view of the Greeks but from that of the locals. The book gives new data as well as re-examining existing evidence and reinterpreting old theories. The book is richly illustrated.
