Gold Rush The Journals Drawings Volume 1:

American Burial Ground Sarah Keyes, 2023-10-24 In popular mythology the Overland Trail is typically a triumphant tale with plucky easterners crossing the Plains in caravans of covered wagons But not everyone reached Oregon and California Some 6 600 migrants perished along the way and were buried where they fell often on Indigenous land As historian Sarah Keyes illuminates their graves ultimately became the seeds of U S expansion By the 1850s cholera epidemics ordinary diseases and violence had remade the Trail into an American burial ground that imbued migrant deaths with symbolic power In subsequent decades U S officials and citizens leveraged Trail graves to claim Native ground Meanwhile Indigenous peoples pointed to their own sacred burial grounds to dispute these same claims and maintain their land These efforts built on anti removal campaigns of the 1820s and 30s which had established the link between death and territorial claims on which the significance of the Overland Trail came to rest In placing death at the center of the history of the Overland Trail American Burial Ground offers a sweeping and long overdue reinterpretation of this historic touchstone In this telling westward migration was a harrowing journey weighed down by the demands of caring for the sick and dying From a tale of triumph comes one of struggle defined as much by Indigenous peoples actions as it was by white expansion And finally from a migration to the Pacific emerges instead a trail of graves Graves that ultimately undergirded Native dispossession

crossing the snowy Sierra Nevada the party veered off the Old Spanish Trail in southern Utah to follow a mountaineer's map portraying a bogus trail that claimed to cut months and hundreds of miles off their route to the gold country. With winter coming however they found themselves hopelessly lost in the mountains and dry valleys of southern Nevada and California. Abandoning everything but the shirts on their backs and the few oxen that became their pitiful meals they turned their dreams of gold to hopes of survival. Utilizing William Lorton's 1849 diary of the trek from Illinois to southern Utah the reminiscences of the Jayhawkers themselves the keen memory of famed pioneer William Lewis Manly and the almost daily diary of Sheldon Young Johnson paints a lively but accurate portrait of guts grit and determination.

An American Genocide Benjamin Madley, 2016-01-01 The first full account of the government sanctioned genocide of California Indians under United States rule. Between 1846 and 1873 California's Indian population plunged from perhaps 150,000 to 30,000. Benjamin Madley is the first historian to uncover the full extent of the slaughter, the involvement of state and federal officials, the taxpayer dollars that supported the violence, indigenous resistance, who did the killing and why the killings ended. This deeply researched book is a comprehensive and chilling history of an American genocide. Madley describes pre-contact California and precursors to the genocide before explaining how the Gold Rush stirred vigilante violence against California Indians. He narrates the rise of a state sanctioned killing machine and the broad societal, judicial and political support for genocide. Many participated: vigilantes, volunteer state militiamen, U.S. Army soldiers, U.S. congressmen, California governors and others. The state and federal governments spent at least \$1,700,000 on campaigns against California Indians. Besides evaluating government officials' culpability, Madley considers why the slaughter constituted genocide and how other possible genocides within and beyond the Americas might be investigated using the methods presented in this groundbreaking book.

Death Valley and the Amargosa Richard E. Lingenfelter, 1988-01-11 This is the history of Death Valley where that bitter stream the Amargosa dies. It embraces the whole basin of the Amargosa from the Panamints to the Spring Mountains from the Palmettos to the Avawatz. And it spans a century from the earliest recollections and the oldest records to that day in 1933 when much of the valley was finally set aside as a National Monument. This is the story of an illusory land of the people it attracted and of the dreams and delusions they pursued; the story of the metals in its mountains and the salts in its sinks of its desiccating heat and its revitalizing springs and of all the riches of its scenery and lore; the story of Indians and horse thieves, lost argonauts and lost mine hunters, prospectors and promoters, miners and millionaires, stockholders and stock sharps, homesteaders and hermits, writers and tourists. But mostly this is the story of the illusions, the illusions of a shortcut to the gold diggings that lured the forty-niners of inescapable deadliness that hung in the name they left behind of lost bonanzas that grew out of the few nuggets they found of immeasurable riches spread by hopeful prospectors and calculating con men and of impenetrable
