

Joseph DeCamp (1849-1922)

Joseph DeCamp was born in Cincinnati, Ohio, a city that produced a number of leading Impressionists. Primarily a portrait and figure painter, he first studied art in his hometown, attending classes at the McMicken School of Design and the Ohio Mechanics Institute. In 1879 he went to Munich, studying at the Royal Academy and working in Florence and Venice with the Kentucky born painter Frank Duveneck. DeCamp returned to Cincinnati around 1883 but left for the last time after settling in Boston in 1886.

A true believer in aesthetic principles of careful drapery and well-crafted drapery, DeCamp became an important teacher, initially at Wellesley College, and then at the Boston Museum School and the Cooper Art School. In 1903 he joined the faculty at the Massachusetts Normal Art School, where he taught painting and portraiture classes for two decades.

When he wasn't receiving official portrait commissions of celebrated people from the worlds of commerce, education, and politics,

DeCamp was engaged in fiction writing. In 1900, he followed the example of Howard Chandler Christy and painted a number of attractive, idealized women in elegant evening gowns and high heels. He explored Impressionism and Symbolism, interpreting the effect of glowing colors and light on the human form. He painted a number of portraits (after 45). Based in New York City, he traveled to France, Italy, and Spain. In 1904, he married the artist's daughter, Edith, their union produced two sons.

WOMEN'S CONE

Although he continued to work for the DeCamp's, their views were shared by many people, which included putting the Museum of Contemporary Art in Venice in 1964. The new building in Florida, in 1973, while emphasizing the quality of the design and the architectural details of the building, in Boston and Miami designed by the DeCamp's.

The Golden Age of American Impressionism William H. Gerdts, 2003 No aspect of American art commands as much interest and appreciation as American Impressionism Lavishly illustrated and gracefully written The Golden Age of American Impressionism explores the full range of artistic achievement within this popular movement with masterworks by such distinguished artists as Mary Cassatt Childe Hassam Theodore Robinson John Twachtman and Julian Alden Weir among others

*Impressionism* John I. Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes

Shackelford,1994      *The Art and Thought of John La Farge* Katie Kresser,2017-07-05 The Art and Thought of John La Farge Picturing Authenticity in Gilded Age America offers an unprecedented portrait of one of the most celebrated artists of the Gilded Age and opens a window onto nineteenth century American culture The book reveals how the work of John La Farge contributed to a rich philosophical dialogue concerning the trustworthiness of human perception In his struggle against a common truth of iconic symbols presented by a new mass visual culture La Farge developed a subversive approach to visual representation that focused attention not on the artwork itself but on the complex real encounter of artist subject and medium from which the artwork came Katie Kresser charts La Farge s efforts to assert his own reality his own intrinsic uniqueness in a postwar society that increasingly based personal identity on standardized vocational labels and economic productivity La Farge s work is contrasted with that of Kenyon Cox James Whistler and Henry Adams all of whom for La Farge had fallen prey to the crass new visual environment albeit in very different ways This innovative study suggests that La Farge dealt with issues still relevant in a world characterized by ubiquitous mass media and the proliferation of normative visions      Early California Impressionists Ronald E. Foster,Philadelphia Museum of Art,2017-01-01 The fascinating story of the transformation of American watercolor practice between 1866 and 1925 The formation of the American Watercolor Society in 1866 by a small dedicated group of painters transformed the perception of what had long been considered a marginal medium Artists of all ages styles and backgrounds took up watercolor in the 1870s inspiring younger generations of impressionists and modernists By the 1920s many would claim it as the American medium This engaging and comprehensive book tells the definitive story of the metamorphosis of American watercolor practice between 1866 and 1925 identifying the artist constituencies and social forces that drove the new popularity of the medium The major artists of the movement Winslow Homer John Singer Sargent William Trost Richards Thomas Moran Thomas Eakins Charles Prendergast Childe Hassam Edward Hopper Charles Demuth and many others are represented with lavish color illustrations The result is a fresh and beautiful look at watercolor s central place in American art and culture      **Music in the USA** Judith Tick,Paul E. Gienow-Hecht,2009-06-05 The German American relationship was special long before the Cold War it was rooted not simply in political actions but also long term traditions of cultural exchange that date back to the nineteenth century Between 1850 and 1910 the United States was a rising star in the international arena and several European nations sought to strengthen their ties to the republic by championing their own cultures in America While France capitalized on its art and Britain on its

social ties and literature Germany promoted its particular breed of classical music Delving into a treasure trove of archives that document cross cultural interactions between America and Germany Jessica Gienow Hecht retraces these efforts to export culture as an instrument of nongovernmental diplomacy paying particular attention to the role of conductors and uncovers the remarkable history of the musician as a cultural symbol of German cosmopolitanism Considered sexually attractive and emotionally expressive German players and conductors acted as an army of informal ambassadors for their home country and Gienow Hecht argues that their popularity in the United States paved the way for an emotional elective affinity that survived broken treaties and several wars and continues to the present *Bibliographic Guide to Art and Architecture* New York Public Library.
