Fake? Mark Jones, Paul T. Craddock, Nicolas Barker, 1990-01-01 Describes the methods used to make artistic literary documentary and political forgeries and the recent scientific advances in their detection Includes over 600 objects from the British Museum and many other major collections from ancient Babylonia to the present day Art of Glass Geoffrey

Edwards, National Gallery of Victoria, 1998 Jointly published by the National Gallery of Victoria and Macmillan Publishers Australia this book is the first publication to document in depth the nature extent and history of the National Gallery of

Victorias celebrated glass collection Its author and expert on the art of glass Geoffrey Edwards has selected the most magnificent works from the collection each reproduced in colour as the basis for a broader discussion of the history of

glassmaking in the worlds leading production centres from the ancient Mediterranean to the present day With fine photographs by Garry Sommerfeld this book provides a most spectacular visual array **Glassmaking in Renaissance**

Venice W. Patrick McCray, 2017-03-02 The transformation of the Venetian glass industry during the Renaissance was not only a technical phenomenon but also a social one In this volume Patrick McCray examines the demand production and distribution of glass and glassmaking technology during this period and evaluates several key topics including the nature of Renaissance demand for certain luxury goods the interaction between industry and government in the Renaissance and technological change as a social process McCray places in its broader economic and cultural context a craft and industry that has been traditionally viewed primarily through the surviving artefacts held in museum collections McCray explores the social and economic context of glassmaking in Venice from the guild and state level down to the workings of the individual glass house He tracks the dissemination of Venetian style glassmaking throughout Europe during the sixteenth and seventeenth centuries and its effects on Venice s glass industry Integrating evidence from a wide variety of sources written documents such as shop records and recipe books pictorial representations of glass and glassmaking and the careful physical and chemical analysis of glass pieces that have survived to the present he examines the relation between consumer demand and technological change In the process he traces the organizational changes that signified a transition from an older and more traditional manner of artisan manufacture to a modern factory style manner of production **Modern Methods for**

Analysing Archaeological and Historical Glass Koen H. A. Janssens, 2013-01-29 The first scientific volume to compile the

modern analytical techniques for glass analysis Modern Methods for Analysing Archaeological and Historical Glass presents an up to date description of the physico chemical methods suitable for determining the composition of glass and for speciation of specific components This unique resource presents members of Association Internationale pour l'Histoire du Verre as well as university scholars with a number of case studies where the effective use of one or more of these methods for elucidating a particular cultural historical or historical technical aspect of glass manufacturing technology is documented

Concepts of Value in European Material Culture, 1500-1900 Bert De Munck, Dries Lyna, 2016-03-09 In contemporary society it would seem self evident that people allow the market to determine the values of products and services For everything from a loaf of bread to a work of art to a simple haircut value is expressed in monetary terms and seen as determined primarily by the objective interplay between supply and demand Yet this price mechanism is itself embedded in conventions and frames of reference which differed according to time place and product type Moreover the dominance of the conventions of utility maximising and calculative homo economicus is a relatively new phenomenon and one which directly correlates to the steady advent of capitalism in early modern Europe This volume brings together scholars with expertise in a variety of related fields including economic history the history of consumption and material culture art history and the history of collecting to explore changing concepts of value from the early modern period to the nineteenth century and present a new view on the advent of modern economic practices Jointly they fundamentally challenge traditional historical narratives about the rise of our contemporary market economy and consumer society

Richard II and the English Royal Treasure Jenny Stratford, 2012 The remarkable treasure of gold and silver from England and France which Richard II had amassed by the end of his reign in 1399 is fully revealed for the first time in this richly illustrated book The author explores the nature of the objects themselves their provenance and later fate

and examines the crucial role the treasure played in diplomacy and in financing the Hundred Years War especially at the time of Agincourt

Raman Spectroscopy in Cultural Heritage Preservation Howell G. M. Edwards, Peter Vandenabeele, Philippe Colomban, 2022-10-13 This book addresses the application of Raman spectroscopic techniques to a range of diverse problems which arise in the study conservation and restoration of artefacts and sites closely related to our cultural heritage as well as in authentication These themes are naturally wider than what at first might be considered as artworks and archaeological artefacts and the topics include pigments paintings ceramics glass sculpture and patination corrosion textiles industrial archaeology the degradation and preservation of biomaterials mummies and human skeletal remains An interesting feature is the inclusion of modern case studies which describe specific problems and approaches to the Raman spectral analysis of items important to our cultural heritage The text is prefaced with an introduction to the important parameters used in nondestructive Raman measurements and also highlights some future applications based upon novel miniaturised instrumentation for in field studies and potential screening work which will identify specimens which would repay further studies in the laboratory An attempt is made to give a snapshot of the state of the art evolution since the beginning of the technique 1970s and to point out potential further development The book is co edited by three international experts with many years experience in the application of Raman spectroscopy to artworks archaeological artefacts and in the investigation of materials and sites for cultural heritage preservation and each editor has undertaken to write individual chapters and different topics personally The adopted approach is designed to convey the sort of information which has become available from the adoption of analytical Raman spectroscopy to different problems in the field of cultural heritage preservation through the spectral interrogation of artefacts and how the interpretation of the spectral data can assist museum curators archaeologists and cultural heritage historians in the preservation and conservation of ancient materials and sites a particular advantage in this respect is the ability of Raman spectroscopy to determine generally in a strictly noninvasive procedure at the laboratory or on site with mobile instruments the presence of both organic and inorganic components in a particular specimen together nondestructively without any chemical and mechanical pretreatment being undertaken which is an essential requirement for rare and valuable samples An important aside from this work is the means of spectral identification of ongoing biodeterioration and biological colonisation in specimens in storage and the effects of environmental deterioration such as humidity and temperature upon their integrity

his vast knowledge of Jewish lore unfolds layer after layer in a most intricate way His sharp eye for detail renders the images he executed a valid representation of contemporary visual culture The iconography of the Nuremberg Miscellany with its 55 decorated leaves featuring 25 text illustrations falls into two main categories biblical themes and depictions of daily life both sacred and mundane While the biblical illustrations rely largely on artistic rendering and interpretation of texts the depictions of daily life are founded mainly on current furnishings and accoutrements in Jewish homes The customs and rituals portrayed in the miscellany attest not only to the local Jewish Minhag but also to the influence and adaptation of local Germanic or Christian rites They thus offer first hand insights to the interrelations between the Jews and their neighbors Examined as historical documents the images in the Nuremberg Miscellany are an invaluable resource for reconstructing Jewish daily life in Ashkenaz in the early modern period In a period from which only scanty relics of Jewish material culture have survived retrieving the pictorial data from images incorporated in literary sources is of vital importance in providing the missing link Corroborated by similar objects from the host society and with descriptions in contemporary Jewish and Christian written sources the household objects as well as the ceremonial implements depicted in the manuscript can serve as effective mirrors for the material culture of an affluent German Jewish family in the Early Modern period The complete Nuremberg Miscellany is reproduced in the appendix of this book

The Companion Guide to Venice Hugh Honour, 1997 It offers all that the visitor with a concern for beauty and for leisurely sight seeing will require Financial Times If ever a guidebook were designed to be read as literature it is Mr Honour's Even those who know Venice well and love it well will add to their appreciation from this seemingly endless store of information Economist Offers all that the visitor with a concern for beauty and for leisurely sight seeing will require FINANCIAL TIMES The best guide book I have ever encountered and a book I found it impossible not to read from beginning to end OBSERVER There are few pleasanter ways of passing a summer's evening than sitting over a cup of coffee and perhaps a glass of Aurum in the Piazza San Marco It is especially agreeable on those nights when the Venetian city band thunders away at some throbbingly romantic piece And all the while the younger inhabitants parade around the square chattering flirting quarrelling and staring at their visitors with that same unwinking gaze that Venetians have turned on their guests for the past five centuries The facade of San Marco closes the scene in a glitter of golden mosaic and a bubbling of cupolas while the great thick red campanile stretches up into the warm mothy darkness of the summer sky Hugh Honour it is clear knows Venice exceptionally well and catches the rhythms of the city's life with unerring skill His
