

Golden Earth

Geoffrey C. Goble

Golden Earth:

The Marriage of Heaven and Earth Randall A. Clack, 2000-08-30 From the Middle Ages to the close of the 17th century alchemy was fundamental to Western culture as scores of experimenters sought to change lead into gold Though its significance declined with the rise of chemistry alchemy continued to captivate the imagination of writers and its images still appear in modern creative works This book examines the literary representation of alchemical theory and the metaphor of alchemical regeneration in the works of Edward Taylor Edgar Allan Poe Nathaniel Hawthorne and Margaret Fuller While Taylor used alchemical metaphors to illustrate the redeeming grace of God upon the soul these same metaphors were used by Poe Hawthorne and Fuller to depict a broader concept of redemption These later writers used alchemical imagery to describe both the regeneration of the individual and the possible transformation of society For Poe alchemy became a metaphor for the transforming power of imagination for Hawthorne it became a means of representing the redeeming power of love for Fuller it figured the reconciliation of gender opposites Thus these four American writers incorporated the idea of regeneration in their works and the tropes and metaphors of the medieval alchemists provided a fascinating way of imagining the transformative process , Golden Rules Mark Kanazawa, 2015-07-10 Fresh water has become scarce and will become even more so in the coming years as continued population growth places ever greater demands on the supply of fresh water At the same time options for increasing that supply look to be ever more limited No longer can we rely on technological solutions to meet growing demand What we need is better management of the available water supply to ensure it goes further toward meeting basic human needs But better management requires that we both understand the history underlying our current water regulation regime and think seriously about what changes to the law could be beneficial For Golden Rules Mark Kanazawa draws on previously untapped historical sources to trace the emergence of the current framework for resolving water rights issues to California in the 1850s when Gold Rush miners flooded the newly formed state The need to circumscribe water use on private property in support of broader societal objectives brought to light a number of fundamental issues about how water rights ought to be defined and enforced through a system of laws Many of these issues reverberate in today's contentious debates about the relative merits of government and market regulation By understanding how these laws developed across California's mining camps and common law courts we can also gain a better sense of the challenges associated with adopting new property rights regimes in the twenty first century The Gloxinian , 1955 Annual Report for Fiscal Year ... National Science Foundation (U.S.), 1961 The History of Buddhism Geoffrey C. Goble, 2019-10-11 One of the world's most popular religions Buddhism is also one of the most misunderstood This reference overviews misconceptions related to Buddhism and reveals the truths behind the myths Buddhism is practiced by millions of adherents around the world Originating in ancient India it spread throughout Asia and then to the West and it exists in multiple traditions Despite its popularity it is also the subject of many misconceptions This book examines those

misconceptions along with the historical truths behind the myths The book begins with an introduction that places Buddhism in its historical and cultural contexts This is followed by chapters on particular erroneous beliefs related to the religion Chapters explore whether Buddhism is a singular tradition if it is a religion or a philosophical system if it is rational and scientific whether the Buddha was an ordinary human and other topics Each chapter summarizes the misconception and how it spread along with what we now believe to be the underlying truth behind the falsehood Quotations and excerpts from primary source documents provide evidence for the mistaken beliefs and the historical truths The book closes with a selected general bibliography

The Dawn of Tibet John Vincent Bellezza, 2014-08-29 This unique book reveals the existence of an advanced civilization where none was known before presenting an entirely new perspective on the culture and history of Tibet In his groundbreaking study of an epic period in Tibet few people even knew existed John Vincent Bellezza details the discovery of an ancient people on the most desolate reaches of the Tibetan plateau revolutionizing our ideas about who Tibetans really are While many associate Tibet with Buddhism it was also once a land of warriors and chariots whose burials included megalithic arrays and golden masks This first Tibetan civilization known as Zhang Zhung was a cosmopolitan one with links extending across Eurasia bringing it in line with many of the major cultural innovations of the Late Bronze Age and Iron Age Based on decades of research *The Dawn of Tibet* draws on a rich trove of archaeological textual and ethnographic materials collected and analyzed by the author Bellezza describes the vast network of castles temples megaliths necropolises and rock art established on the highest and now depopulated part of the Tibetan plateau He relates literary tales of priests and priestesses horned deities and the celestial afterlife to the actual archaeological evidence providing a fascinating perspective on the origins and development of civilization The story builds to the present by following the colorful culture of the herders of Upper Tibet an ancient people whose way of life is endangered by modern development Tracing Bellezza's epic journeys across lands where few Westerners have ventured this book provides a compelling window into the most inaccessible reaches of Tibet and a civilization that flourished long before Buddhism took root

Iron Widow Xiran Jay Zhao, 2021-10-07 Instant New York Times No 1 Bestseller A YA Pacific Rim meets the Handmaid's Tale retelling of the rise of Wu Zetian the only female emperor in Chinese history I have no faith in love Love cannot save me I choose vengeance The boys of Huaxia dream of pairing up with girls to pilot Chrysalises giant transforming robots that battle aliens beyond the Great Wall It doesn't matter that their female co-pilots are expected to serve as concubines and often die from the mental strain When 18 year old Zetian offers herself up as a concubine pilot her plan is to assassinate the ace male pilot responsible for her sister's death But after miraculously surviving her first battle Zetian sets her sights on a mightier goal The time has come to stop more girls from being sacrificed This is the historical inspired futuristic sci-fi mash up of my wildest dreams Chloe Gong Raging against the patriarchy in spectacular style Observer best books of the year Zetian is unstoppable and I dare you not to cheer her on Elizabeth Lim author of *Spin the Dawn* A New York Times bestseller Oct 10 2021 **The**
