A refreshing retro kitchen history Florence Fabricant The New York Times Nearly everyone alive today has experienced cozy welcoming kitchens packed with conveniences that we now take for granted Sarah Archer in this delightful romp through a simpler time shows us how the prosperity of the 1950s kicked off the technological and design ideals of today's kitchen In fact while contemporary appliances might look a little different and work a little better than those of the 1950s the midcentury kitchen has yet to be improved upon During the optimistic consumerism of midcentury America when families were ready to put their newfound prosperity on display companies from General Electric to Pyrex to Betty Crocker were there to usher them into a new era Counter heights were standardized appliances were designed in fashionable colors and convenience foods took over families plates With archival photographs advertisements magazine pages and movie stills The Midcentury Kitchen captures the spirit of an era and a room where anything seemed possible      **The Children's Jewish**

Office,1976      **The Kitchen** John Ota,2020-02-25 One man's quest to seek out and be inspired by the great historic kitchens of Canada and the USA John Ota was a man on a mission to put together the perfect kitchen He and his wife had been making do with a room that was frankly no great advertisement for John's architectural expertise It just about did the job but

for a room that's supposed to be the beating heart of a home and a joy to cook in the Otas left a lot to be desired And so John set out on a quest across North America exploring examples of excellent designs throughout history to learn from them and apply their lessons to his own restoration Along the way he learned about the origins and evolution of the kitchen its architecture and its appliances He cooked with expert instruction And he learned too about the homes and their occupants who range from pilgrims to President Thomas Jefferson from turn of the century tenement dwellers to 21st century Vancouver idealists from Julia Child to Georgia O Keeffe and from Elvis Presley to Louis Armstrong John Ota has a refreshingly upbeat approach and a hunger for knowledge and indeed for food His energy and enthusiasm are contagious and his insights of lasting value Illustrated throughout with photographs and also with drawings by the author this is a book for homeowners home makers interior designers cooks armchair historians and for anyone who like John Ota before them is looking for inspiration for a renovation
