**Golden Republicanism** Clarence Ames Stern,1970      [Golden Republicanism](#) Clarence Ames Stern,1964      [Monetary Regimes in Transition](#) Michael D. Bordo,Forrest Capie,2006-11-02 This important contribution to comparative economic history examines different countries experiences with different monetary regimes The contributors lay particular emphasis on how the regimes fared when placed under stress such as wars and or other changes in the economic environment Covering the experience of ten countries over the period 1700SH1990 the book employs the latest techniques of economic analysis in order to understand why particular monetary regimes and policies succeeded or failed      **The Triumph of William McKinley** Karl Rove,2015-11-24 A fresh look at President William McKinley from New York Times bestselling author and political mastermind Karl Rove a rousing tale told by a master storyteller whose love of politics campaigning and combat shines through on every page Doris Kearns Goodwin Pulitzer Prize winning author of Team of Rivals The 1896 political environment resembles that of today an electorate being transformed by a growing immigrant population an uncertain economy disrupted by new technologies growing income inequality and basic political questions the two parties could not resolve McKinley s winning presidential campaign addressed these challenges and reformed his party With a sure touch and professional eye The Washington Post Rove tells the story of the 1896 election and shows why McKinley won creating a governing majority that dominated American politics for the next thirty six years McKinley a Civil War hero changed the arc of American history by running the first truly modern presidential campaign Knowing his party needed to expand its base to win he reached out to diverse ethnic groups seeking the endorsement of Catholic leaders and advocating for black voting rights Running on the slogan The People Against the Bosses McKinley also took on the machine men who dominated his own party He deployed campaign tactics still used today including targeting voters with the best available technology Above all he offered bold controversial answers to the nation s most pressing problem how to make a new more global economy work for every American and although this split his own party he won the White House by sticking to his principles defeating a champion of economic populism William Jennings Bryan Rove brings to life the drama of an electoral contest whose outcome seemed uncertain to the candidate and his handlers until the end The New York Times Book Review in a lively and rigorous book The Wall Street Journal that will delight students of American political history      **Democracy and International Trade** Daniel Verdier,2021-04-13 In this ambitious exploration of how foreign trade policy is made in democratic regimes Daniel Verdier shows that special interests party ideologues and state officials and diplomats act as agents of the voters Constructing a general theory in which existing theories rent seeking median voting state autonomy function as partial explanations he shows that trade institutions are not fixed entities but products of political competition      *Writers Directory* NA NA,2016-03-05      [Historical Dictionary of the Gilded Age](#) T. Adams Upchurch,2009-04-13 The Gilded Age was an important three decade period in American history It was a time of transition when the United States

began to recover from its Civil War and post war rebuilding phase It was as a time of progress in technology and industry of regression in race relations and of stagnation in politics and foreign affairs It was a time when poor southerners began farming for a mere share of the crop rather than for wages when pioneers settled in the harsh land and climate of the Great Plains and when hopeful prospectors set out in search of riches in the gold fields out West The Historical Dictionary of the Gilded Age relates the history of the major events issues people and themes of the American Gilded Age 1869 1899 This period of unprecedented economic growth and technical advancement is chronicled in this reference and includes a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries
