Eakin,1989 Marshall Eakin presents what may be the most detailed

study ever written about the operations of a foreign business in Latin America and the first scholarly book length study of any foreign business enterprise in Brazil Between 1830 and 1970 the British owned St John d el Rey Mining Company Ltd constructed a diverse business conglomerate around Minas Gerais South America s largest gold mine in Nova Lima Until the 1950s the company was the largest industrial firm and the largest taxpayer in Brazil s most populous state Utilizing company and local archives Eakin shows that the company was surprisingly ineffective in translating economic success into political influence in Brazil The most impressive impact of the British operation was at the local level transforming a small agrarian community into a sizable industrial city Virtually a company town Nova Lima experienced a small scale industrial revolution as the community made the transition from the largest industrial slave complex in Brazil to a working class city torn by labor strife and violence between communists and their opponents *Latin America* John Francis Bannon, Robert Ryal Miller, Peter Masten Dunne, 1977 **Volta Redonda: a Steel Mill Comes to a Brazilian Coffee Plantation** Donald Edmund Rady, 1973 Portuguese Brazil James Lang, 1979 Do the Americas have a common history When Herbert Eugene Bolton raised this question in his presidential address to the American Historical Society in 1933 he emphasized similar events that had shaped the epic of greater America European colonists for example had to adapt their parent cultures to the American environment they found ways to exploit indigenous peoples and each region s natural resources As the competition for empire intensified each metropolis tried to monopolize colonial trade and consolidate its political control overseas Between 1776 and 1826 revolts transformed most of Europe s colonies into independent states We need not agree with Bolton s selection of events to be sympathetic to the task he defined to view the history of the Americas in a comparative context that reaches beyond the boundaries of regions and states Preface Encyclopedia of Latin American History and Culture Barbara A.
