Goldfield The Last Gold Rush On The Western Frontier:

Goldfield Sally Springmeyer Zanjani,1992 Shortly after the turn of the century discoveries by a Shoshone prospector in the barren central Nevada deserts ignited the last great goldrush on the Western mining frontier Prospectors miners stock promoters gamblers camp followers roughs lawmen and anarchists among others converged upon this unlikely plot of sand and Joshua trees from every corner of the earth The saga that ensued is first rate It tells the story of ordinary people their everyday lives hopes loves and dilemmas as well as the fates of the newly crowned nabobs who could wager a fortune on the turn of a roulette wheel Hell roaring Goldfield passed through the same stages of boom industrialization and decline as its mining camp predecessors but with some significant differences Greed knew no bounds waves of epidemic disease and violent death swept the city mining stock speculation reached new heights and the tycoon who rose to the top the ruthless ex gambler George Wingfield dominated Nevada for years to come In other ways as well the last boomtown cast a long shadow over the future Goldfield played a key role in the nineteenth century mining boom that reversed twenty years of depression and decline in a severely depopulated state and assured the triumph of mining camp ideology over other value systems Along with its careless bravado that ideology meant unfettered individualism and the primacy of materialism over moral values It meant a restless search for excitement in the saloons forerunners of today's casinos and second only to the mines in economic importance Above all it meant getting rich and getting out leaving others to pay the price **BOOK JACKET Title** Summary field provided by Blackwell North America Inc All Rights Reserved **Goldfield** Ted Faye,2023 There was a time when Goldfield Nevada was known around the world as a city growing in the desert seemingly out of nowhere with no natural resources except for the extremely rich and plentiful mineral found in the ground gold In England they were afraid the amount of gold mined in Goldfield would flood the market making gold worthless In Germany gold seekers heard of the riches and made their way to the remote desert site Those that had gone to Alaska for the great Klondike rush were now headed to Nevada Goldfield was the last great gold rush on the American frontier Discovered in 1902 its boom lasted about a decade and then came the inevitable and fateful decline Yet its story is largely unknown Nevada historians and scholars have documented Goldfield for years others have amassed vast collections of ephemera artifacts and photographs and some have even collected and restored the town's most impressive buildings Through personal photo albums and accounts of those who were there this book reflects life in Goldfield Nevada the last great American gold rush **Encyclopedia of American Social Movements** Immanuel Ness,2015-07-17 This four volume set examines every social movement in American history from the great struggles for abolition civil rights and women's equality to the more specific quests for prohibition consumer safety unemployment insurance and global justice **The State of Sex** Barbara Brents,Crystal Jackson,Kathryn Hausbeck,2009-12-16 This study of Nevada's brothels uses empirical data and sociological theory to situate the United States only legal brothel industry in the political economy of contemporary tourism The personal accounts of sex workers make this

a compelling read for students and those interested in the sex industry **Big Trouble** J. Anthony Lukas, 2012-07-17 Hailed as toweringly important Baltimore Sun a work of scrupulous and significant reportage E L Doctorow and an unforgettable historical drama Chicago Sun Times Big Trouble brings to life the astonishing case that ultimately engaged President Theodore Roosevelt Supreme Court justice Oliver Wendell Holmes and the politics and passions of an entire nation at century's turn After Idaho's former governor is blown up by a bomb at his garden gate at Christmastime 1905 America's most celebrated detective Pinkerton James McParland takes over the investigation His daringly executed plan to kidnap the radical union leader Big Bill Haywood from Colorado to stand trial in Idaho sets the stage for a memorable courtroom confrontation between the flamboyant prosecutor progressive senator William Borah and the young defender of the dispossessed Clarence Darrow Big Trouble captures the tumultuous first decade of the twentieth century when capital and labor particularly in the raw acquisitive West were pitted against each other in something close to class war Lukas paints a vivid portrait of a time and place in which actress Ethel Barrymore baseball phenom Walter Johnson and editor William Allen White jostled with railroad magnate E H Harriman socialist Eugene V Debs gunslinger Charlie Siringo and Operative 21 the intrepid Pinkerton agent who infiltrated Darrow's defense team This is a grand narrative of the United States as it charged full of hope and trepidation into the twentieth century Race of the Century Julie M. Fenster, 2005-06-14 On the morning of February 12 1908 six cars from four different countries lined up in the swirling snow of Times Square surrounded by a frenzied crowd of 250 000 The seventeen men who started the New York to Paris auto race were an international roster of personalities a charismatic Norwegian outdoorsman a witty French count a pair of Italian sophisticates an aristocratic German army officer and a cranky mechanic from Buffalo New York President Theodore Roosevelt congratulated them by saying I like people who do something not the good safe man who stays at home These men were doing something no man had ever done before and their journey would take them very far from home Their course was calculated at more than 21 000 miles across three continents and six countries It would cross over mountain ranges some as high as 10 000 feet and through Arctic freeze and desert heat from drifting snow to blowing sand Bridgeless rivers and seas of mud blocked the way while wolves bears and bandits stalked vast lonely expanses of the route And there were no gas stations no garages and no replacement parts available The automobile after all had been sold commercially for only fifteen years Many people along the route had never even seen one Among the heroes of the race were two men who ultimately transcended the others in tenacity skill and leadership Ober lieutenant Hans Koeppen a rising officer in the Prussian army led the German team in their canvas topped 40 horsepower Protos His amiable personality belied a core of sheer determination and by the race's end he had won the respect of even his toughest critics His counterpart on the U S team was George Schuster a blue collar mechanic and son of German immigrants who led the Americans in their lightweight 60 horsepower Thomas Flyer A born competitor Schuster joined the U S team as an undistinguished workman but he would battle Koeppen until the very end Ultimately the German

and the American would be left alone in the race fighting the elements exhaustion and each other until the winning car s glorious entrance into Paris on July 30 1908 Lincoln s Birthday February 12 1908 The crowds gathering on Broadway all morning were not out to honor Abe Lincoln either They were on the avenue to catch sight of the start of the New York to Paris Automobile Race There would only be one one race round the world one start and one particular way that for the people who lived through it the world would never be the same The automobile was about to take it all on not just Broadway but the farthest reaches to which it could lead On that absurdity the auto was about to come of age By ten o clock reported the Tribune Broadway up to the northernmost reaches of Harlem looked as though everybody was expecting the circus to come to town The excitement was generated by the potential of the auto to overcome the three challenges most frustrating to the twentieth century distance nature and technology First distance in the form of twenty two thousand miles of the Northern Hemisphere from New York west to Paris Second nature in seasons at their most unyielding And third the very machinery itself which would be pressed hard by the race to defeat itself Barely twenty years old as a contraption and only ten as a practical conveyance the automobile couldn t reasonably be expected to be ready to take on the world But there were men who were ready and that was what mattered From Race of the Century **Butch Cassidy** Richard M. Patterson,1998-01-01 Presents an account of the life times and crimes of the legendary outlaw **Ghosts of Goldfield and Tonopah** Janice Oberding,2015-06-08 Meet the prospectors forlorn widows and other spirits who haunt the historic remnants of Nevada s former boomtowns includes photos In the throes of early financial disaster the Silver State had little to entice newcomers or discourage residents from leaving Jim Butler s silver discovery at Tonopah changed everything With a subsequent gold discovery near Goldfield the rush was on and from these burgeoning mines Nevada s early leaders amassed their wealth and power In this fascinating book paranormal historian Janice Oberding shares firsthand accounts of ghostly encounters in the Goldfield and Mizpah Hotels and uncovers the history behind the mysterious cowboy ghost the haggard hitchhiker and other eerie local tales **Reclaiming the Arid West** William D. Nevada Test Site Annual Site Environmental Report for Calendar Year ... , The Roar and the Silence Ronald M. James, 2012-05-30 Nevada's Comstock Mining District has been the focus of legend since it first burst into international prominence in the late 1850s and its principal settlement Virginia City endures in the popular mind as the West's quintessential mining camp. But the authentic history of the Comstock is far more complex and interesting than its colorful image. Contrary to legend, Virginia City spent only its first few years as a ramshackle mining camp. The mining boom quickly turned it into a thriving urban center at its peak, one of the largest cities west of the Mississippi replete with most of the amenities of any large city of its time. The lure of the area's fabulous wealth attracted a remarkably heterogeneous population from around the world and offered employment to dozens of trades and thousands of people, both men and women representing every one of the region's diverse ethnic groups. Ronald James's brilliant account of the Comstock's long and eventful history, the first comprehensive study of the subject in over a century, examines every aspect of the region and employs information gleaned from hundreds of written sources, interviews, archeological research, computer analysis, folklore, gender studies, physical geography, and architectural and art history, as well as over fifty rare photographs, many of them previously unpublished.

The Main Event Richard O. Davies, 2014-04-21 Richard O. Davies won Foreword Reviews INDIEFAB Book of the Year Bronze Medal in Sports for *The Main Event: Boxing in Nevada from the Mining Camps to the Las Vegas Strip*. Davies' book was chosen as one of the best indie books of 2014. As the twentieth century dawned, bare-knuckle prizefighting was transforming into the popular sport of boxing, yet simultaneously it was banned as immoral in many locales. Nevada was the first state to legalize it in 1897, solely to stage the Corbett-Fitzsimmons world heavyweight championship in Carson City. Davies shows that the history of boxing in Nevada is integral to the growth of the sport in America. Promoters such as Tex Rickard brought in fighters like Jack Dempsey to the mining towns of Goldfield and Tonopah and presented the Johnson-Jeffries Fight of the Century in Reno in 1910. Prizefights sold tickets, hotel rooms, drinks, meals, and bets on the outcomes. It was boxing, before gambling, prostitution, and easy divorce that first got Nevada called America's Disgrace and the Sin State. *The Main Event* explores how boxing's growth in Nevada relates to the state's role as a social and cultural outlier. Starting in the Rat Pack era, organized gambling's moguls built arenas outside the Vegas casinos to stage championships more than two hundred from 1960 to the present. Tourists and players came to see and bet on historic bouts featuring Sonny Liston, Muhammad Ali, George Foreman, Sugar Ray Leonard, Mike Tyson, and other legends of the ring. From the celebrated referee Mills Lane to the challenge posed by mixed martial arts in contemporary Las Vegas, the story of boxing in Nevada is a prism for viewing the sport. Davies utilizes primary and secondary sources to analyze how boxing in the Silver State intersects with its tourist economy and libertarian values, paying special attention to issues of race, class, and gender. Written in an engaging style that shifts easily between narrative and analysis, *The Main Event* will be essential reading for sports fans and historians everywhere.

no place in America was more feared or mysterious than the stretch of desert on the California Nevada border known as Death Valley While today Death Valley National Park is seen as a place of natural beauty and scenic wonders there were once rumors of vaporous gases so toxic that birds flying overhead would drop dead instantly One of the first Americans to encounter this dreaded land was William Lewis Manly who left his Wisconsin home for California s 1849 Gold Rush and who heroically saved those lost pioneers who would give Death Valley its name Other pioneers in the early 20th century were Frank Shorty Harris who made Death Valley s biggest gold strike the Hoyt brothers who in 1908 struck it rich in a place called Skidoo and in the 1920s a con man named C C Julian who used the valley s reputation to scam naive investors There was a time when the entire country seemed to be consumed with news and tales of the Death Valley Gold Rush Ted Faye is a documentary filmmaker exhibit curator and historical researcher on stories and people of the Death Valley region Faye has worked with tourism boards on both the state and local levels to develop materials that tell the stories of their communities He was a historian at US Borax and many images from this book are from the Borax collection at Death Valley National Park
