The Goldfish that Exploded Mary Beth Knechtel, 1978 **Standing between Life and Extinction** David L. Propst, Jack E. Williams, Kevin R. Bestgen, Christopher W. Hoagstrom, 2021-02-15 North American deserts lands of little water have long been home to a surprising diversity of aquatic life from fish to insects and mollusks With European settlement however water extraction resource exploitation and invasive species set many of these native aquatic species on downward spirals In this book conservationists dedicated to these creatures document the history of their work the techniques and philosophies that inform it and the challenges and opportunities of the future A precursor to this book Battle Against Extinction laid out the scope of the problem and related conservation activities through the late 1980s Since then many nascent conservation programs have matured and researchers have developed new technologies improved and refined methods and greatly expanded our knowledge of the myriad influences on the ecology and dynamics of these species Standing between Life and Extinction brings the story up to date While the future for some species is more secure than thirty years ago others are less fortunate Calling attention not only to iconic species like the razorback sucker Gila trout and Devils Hole pupfish but also to other fishes and obscure and fascinating invertebrates inhabiting intermittent aquatic habitats this book explores the scientific social and political challenges of preserving these aquatic species and their habitats amid an increasingly charged political discourse and in desert regions characterized by a growing human population and rapidly changing climate

Makine,2011-11-07 In this remarkable novel which spans eighty years of the twentieth century Andre Makine describes beautifully but unsparingly the almost uninterrupted succession of violence misery and horror that has been visited on the Russian people since the October Revolution of 1917 For those quick to forget or too young to remember he paints a graphic portrait of those years in a three generational novel that is as moving as it is revealing A young Russian army doctor is sent to distant shores to bind the wounds of those in Africa the Near East and South America that are pawns in the global political chess game during the Cold War Recruited by an intelligence agent he experiences the bloody reality of revolution on the ground The book casts its eye back toward his grandfather Nikolai a Red cavalry soldier fighting the Whites in 1920 and his father whose story of World War II is invoked with a passion and force that bear comparison to the best writing on the subject From the battlefields of the 1920s to the harsh African heat and dust of the desert in the 1980s from the orphanage where the narrator spent his youth to the art galleries and chic salons of the glittering new West Requiem for a Lost Empire has all the sweep and depth all the beauty and insight of the great Russian novels It is as the eminent French critic Edmonde Charles Roux noted an astonishing novel one that will surely stand the test of time **Miracle Run** Corrine

Morgan-Thomas,Gary Brozek,2009-03-03 The inspiration for the Lifetime movie and a guide for parents confronting their autistic children s journeys to adulthood Parents of autistic children often wonder What will happen to our kids when they grow up Can they work Have relationships and their own families Here is the poignant story of one woman watching her autistic boys reach adulthood A single mother barely making ends meet Corrine Morgan Thomas could hardly afford doctors for her twins Stephen and Phillip After their diagnosis of autism no one else thought these boys would ever amount to anything But Corrine managed single handedly to keep the boys out of institutions and in regular school And their inspiring story became Lifetime television s Miracle Run The real miracle though was what happened where the movie left off when Stephen and Phillip graduated to face adult autism From their diagnosis to the present day when the boys have grown into young men leading happy lives Corrine s eye opening story is full of candor humor and most of all hope **LOGIC**

The Hajj and Europe in the Age of Empire ,2016-10-05 The present volume focuses on the political perceptions of the Hajj its global religious appeal to Muslims and the European struggle for influence and supremacy in the Muslim world in the age of pre colonial and colonial empires In the late fifteenth century and early sixteenth century a pivotal change in seafaring occurred through which western Europeans played important roles in politics trade and culture Viewing this age of empires through the lens of the Hajj puts it into a

different perspective by focusing on how increasing European dominance of the globe in pre colonial and colonial times was entangled with Muslim religious action mobility and agency The study of Europe s connections with the Hajj therefore tests the hypothesis that the concept of agency is not limited to isolated parts of the globe By adopting the tools of empires the Hajj in itself a global activity would become part of global and trans cultural history With contributions by Aldo D Agostini Josep Llu s Mateo Dieste Ulrike Freitag Mahmood Kooria Michael Christopher Low Adam Mestyan Umar Ryad John Slight and Bogus aw R Zag rski **Exploding Pigs and Other Bizarre Animal Stories** ,2000 **Island Town** Simon Longman,2018-08-27 Kate Sam and Pete are stuck The town they live in doesn t have much going on But they don t really care about that when they ve got cheap cider and their whole lives ahead of them And they re going to break away anyway Someone s about to get a car And all roads go somewhere else Right Island Town is bittersweet story about friendship hope and dreams of an escape Written by Simon Longman recipient of the 2018 George Devine Award for Most Promising Playwright Gundog Royal Court **The Explosion of Life Forms** ,2021-04-13 One of the essential characteristics of living beings is the explosion of variety in their forms that is intrinsically linked to the diversity of the environments they have adapted to This book the result of collaboration between international specialists analyzes the multiplicity of these morphologies It explores the origin of forms their role in defining living things and the relationship between form and function It exposes the role of genes and epigenetics and examines the forms of bacteria protists and plants The Explosion of Life Forms also studies the memory of animals and their sensory processes the forms of robots built in the image of living things and medical technologies aimed at restoring damaged living forms Finally this work questions a common principle of construction in the diversity of forms as well as the idea of an abandonment of the form a possible hidden defect of some modern philosophies *Worlds Explode (Darkmouth, Book 2)* Shane Hegarty,2015-07-30 The second book in the monstrously funny and action packed new series Darkmouth It s going to be legendary **The Night My Mother Met Bruce Lee** Paisley Rekdal,2007-12-18 When you come from a mixed race background as Paisley Rekdal does her mother is Chinese American and her father is Norwegian thorny issues of identity politics and interracial desire are never far from the surface Here in this hypnotic blend of personal essay and travelogue Rekdal journeys throughout Asia to explore her place in a world where one s appearance is the deciding factor of one s ethnicity In her soul searching voyage she teaches English in South Korea where her native colleagues call her a hermaphrodite and is dismissed by her host family in Japan as an American despite her assertion of being half Chinese A visit to Taipei with her mother who doesn t know the dialect leads to the bitter realization that they are only tourists which makes her further question her identity Written with remarkable insight and clarity Rekdal a poet whose fierce lyricism is apparent on every page demonstrates that the shifting frames of identity can be as tricky as they are exhilarating **The Exploding Eye** Wheeler Winston Dixon,1997-10-30 The Exploding Eye explores the work of lesser known American experimental filmmakers whose work has been excluded from the dominant
