Golf Courses Of The Monterey Peninsula:

The Golf Courses of the Monterey Peninsula Udo Machat, 1989 Monterey Peninsula's Sporting Heritage John W. Frost, 2007 Over the first half of the 20th century the Monterey Peninsula produced an exceptional number of outstanding athletes a few of whom earned widespread recognition They were the offspring of Sicilian fishermen of contract laborers from Spain and of Japanese abalone divers and some were from families that had been here for generations and produced dynasties of sports figures Behind it all lay two expanding and often conflicting peninsula industries sardine fishing in Monterey and the recreational empire of Del Monte Properties *Golf on the Peninsula* Courses and Links, Inc, 1973 **A Difficult Par** James R. Hansen, 2015-05-12 The definitive account of modern golf's foremost architect from the New York Times bestselling author of *First Man The Life of Neil A Armstrong* Robert Trent Jones was the most prolific and influential golf course architect of the twentieth century and became the archetypical modern golf course designer Jones spread the gospel of golf by designing courses in forty two US states and twenty eight countries Twenty U S Opens America's national championship have been contested on Jones designed courses New York Times bestselling biographer James R Hansen author of *First Man The Life of Neil A Armstrong* recounts how an English immigrant boy arrived in upstate New York in 1912 just as golf was emerging as a popular pastime in America Jones excelled as a golfer earning admission to Cornell University whose faculty consented to a curriculum tailored to teach him the knowledge needed to design golf courses Cornell provided the springboard for an act of self invention that propelled Jones from obscurity to worldwide fame Jones believed that every hole should be a difficult par but an easy bogey As gifted as he was at golf design Jones was equally skilled as a salesman promoter and entrepreneur *Golf Digest's* annual rankings of the 100 Greatest Golf Courses have regularly featured about fifty Jones designs paving the path for his two sons Robert Jr and Rees whose work would carry on their father's tradition Hansen examines Jones's legacy in all its complexity and influence including the fraternal rivalry of Jones's distinguished sons **Pebble Beach** Hotelling Neal Dost Joanne, Neal Hotelling, 2012-03 Pebble Beach is the most storied golf venue in the world Nearly every legendary golfer of the past 100 years has played there Great champions have been crowned and have lost there hollywood movies have been filmed there U S presidents and royalty from around the world have visited and played on its legendary fairways And yet from the beginning it has been a golf paradise open for everyone to enjoy Award winning writer historian Neal Hotelling brings to life countless tales of past championships as well as the underlying history of the truly spectacular meeting of land and sea **River in Ruin** Ray A. March, 2012-04-01 The thin ribbon of the Carmel River is just thirty six miles long and no wider in most places than a child can throw a stone It is the primary water supply for the ever burgeoning presence of tourists agriculture and industry on California's Monterey Peninsula It is also one of the top ten endangered rivers in North America The river's story which dramatically unfolds in this book is an epic tale of exploitation development and often unwitting degradation reaching back to the first appearance of

Europeans on the pristine peninsula River in Ruin is a precise weaving of water history local and larger and a natural social and environmental narrative of the Carmel River Ray A March traces the river s misuse from 1879 and details how ever more successful promotions of Monterey demanded more and more water leading to one dam after another As a result the river was disastrously depleted cluttered with concrete rubble and inhospitable to the fish prized by visitors and residents alike March s book is a cautionary tale about squandering precious water resources about the ultimate cost of a ruined river and the slim but urgent hope of bringing it back to life
