Golfe La Guerre Cachee:

The Ideology of Tyranny G. Preparata, 2007-09-14 The book ascribes the late state of paralysis affecting dissent in America to the adoption of a peculiar gospel of divisiveness which was promoted in the Eighties by importing from France the theories of philosopher Michel Foucault *Planet Earth* Rosalie Bertell, 2001 As weaponry and warfare have become more complex and sophisticated so the long term effects have become more deadly In *Planet Earth* Rosalie Bertell proposes that the key to understanding the impact of future wars lies in a close analysis of the past She shows how the quest for military power has destabilized the delicate natural balance of the earth's ecosystem causing widespread devastation in environmental economic and social terms and calls for a new approach to security which rises above national agendas to seek global solutions to a global problem **Golfe** Thierry d'. Oil, Power, and War Matthieu Auzanneau,2020-02-20 The story of oil is one of hubris fortune betrayal and destruction It is the story of a resource that has been undeniably central to the creation of our modern culture and ever present during the darkest exploits of empire the world over For the past 150 years oil has become the most essential ingredient for economic military and political power And it has brought us to our present moment in which political leaders and the fossil fuel industry consider extraordinary and extraordinarily dangerous policy on a world stage marked by shifting power bases Upending the conventional wisdom by crafting a people s history award winning journalist Matthieu Auzanneau deftly traces how oil became a national and then global addiction outlines the enormous consequences of that addiction sheds new light on major historical and contemporary figures and raises new questions about stories we thought we knew well What really sparked the oil crises in the 1970s the shift away from the gold standard at Bretton Woods or even the financial crash of 2008 How has oil shaped the events that have defined our times two world wars the Cold War the Great Depression ongoing wars in the Middle East the advent of neoliberalism and the Great Recession among them With brutal clarity Oil Power and War exposes the heavy hand oil has had in all of our lives and illustrates how much heavier that hand could get during the increasingly desperate race to control the last of the world s easily and cheaply extractable reserves
