Richmann, 2024-08-27 This book asserts that authority is a contested category and explores why traditional notions of authority are increasingly in tension with progressive and postmodern claims devolving into stalemate schizophrenia or power plays Offering a Christian framework as a philosophically coherent and practical alternative for teachers the author argues that Jesus provides a pattern from which to reconstruct our conception of teaching authority in ways that align with evidence informed teaching practices and cultivate intellectual virtues Rather than examine Jesus as teacher the book instead applies the central insight on authority that Jesus embodies This authority with which Jesus taught it argues stemmed from his passion that is passive even suffering experience The author aligns this to a subject centered conception of teaching as opposed to student centered or teacher centered in which the subject is the authority and knowing is identified with being acted upon by the subject Teaching with authority thereby becomes a matter of unveiling suffering with students and inviting them into their own suffering encounter with the subject Building on the work on Parker Palmer and exploring pedagogical practice from a Christian perspective this book will appeal to scholars and researchers with interests in higher education evidence based teaching educational theory religion and education and Christian history and thought **Pedophiles and**

Al-Kohlani,2018-03-06 In this book Al Kohlani examines fifty five Muslim and non Muslim countries from 1960 to 2010 in response to religious theory that associates certain religions with gender inequality and modernization theory which downplays the role of religion on gender inequity and associates gender inequality with socioeconomic factors The author explores both schools of thought and posits that on average Muslim countries have lower educational equality in comparison to non Muslim countries with less religious constitution An interdisciplinary study drawn from the fields of world politics public policy in education and political religion this book responds not only to debates within academia but also to larger debates in society about the role of religion in the state the specific challenges of the relationship of Islam and the public policies and the relationship between constitution and gender equality *Crisis, Controversy and the Future of Religious Education* L. Philip Barnes,2019-12-05 *Crisis Controversy and the Future of Religious Education* sets out to provide a much needed critical examination of recent writings that consider and respond to the crisis in religious education and more widely to a crisis in non confessional forms of religious education wherever practised The book is critical wide ranging and provocative giving attention to a range of responses some limited to the particular situation of religious education in England and some of wider application for example that of the role and significance of human rights and that of the relevance of religious studies and theology to religious education It engages with

a variety of positions and with recent influential reports that make recommendations on the future direction of religious education Constructively it defends both confessional and non confessional religious education and endorses the existing right of parental withdrawal Controversially it concludes that the case for including non religious worldviews in religious education and for the introduction of a statutory objective national religious education curriculum for all schools are both unconvincing on educational philosophical and evidential grounds Timely and captivating this book is a must read for religious and theological educators RE advisers classroom teachers student teachers and those interested in the field of religious education *Handbook of Education Politics and Policy* Bruce S.
