Good Beach Guide 2001:

Animals, Biopolitics, Law Irus Braverman, 2015-12-22 Typically the legal investigation of nonhuman life and of animal life in particular is conducted through the discourse of animal rights. Within this discourse legal rights are extended to certain nonhuman animals through the same liberal framework that has afforded human rights before it. *Animals Biopolitics* Law envisions the possibility of lively legalities that move beyond the humanist perspective. Drawing on an array of expertise from law, geography and anthropology through animal studies and posthumanism to science and technology studies, this interdisciplinary collection asks what in legal terms it means to be human and nonhuman, what it means to govern and to be governed, and what are the ethical and political concerns that emerge in the project of governing not only human but also more than human life.

Beach Management Anton Micallef, Allan Williams, 2009-06-30 This comprehensive book provides full coverage of beach management principles and practice with an emphasis on needs based management. The book provides a wealth of case studies from the UK, USA, New Zealand, the Mediterranean and Latin America. The emphasis throughout the book is on optimizing economic, social and environmental outcomes and reconciling competing needs in management planning for beach area. This book is an indispensable tool kit for all professionals in beach and coastal beach zone management. It is also a comprehensive primer for university undergraduate students in professional planning, land management, coastal geography as well as tourism and conservation planning and management.
