**Edgar Cayce's Atlantis** Gregory L. Little,Lora Little,John Van Auken,2006-02 From the ancient Akashic Records renowned psychic Edgar Cayce gives an amazingly detailed and fascinating vision into the legendary world of Atlantis and its extraordinary people The section on the people and places of Atlantis is exclusive to Cayce s visions into this celebrated paradise Cayce s readings describe the powerful crystal the flying machines that could soar through the air under water and out into space the energy generators that harnessed the sun s rays and channeled them into building a magnificent country of luxury wealth and peace Cayce s discourses describe how the Atlanteans rejuvenated their bodies regularly allowing them to live hundreds of years longer than we do today But he also tells of how this great culture fell from grace and power destroying itself and its continent in the process In a strangely prophetic discourse Cayce says that many ancient Atlanteans are reincarnating in the world today bringing with them both the good and evil of that ancient land Drs Gregory and Lora

Little and John Van Auken present this story in an absorbing narrative of the legends of Atlantis and the latest discoveries in the ongoing search for remnants of the lost continent. The book contains over a hundred illustrations, some never published before. Included in the story of Atlantis are vignettes of the forgotten lands of Mu and Lemuria, the legend of Lilith, and Amilios Plato's history and strange creatures of Atlantean lore. This book includes a complete description of and update on the three Atlantean record caches that Edgar Cayce identified and the modern day explorations seeking to find these lost halls of the ancient records. Daniel Benor M.D. reveals a world of science that few knew existed. Included in this groundbreaking book are 124 scientific studies showing that spiritual healing works. Many of the controlled studies look at the effects of spiritual healing on humans; others look at its effects on plants and animals. Some of the most interesting laboratory studies demonstrate its effect on water and other materials. You'll read how many of the world's most successful healers, such as Olga Worrall, Oszkar Estebany, and Harry Edwards, describe their methods and subjective experiences. The sacred Flower of Life pattern, the primary geometric generator of all physical form, is explored in even more depth in this volume, the second half of the famed Flower of Life workshop. Through an intricate and detailed geometrical mapping, Drunvalo Melchizedek shows how the seemingly simple design of the Flower of Life contains the genesis of our entire third-dimensional existence. From the pyramids and mysteries of Egypt to the new race of Indigo children, Drunvalo presents the sacred geometries of the Reality and the subtle energies that shape our world. We are led through a divinely inspired labyrinth of science and stories, logic and coincidence, on a path of remembering where we come
