Maury Klein is one of America's most acclaimed historians of business and society In *The Power Makers* he offers an epic narrative of his greatest subject yet the power revolution that transformed American life in the course of the nineteenth century The steam engine the incandescent bulb the electric motor inventions such as these replaced backbreaking toil with machine labor and changed every aspect of daily life in the span of a few generations The cast of characters includes inventors like James Watt Elihu Thomson and Nikola Tesla entrepreneurs like George Westinghouse savvy businessmen like J P Morgan Samuel Insull and Charles Coffin of General Electric Striding among them like a colossus is the figure of Thomas Edison who was creative genius and business visionary at once With consummate skill Klein recreates their discoveries their stunning triumphs and frequent failures and their unceasing bare knuckled battles in the marketplace In Klein's hands their personalities and discoveries leap off the page *The Power Makers* is a dazzling saga of inspired invention dogged persistence and business competition at its most naked and cutthroat a biography of America in its most astonishing decades

Dangerous Creations Ana I. Oancea, 2025-05-27 *Dangerous Creations* presents a master narrative of the inventor in fin de siècle French literature by analyzing the works of Jules Verne Albert Robida mile Zola and Villiers de l'Isle Adam Their writings challenge the role of science in shaping French national identity and aim to transform contemporary understandings of science and technology The book reveals how Verne Robida Zola and de l'Isle Adam reimagine the figure of the inventor reshaping the literary standards of their time Universally male in these narratives the inventor serves as a flawed exemplar

of national heroism during the Age of Empire a period marked by significant external threats and internal strife while also embodying unrestrained creativity Ultimately the inventor novel reflects broader French anxieties surrounding scientific progress empire and gender Ana Oancea explores the transmedia and transnational legacy of the fin de siècle inventor novel through vignettes that highlight similarly themed narratives in contemporary popular culture These sections engage with films television series graphic narratives and video games that reinterpret key aspects of the inventor narrative shedding light on its power structures racial and gender politics and colonial aspirations The Rise of Western Power Jonathan Daly,2021-01-14 In this second edition of *The Rise of Western Power* Jonathan Daly retains the broad sweep of his introduction to the history of Western civilization as well as introducing new material into every chapter enhancing the book's global coverage and engaging with the latest historical debates The West's history is one of extraordinary success no other region empire culture or civilization has left so powerful a mark upon the world Daly charts the West's achievements representative government the free enterprise system modern science and the rule of law as well as its misdeeds two World Wars the Holocaust imperialistic domination and the Atlantic slave trade Taking us through a series of revolutions he explores the contributions of other cultures and civilizations to the West's emergence weaving in historical geographical and cultural factors The new edition also contains more material on themes such as the environment and gender and additional coverage of India China and the Islamic world Daly's engaging narrative is accompanied by timelines maps and further reading suggestions along with a companion website featuring study questions over 100 primary sources and 60 historical maps to enable further study **Body Shots** Jonathan Auerbach,2007-10-09 Auerbach places the body at the center of cinema's first decade of emergence and challenges the idea that for early audiences the new medium's fascination rested on visual spectacle for its own sake *Century Illustrated Monthly Magazine ...* ,1911 **Reconsidering a Century of Flight** Roger D. Launius,Janet R. Daly Bednarek,2015-12-01 On December 17 1903 Orville and Wilbur Wright soared into history during a twelve second flight on a secluded North Carolina beach Commemorating the 100th anniversary of the first flight these essays chart the central role that aviation played in twentieth century history and capture the spirit of innovation and adventure that has characterized the history of flight The contributors all leading aerospace historians consider four broad themes relating to the development of flight technology innovation and the technology of flight civil aeronautics and government policy aerial warfare and aviation in the American imagination Through their attention to the political economic military and cultural history of flight the authors establish that the Wrights' invention and all that followed in both air and space was one of the most significant technologies of the twentieth century fundamentally reshaping our world Supported by the First Flight Centennial Commission The contributors are Janet R. Daly Bednarek Tami Davis Biddle Roger E. Bilstein Hans Joachim Braun David T. Courtwright Anne Collins Goodyear Roger D. Launius William M. Leary David D. Lee W. David Lewis John H.
