An essential guide for researchers and students of Republican China, this volume presented in both English and Chinese covers personal papers, correspondences, memoirs, diaries, photographs, moving images, and other materials held at academic and research institutions across the United States and Canada. It includes concise descriptions of the people, organizations, and events connected to each entry and notes when certain collections are closely related and when materials are digitized for online access. The book corrects common errors associated with the library records of many archives and updates or completes information on the objects of these records. More than a straightforward itemization, this book adds significant depth to any research on the history and global import of China's modern development.

A STUDY ON JAPANESE MILITARY "COMFORT WOMEN" Zhiliang Su, 2019-11-04. In the history of Asia, the disasters such as the war of aggression launched by Japan are unprecedented. The issue of comfort women has not yet become history. History is an objective reality. In the 1930s, the war of aggression launched by Japanese militarism brought great disasters to the Chinese people and the people of Asian countries, including Japan itself. No one can deny and overturn the historical facts. History is a mirror which provides people with positive and negative lessons. Whether Japan should follow the path of peaceful development or repeat the mistakes of militarism is a matter of great concern to the people of all Asian countries who were once victims of Japanese aggression. It is also a matter for far-sighted Japanese politicians to consider seriously.

Tiger Girls Minglu Chen, 2012-03-29. The existing scholarship on women in China suggests that gender inequality still exists against the background of the country's reform and opening in

recent years. However, the situation of women in enterprise ownership and leadership seems to indicate that despite such notions of disadvantage amongst women, some of them are playing a more active and significant role in China's economic development. Based on a series of interviews with female enterprise owners, wives of enterprise owners, and women managers conducted in diverse locations in three different provinces of China, *Tiger Girls* examines the deeper realities of women entrepreneurs in China and, by extension, the role of leading women in the workforce. By analyzing information on these women's personal experiences, careers, and families, this book investigates their status at work and at home, as well as their connections with local politics. The research results suggest that although traces of gender inequality can still be found in these women's lives, they appear to be actively engaged in the business establishment and operation and gradually casting off the leash of domestic responsibilities. This book will be of interest to students and scholars of Chinese Studies, Chinese Business, Chinese Economics, and Asian Studies. Minglu Chen is ARC Postdoctoral Fellow in the Department of Government and International Relations at Sydney University, Australia.
