Education And Civic Culture In Post Communist Countries:

Education and Civic Culture in Post-Communist Countries S. Webber, I. Liikanen, 2016-01-20 The vivid discussion on civil society in Eastern Europe that flourished during the late 1980s and early 1990s has faded somewhat and been partly replaced by new attempts to conceptualise the nature of social change taking place in these countries This book strives to continue and go beyond the civil society discourse by analysing the interrelationship between education and civic culture in post communist countries The volume offers detailed case studies written by specialists from the region and from Western Europe and North America examining everyday patterns of civic culture the linkage between education and national identity ethnicity gender and religion the experience and attitudes of youth and attempts to render education systems better suited to the demands of post communist society

Russian Civil Society: A Critical Assessment Alfred B. Evans, Laura A. Henry, Lisa Sundstrom, 2016-07-22 A vibrant civil society characterized by the independently organized activity of people as citizens undirected by state authority is an essential support for the development of freedom democracy and prosperity Thus it has been one important indicator of the success of post communist transitions This volume undertakes a systematic analysis of the development of civil society in post Soviet Russia An introduction and two historical chapters provide background followed by chapters that analyze the Russian context and consider the roles of the media business organized crime the church the village and the Putin administration in shaping the terrain of public life Eight case studies then illustrate the range and depth of actual citizen organizations in various national and local community settings and a concluding chapter weighs the findings and distills comparisons and conclusions

A Future Without Child Labour, 2002 Child labour in fishing *Modernisation in Russia since 1900* Markku Kangaspuro, Jeremy Smith, 2006-12-27 Modernisation has been a constant theme in Russian history at least since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state

Modernisation has had profound effects on Russian society and the attitudes of different social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia **Crossing the Line** Svetlana

Stephenson,2006 This pioneering book is the first to explore the experiences of homeless people in Russia in the late Soviet period and during post socialist transition By using in depth interviews Svetlana Stephenson places the narratives within the framework of theoretical perspectives on social spatial exclusion and advances the understanding of homelessness in Russia as an extreme case of social territorial displacement *Mind the Backlash: Gender Discrimination and Sexism in*

Contemporary Societies Hilde Coffe,Susan Banducci,Marta Fraile,Jessica Fortin-Rittberger,Amy Alexander,2023-09-26

Decades of campaigns and policy efforts have brought significant progress in women s economic and political status and pushed gender equality up the global policy agenda The goal of gender equality however still remains largely out of reach as illustrated by the recent wave of women s protests against sexual harassment assault and gender violence e g MeToo movement Some European countries e g Poland Hungary and Lithuania have even seen their performance on gender equality backslide in recent years and in parallel to calls for increased equality a wave of mobilisation against gender equality has appeared in the public discourse Conservative authoritarian and populist voices in many democracies are now contesting the equal participation of men and women in society under the auspices of a war on gender ideology This backlash against women s empowerment carries considerable implications for anti discrimination laws policies protecting women against domestic violence reproductive health and the establishment of gender quotas Given the backlash against gender observed in various countries around the globe we argue that now is a critical time to revisit and broaden our knowledge about gender discrimination gender equality and sexism Our proposed Research Topic will provide a gender perspective to illustrate and understand the recent illiberal turn in politics in a variety of contexts Taking a comparative approach we aim at improving our understanding of how sexism discrimination and gender equality operate at the societal level and how they shape broader social and political views At the individual level we will study the current seemingly opposing forces for and against gender equality by analysing the antecedents predispositions experiences and motivations explaining and underpinning these attitudes towards different ways of gender equality sexism and discrimination Women and Gender in Central and Eastern

Civil War in Poland 1942-1948 A. Prazmowska,2004-07-29 This challenging new work uses archival research to examine Poland's government in exile during the Second World War as it sought both to fight against the advances of Germany and the Soviet Union and to prepare for the moment when it would once more be possible to establish a national Polish government The author suggests that the Poles were as much at war with themselves throughout the war and in the years immediately following the end of hostilities as they were with the German and Soviet forces Civil War in Poland 1942 1948 contributes to the debate on the fate of Poland in this complex period the origins of Communist regimes in Eastern Europe and the process of transformation in Europe during and since the Second World War

Russian Nationalism and the Politics of Soviet Literature S. Cosgrove,2004-01-29 Russian nationalism increasingly important as the Russian Federation finds its place in the world is not a new phenomenon Who were the Russian nationalists before the creation of today's Russia What were their views What was their political influence This book seeks answers to these questions by looking in detail at the last decade of the USSR through the eyes of a group of Russian nationalist intellectuals gathered around the literary journal Nash sovremennik The author suggests that in the Twenty first century a specifically Russian type of nationalism ethnic and statist could provide the ideological underpinning for a new authoritarianism
